### **Vision, Mission & Program Educational Objectives**

<b>Criterion 1</b>	<b>Vision, Mission &amp; Program Educational Objectives</b>	<b>50</b>
	<b>Institute Marks</b>	<b>50</b>

**1.1. Vision and Mission statements (5)**

<b>Institutes' marks - 5</b>
------------------------------

**Vision - Indira School of Business Studies PGDM**

**“To become a Preferred Business School for Students, Faculty and Industry”**

**Appropriateness and Relevance of Vision**

Stated vision at Indira School of Business Studies PGDM (ISBS PGDM) is a statement about what the institution wants to become. It resonates with all members of ISBS PGDM and helps them feel engaged to be part of something much bigger than themselves. It also describes the institution’s capabilities and image of itself. It gives shape and direction to its future. It is relevant to the needs of the immediate stakeholders of the organisation and, in action as its mission, points to the set of activities that would help the organisation achieve the total stakeholder satisfaction.

**Mission Statement**

<b>M1</b>	To promote learning environment for students from diverse cultures and engage them in globally relevant knowledge dimensions for future application in industry, business, and life.
<b>M2</b>	To provide research-oriented learning environment for faculty.
<b>M3</b>	To foster alliance with industry.
<b>M4</b>	To promote ethical and social values as a basis of humane social order.

**Appropriateness and Relevance of Mission**

The Mission statements at ISBS PGDM clearly state the history and the identity of the B-School. The Mission Statements describe the purpose of the organisation and its objectives and goals in the given context. Coherence of the mission are maintained through all levels and activities. The mission statements help to familiarize with the institution and its background, purpose and its present and future activities.

The details of strategic intents and actions emerge from the mission statement and are indicative of an understanding of the environment in which the institution operates, including an assessment of its resources and constraints.

**The prime components of Mission at ISBS PGDM and the ones that the institute strives to align its activities with are:**

**✓ Promotion of learning environment**

Learning Environment is encouraged which leads to creating a teaching-learning ethos that allows both the students and the teachers to continuously improve their standards of performance in the pursuit of excellence. We acknowledge that we are working with students who have differing talent and abilities. We are committed to the creation of an environment

whereby we help individuals to recognize and realize their potential. We wish to promote a holistic approach to learning by equipping the students to become capable of understanding; communicating and applying the discipline they choose to learn in business and industry.

✓ **Equal opportunity and respect for diversity**

Equal opportunity, or equality of opportunity, is defined as ensuring that everyone is entitled to freedom from discrimination. Diversity describes the range of visible and non-visible differences that exist between people. Managing diversity harnesses these differences to create a productive environment in which everybody feels valued, where talents are fully utilised and in which stakeholders' goals are met. We recognise and appreciate a gender mix in both students and teachers so that teaching and learning prospers in diversity.

✓ **To provide research-oriented learning environment for faculty**

Faculty are the conduit which enables transfer of knowledge and learning for students, and it is imperative that faculty continue their learning from industry through various forms of collaboration, particularly through constant research. Therefore, ISBS PGDM encourages faculty to take on such initiatives.

✓ **To collaborate with industry**

A close relationship between industry and academia is desired to create a productive symbiosis for student's transition into the professional environment at the end of the program. ISBS PGDM believes that a mutually inclusive relationship between industry and academics can bear substantial gain for both. Hence, we collaborate with industry in continuing education programs, consultancy, and research.

✓ **To develop ethically, socially, and morally responsible members of society**

The role of an institution extends to shaping its stakeholders into ethically, socially, and morally responsible members of society. ISBS PGDM instils qualities of responsible leadership, discipline and promotes collective work environment which can demonstrate dignity for labour and high moral calibre.

**1.2. PEOs statements (5)**

### 1.3. Dissemination among stakeholders (10)

Institutes' marks - 10

#### **Stakeholders at Indira School of Business Studies PGDM**

ISBS PGDM and its governance centres around serving its stakeholders. These stakeholders are internal stakeholders such as Students, Faculty, Staff, Governing Council and external stakeholders such as Advisory Board, Government Bodies, Industry, Alumni and Guardians of Students. These stakeholders are the pillars of ISBS PGDM and the efficiency and effectiveness of ISBS governance is assessed based on the impact its governance has on generating value for these stakeholders.

Each stakeholder is assisted and governed by the implementation of certain activities, which are expected to deliver value to these stakeholders. The success of delivering value is assessed based on the manner in which each of these activities is executed and their overall impact on the stakeholder's worth.

The objective of having the Vision, Mission understood by stakeholders is to enhance their engagement in achieving the goals and objectives of the organization in a manner which is conducive to the overall achievement of **Program Outcome (PO)** and **Program Educational Objectives (PEO)**.

#### **Process of disseminating the Vision and Mission to the Stakeholders**

Dissemination amongst stakeholders ensures wide and pervasive understanding of Vision, Mission and PEO by relevant stakeholders. ISBS PGDM continuously makes attempts to ensure that the awareness and recall of Vision, Mission and PEO is widely and pervasively understood and acknowledged by its stakeholders.

#### **Overt Display of Vision and Mission Statements**

- Vision and Mission statements and PEO's are displayed, in very articulate manner, at all the prominent places such as Director's Office, Reception, Lobby, Library, Faculty Rooms and the like, within the campus.
- In addition to this display, the Vision and Mission statements are also uploaded on the official website of the Institute ([www.indiraisbs.ac.in](http://www.indiraisbs.ac.in)).
- Vision and Mission statements are printed on relevant written documents of ISBS PGDM, such as Prospectus and Student Handbook.

To sum up Vision, Mission and PEO's are available in prominent locations on campus, such as:

- ✓ Institute Website
- ✓ Cabins of Director, Deputy Director, Dean and Faculty Rooms
- ✓ Notice boards
- ✓ In relevant documents such as Prospectus and Student Handbook

#### **Inclusive integration of Vision and Mission statements**

Inclusive integration of Vision and Mission is achieved initially through deliberate attempt by the management which bears the onus of the Vision and Mission statement and help it

cascade to every section of the organization. The reiteration of this is conveyed through relevant print content, online content and in supporting meetings and conferences. ISBS PGDM believes that a stated vision or mission does not serve any purpose until it is internalized by the team and relevant stakeholders of the business school.

Deliberation and discussions are encouraged within internal stakeholders and communication of vision, mission and PEO is communicated and reiterated by the system of academics and administration. ISBS PGDM is aiming at an outcome which is aligned with the overarching vision, mission and PEO and this is assimilated within the process of setting objectives for each department/activity which lead to achieving overall PEO's in the following manner:

### **Setting Objectives**

- Goals/objectives of departments are linked to PEO's.
- Objective setting exercise and performance review standards and regular monitoring of initiatives is designed based on the accomplishment of stated objectives which in turn help to achieve Vision, Mission and PEO's of the organization.
- Events on campus are tuned and traced back to the PEO, Vision and Mission, underscoring its relevance and this serves as a reminder to the team of their purpose and goals.

These steps serve to energize and direct the group's actions as stakeholders and convey their efforts to the management. Taking the time to initiate goals and objectives to create action plans is the first step toward creating a better team and a stronger workforce whose energies are aligned towards common goals.

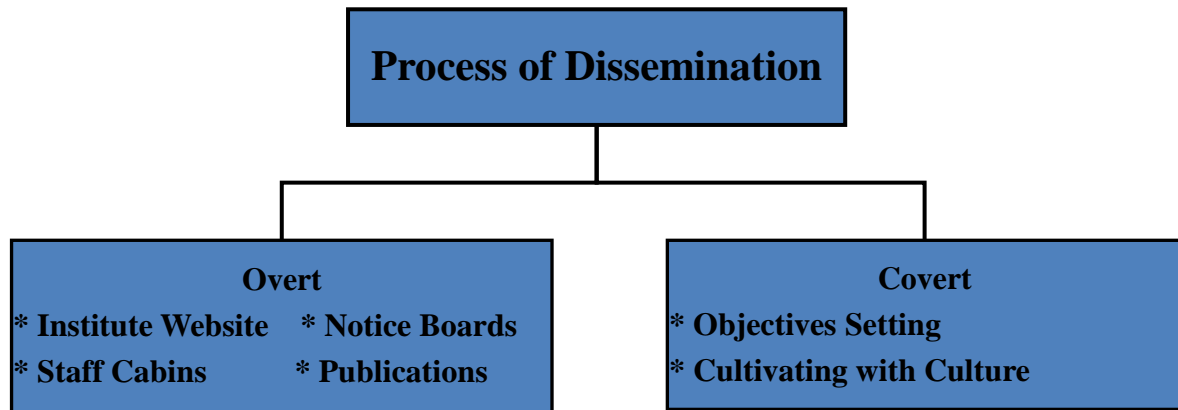

### **Driving Vision and Mission with cultivated Culture**

Vision, Mission, and ideology of the business school is also strewn by the indirect means of culture that exists which is displayed by following manner of functioning within the governance structure, as mentioned below:

- Tolerance and patience while dealing with students and colleagues in a manner which conveys compassionate behaviour.
- Students weak in academics, English language and related aspects are given additional sessions to prepare them to compete with the other students.
- Compulsion for all students for participation in industry projects to prepare them for corporate.
- Weekly mentoring session of students in smaller batches by faculty.
- Social awareness generated by having students participate and initiate social initiatives
- Instilling the value of becoming employment generators rather than employment seekers in an economy which needs to employ large number of youths. Taking membership in associations such as National Entrepreneurship Network (NEN), which further reiterate the cause of entrepreneurship.
- Becoming signatory to global organizations such as PRME (Principles of Responsible Management Education), a United Nations body encouraging Sustainable Development Goals (SDG)
- Holding seminars and corporate interaction with individuals from corporate who create awareness of business.

- Taking administrative decisions which aim to strengthen the link for student and community development through various community development initiatives.

### Dissemination of Vision and Mission

#### 1.4. Formulation process (15)

Institutes' marks - 15

#### Description of process involved in defining the Vision and Mission

In drawing up the framework for defining the Vision and Mission, self-assessment becomes imperative. The areas of self-assessment require input from various segments which co-exist to create a framework which effectively serves the existential purpose of a Business School. ISBS PGDM thus believes that creating such a framework requires consultative process involving concerned stakeholders and this information is assimilated in the following manner:

##### A) The Environment

- Management representatives worked towards providing general information on the environment in which the business school operates.
- Detailed information was evoked regarding the program and its features.
- Classification of students' requirements, legal and regulatory framework, certification procedures and the status of certifications were ascertained.

##### B) Historical Context

- Brief history of the Indira Group was enlisted by management since its inception. Summary detailing main events, creation of programs and teams, student numbers, teaching staff, support staff, facilities and premises, budgetary details, and the like, were taken into consideration.
- Description was provided of the competitive environment and the constraints such as key stakeholders, funding agencies and competitors; industry interface and job market, prevailing quality norms and constraints, if any, freedom to innovate, access to resources and support and access to students were conceptualized.

##### C) Evolution of first draft

- Thus, management conceived the idea of an effective Vision to take forward a program such as business management in the backdrop of the environment for business, benefits for students of management and interest of other stakeholders involved.
- Thus, also evolved the essentials needed to fulfil the aspirations stated in the Vision

- and means to fulfil these through Mission statements.
- These were updated and processed by the Internal Quality Assurance Cell.
  - The first draft was then presented to the stakeholders for their views on further evolving the mentioned Vision and Mission statements.

#### **D) Stakeholders Meeting**

Relevant stakeholders were invited for a meeting to conduct a SWOT analysis. These included internal stakeholders such as representatives of Faculty, Staff, Students, and external stakeholders such as Representatives of Advisory Board and Alumni.

Such a meeting brought about views of each segment towards what is critical for a business school in its pursuit of quality education and showcased the opportunities and challenges in the environment.

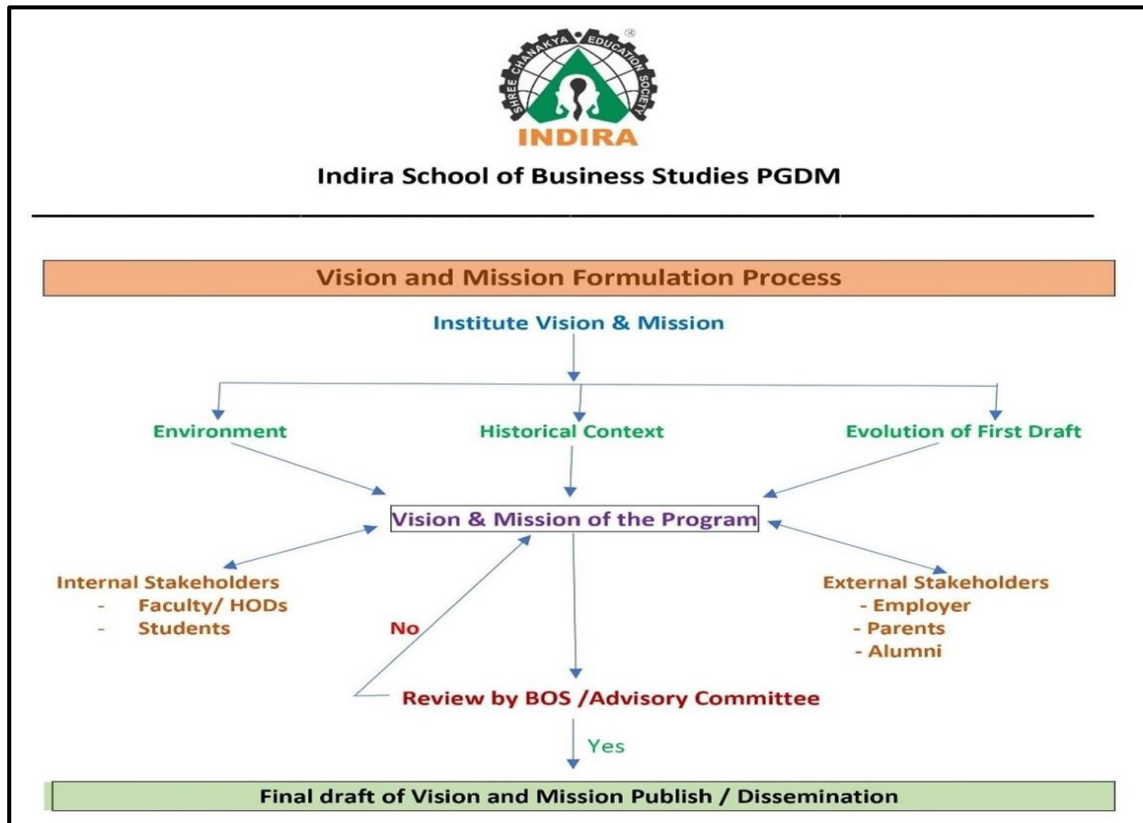

Such an exercise led to consideration of following aspects in process of further evolving Vision and Mission:

- Describing how stated draft of Vision can be converted into strategic and operational plans. Particularly ensuring the coherence of Mission is maintained through all levels and activities.
- Demonstrating how the Vision can be translated into strategic objectives as shown by the mix of programs; choice of activities; establishment of priorities.
- Relationship between the business school's strategic objectives and the availability of resources.
- Key constraints which may limit future performance.
- Describing the recent achievements in pursuit of the strategic objectives.
- Describing the formulated business school's Mission and explaining how this relates to its identity.
- Second draft of the Vision and Mission was then adopted by the IQAC for firming up the final draft of Vision and Mission.

#### **Final Draft of Vision and Mission**

- IQAC created the final draft of Vision and Mission.
- Final affirmation was taken from ISBS PGDM Governing Council to roll out the stated Vision and Mission.

## Vision and Mission Formulation Process

### **Description of process involved in defining the PEO's of the Program**

An organization develops a Vision from which emerges a Mission statement. The Mission aims at reinforcing the Vision through affirmative actions and these are operationalized through the PEO.

### **The Framework of defining PEO's**

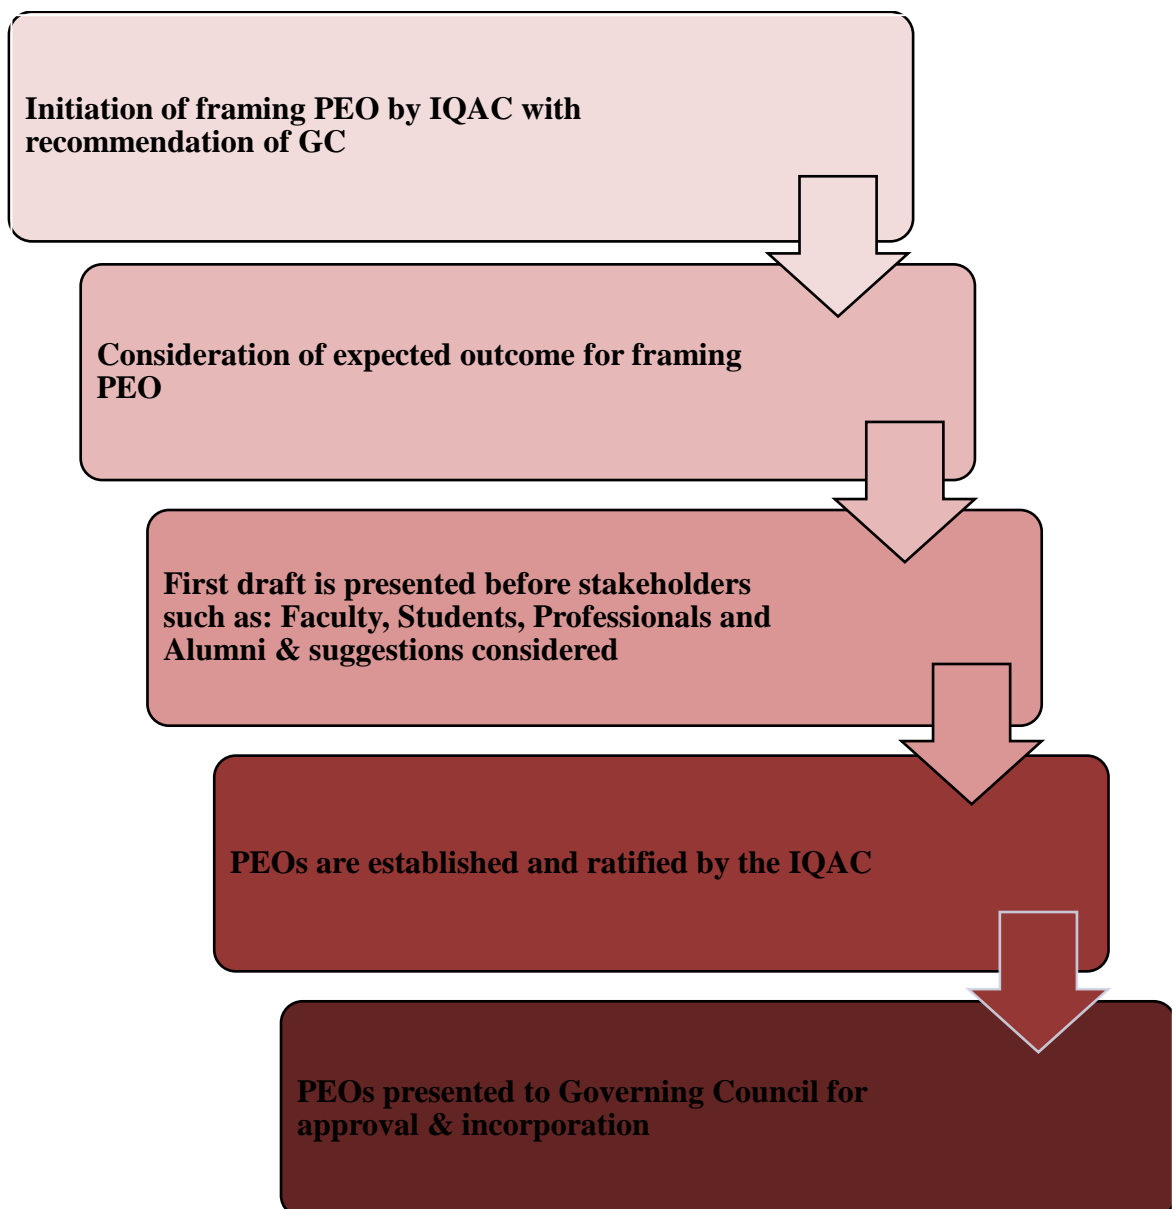

The Program Educational Objectives (PEO) are broad statements for which the program is conducted. In the first place, these objectives help in fulfilling the mission for the program. These objectives also convey clearly that the students graduating from the program are expected to lead a meaningful life in the society by being useful in its progressive development. The program prepares students to become professionals in the business world, thus it is necessary that these objectives be in consonance, to the extent possible, with the current business scenario in the relevant field of management and with the needs of the relevant industry.

The teaching learning opportunities can be gauged by the involvement of the campus with industry in its attempt to align the input with industry needs. ISBS PGDM gauges industry needs through involvement of industry personnel in various operational bodies on campus and the feedback and suggestions received from them. The framework for defining PEO is thus created keeping the above aspects in view and is mentioned below:

- Initiation of framing PEO by IQAC with the recommendation of GC.
- Consideration of expected outcome by its stakeholders for framing PEO leads IQAC to align Vision and Mission of the institute as an essential foundation for developing a draft of the PEO.

- Both internal and external stakeholders are consulted to concede the expectation of the stakeholders from the management program. Thus the first draft is presented before representatives of different stakeholders of the program, such as:
  - ✓ Students
  - ✓ Faculty
  - ✓ Advisory Board/Industry/Employers
  - ✓ Alumni
- Taking the suggestions of stakeholders into consideration, the PEOs are established and ratified by the IQAC.
- The PEOs are then put forward to the Governing Council for final approval for incorporation.

### **Process for framing PEO**

### 1.5. Consistency of PEOs with the Mission (15)

Institutes' marks - 15

#### Matrix displaying consistency of PEO with Mission Statements

PEO Statements	M1	M2	M3	M4
<b>PEO1:</b> Provide opportunity for application-oriented learning in the field of business management to enhance decision making and leadership skills for managing dynamic business environment.	3	3	3	3
<b>PEO2:</b> Engaging faculty in research and training to impart current business trends to students to enhance their analytical and critical thinking	3	3	2	3
<b>PEO3:</b> Forge industry and academic interface for student's exposure to manage dynamics of business Management.	3	3	3	2
<b>PEO4:</b> Expose students to various community centric initiatives to foster sensitivity for work ethics and human values.	3	2	3	3

**Note:** i) M1, M2, ..., Mn are distinct elements of Mission statement.

ii) Correlation levels 1, 2 or 3 are mentioned as defined below:

1: Low      2: Medium      3: High      "-"no correlation

#### Justification of correlation parameters of above Matrix

There are several cornerstones of ISBS PGDM program Mission that are aligned with the PEO's namely, problem solving ability, proficient communication skills, decision making ability, social responsibility, professional ethics, multi-disciplinary knowledge, self-learning ability and qualities of leadership.

The consistency of each PEO's with the mission of program has been described in following paragraphs:

- Domain and multi-disciplinary knowledge are provided with dedicated hours of curricular teaching so that the graduates master fundamentals and acquire proficiency for working in Industry.
- Decision Making, Problem solving, and self-learning ability imparted through foundation pedagogy mix of instructions such as Case Studies, Simulation, Projects, SIP, CLDP training, Certification Workshops.
- Students visit international destinations as part of International Business Exposure Program (IBEP) as part of curriculum to enhance business awareness in foreign destinations, along with exposure to global culture.
- Communication Skill development for effective articulation using intensive coaching in English language and use of language labs and multi-media.

- Students develop teamwork and leadership skills through participation in committees and driving activities in collaboration with student teams. Students interact with industry personnel for sessions on campus and during recruitment process. Students organize conferences involving industry personnel and academicians. Students are also encouraged to participate in the management competitions of various universities, cultural, sports and other tech-fests. Presenting research papers in conferences is also encouraged.
- Faculty are engaged in providing latest management tools and techniques in classroom and therefore research and consultancy is highly encouraged and recommended for faculty members.

The consistency of the PEO with the Mission of the institute and the resultant matrix was obtained by availing feedback from relevant stakeholders such as Students, Faculty, Alumni, and Industry Representatives. Such feedback was utilized to arrive at the mentioned consistency and thereby assured justified correlation. Such fortification led to the reassurance that the PGDM program was working in the right direction for administering teaching and learning on campus.

**Mentioned overleaf are samples of the survey conducted for the purpose with the following stakeholders:**

- **Students**
- **Faculty**
- **Alumni**
- **Industry Professionals**

## 2.1 Governance and Leadership (60)

**Institutes' marks - 60**

The **Post Graduate Diploma in Management (PGDM)** program, under **Shree Chanakya Education Society**, were started in the year 2006 with the approval of AICTE under **Indira School of Business Studies (ISBS)** and subsequently the institute got the approval for its Master's in Business Administration (MBA) Program in the year 2013 which was also approved by Savitribai Phule Pune University (SPPU).

In the year 2020, AICTE, through a policy decision, mandated that all PGDM programs be brought under standalone institution. This led to creation of separate standalone institute for PGDM, originally started in the year 2006 under the name Indira School of Business Studies, with the name "**Indira School of Business Studies PGDM**" (ISBS PGDM) comprising of:

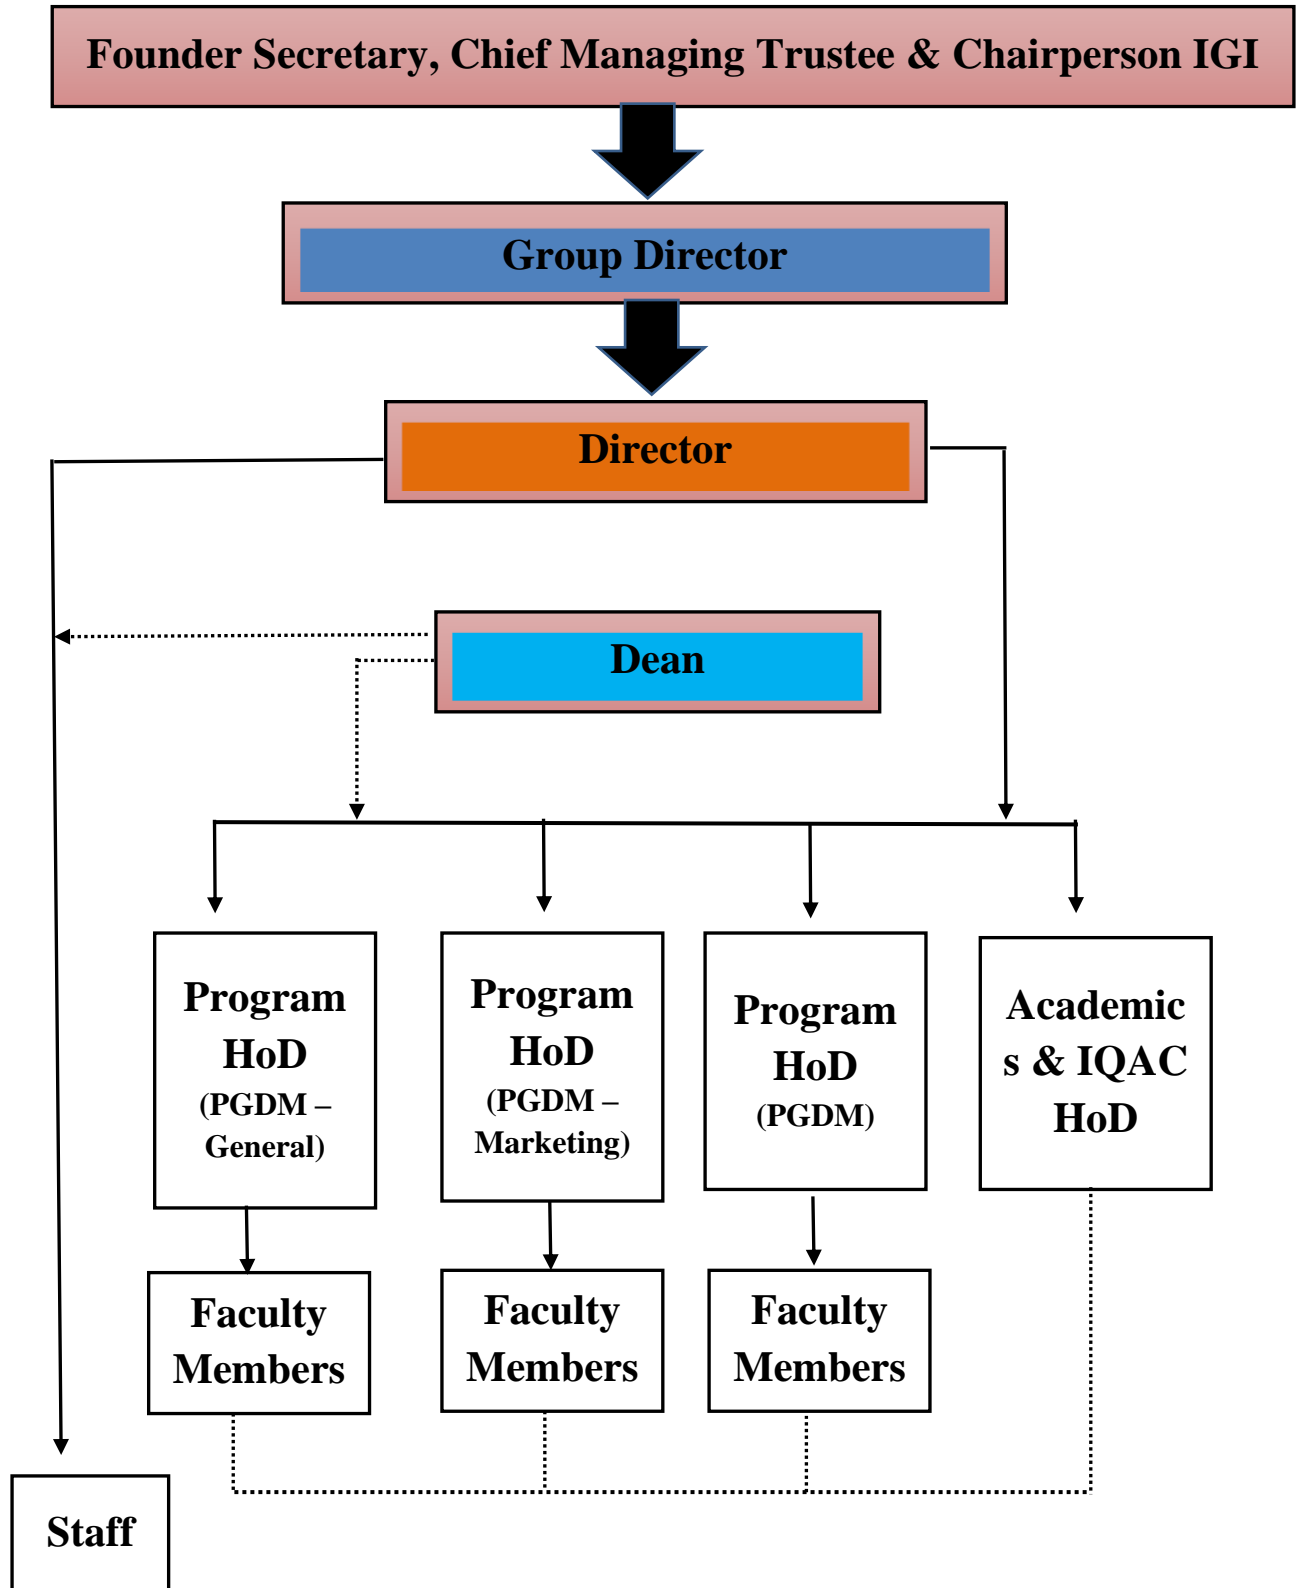

1. PGDM (General) program with 120 seats
2. PGDM program with 120 seats and
3. PGDM (Marketing) Program with 60 seats

ISBS PGDM is set up under the aegis of its parent body Shree Chanakya Education Society (SCES), which is a registered Society and Trust in Maharashtra and is devoted to promoting quality education. It is founded and promoted by Dr Tarita Shankar. The main objective of SCES is to promote institutions which provide quality education to the youth in India and make them capable of leading a successful life. This body comprises of individuals who are stalwarts of expertise in their own field of experience.

Dr Tarita Shankar, Secretary and Chief Managing Trustee (SCES) has been empowered through Resolution of Shree Chanakya Education Society (SCES) dated 22<sup>nd</sup> February 2006, to deal with all matters pertaining to ISBS PGDM. Secretary and Chief Managing Trustee SCES, is the ex-officio Chairperson of the Governing Council (GC) at ISBS PGDM and nominates the Director ISBS PGDM as the principal office for Governance at ISBS PGDM and endows Director's office with the power to formulate policies and nominate functioning committees from time to time to carry forth its operations and governance. Director's office is also assigned the role of being the Secretary GC at ISBS PGDM, which is also entrusted with appointment of members to the GC and other working committees. Leadership at ISBS PGDM inspires growth through its vision and the strategic direction it imparts and is instrumental in building academic excellence in the business school.

Governance Structure at Indira School of Business Studies PGDM

## 2.1.1. Governance Structure and Policies (25)

Institutes' marks - 25

### 2.1.1.1. Governing Structure (10)

Institutes' marks - 10

At ISBS PGDM a structured governance system is organized and managed. The governance structure contributes to the overall administration of the institute and is an important determinant of effectiveness in meeting its objectives. At the execution level, the Director executes the planned activities through the various Committees/Councils formed for specific purpose. The Directors office, by virtue of its position heads all the committees. It thereby ensures that the Director is always informed about the on-going activities of the Institute and this in turn ensures monitoring of all activities at all levels of hierarchy. The governing bodies such as the councils, boards and committees are framed at institute level and at program level depending on the requirement of the program and these are guided by policies and standard operating procedures (SOP) which assist in the execution of activities. There are some bodies framed for mandatory compliance and others are framed as per requirement of the institute/program. The presence of committee secretary/ in- charges is necessary for holding meeting as part of the Quorum required for the respective committee.

Following are the constituent Councils, Boards and Committees with mention of their operation at institute or department level:

## **1. Governing Council (GC)**

### **Introduction**

ISBS PGDM Governing Council has representation from the Academic Fraternity, Industry, Nominated Member of AICTE, Nominated Member of DTE, Faculty and Staff of ISBS PGDM. All major policy decisions impacting the functioning of ISBS PGDM are ratified by the GC. Meetings are held regularly and overview of the progress of the institution is presented, and suggestions are taken for further development and records are systematically maintained. GC derives its objectives from the Vision and Mission of the Institute.

### **Functions**

The core activity of providing strategic direction revolves around the Institute's Vision. The Vision of the institute clearly spells out the Institutes dedication towards developing its students as professionals who will serve the industry with the right knowledge and skills. To equip the students with the right knowledge and skills, the GC ensures that the offered Program quality is in line with the current industry needs. The quality of the Program is maintained with active involvement of Industry experts, Academicians, Faculty Members and Alumni who are members of either the GC or the Advisory Board at ISBS PGDM. The GC's directives and observations are executed through the Director who is vested with executive powers. The Director in turn ensures that the overall functioning of the Institute is as per the sanctions of the GC.

The GC ensures efficacy of the operational decisions taken and safeguards student and stakeholder welfare through:

- Giving strategic direction to the Institute
- Approving strategic and perspective plans
- Allocate and monitor budgets and check the audited income and expenditure accounts and approve the same.
- Institutionalize scholarships and enhancement of other amenities, for staff and students.
- Monitor development programs for students and faculty.
- Deliberate and decide on additional matters affecting the governance of the institution.
- Developmental and expansion planning.
- Defining scope of infrastructure development on need basis.
- Consider recommendations of the staff selection committee for recruitment of faculty.
- Consider important communications, policy decisions received from the University, Government, AICTE and the like.
- Fixation of the fee payable by the students based on the recommending bodies.

- Perform such other as may be necessary and deemed fit for the proper development and fulfilment of the institute's objectives.

The Director executes the governance of the above activities of the institute through several designated representatives and committees formed for specific purposes. Curriculum and progress of other activities are reviewed through monthly review procedure of the Internal Quality Assurance Committee (IQAC).

## **4. Internal Complaints Committee (ICC)**

### **Introduction**

Internal Complaints Committee has been constituted by the Director to address activities with the broad purpose of creating a fair workplace with gender equality. ICC is especially created to prevent/deter the commission of acts of gender inequality and sexual harassment and to provide the procedure for the resolution, settlement, or prosecution of acts of sexual harassment and gender biases by taking all steps required. According to the Constitution of India, Right to Equality is a Fundamental Right that includes the right to equality before law, prohibition of discrimination and equality of opportunities in matters of public employment. Equality between men and women, right to work, to education and to public assistance in case of unemployment, old age, sickness and disablement and provision of just and humane conditions for work and maternity relief, are important Directive Principles of State Policy. It is obligatory for every employer and other responsible persons to follow the guidelines put down by the Ministry and UGC to constitute Internal Complaint Committee with an aim to overcome sexual harassment at the workplace. Educational institutions are bound by the same directive.

In compliance with the mandate of the Gazette of India, Indira School of Business Studies PGDM (ISBS PGDM) adopts this policy to prevent, prohibit and redress sexual harassment of women. ISBS PGDM is committed to provide for all women who fall within its jurisdiction including its academic and non - academic staff, a place of work and study free from sexual harassment, intimidation, and exploitation. Every woman shall have a Right to be free from Sexual Harassment and the Right to Work in an environment free from any form of Sexual Harassment.

### **Functions of the Internal Complaint Committee (ICC)**

The Internal Complaint Committee is an educational resource as well as a complaint redressal mechanism for the members of faculty, staff, and students at the University. Its mandates are:

- To provide a neutral, confidential, and supportive environment for members of the campus community who may have been sexually harassed
- To advice complainants of means of resolution as specified by the legislation
- To ensure fair and timely resolution of sexual harassment complaints
- To provide counselling and support services on campus
- To ensure that students, faculty, and staff are provided with current and comprehensive materials on sexual harassment
- To promote awareness about sexual harassment through educational initiatives that encourages and fosters a respectful and safe campus environment

The committee seeks to inform the campus community of their right to a respectful work and learning environment. It believes that if we practice respect, exercise empathy in our interactions with others so that we do not hurt anyone through what we say or do, then we can create a campus that is free of sexual harassment.

#### **2.1.1.3. Policies (5)**

<b>Institutes' marks - 05</b>
-------------------------------

#### **Framing of Policies**

ISBS PGDM engages in establishing Policies of governance which aim at reinforcing the ISBS PGDM Vision, Mission and Program Educational Objectives (PEO). Essentially the outcome expected from each function becomes the precept for creating policies and their framework. Certain Policies at ISBS PGDM are based on legal compliance as mandated by government bodies and these are implemented as stated by the notifications from the said bodies. Functional policies are developed internally by the team at ISBS PGDM which are formulated for various functional areas of management. Policies in most circumstance are incorporated within the governance structure of councils, boards, or committees.

Director's office uses its discretion to formulate policies of governance which provide the framework within which decisions are taken by the administrators of tasks within the institute. They are a guide to the thinking and action of subordinates for the purpose of achieving the objectives of department successfully. Involvement of stakeholders in policy formulation becomes a functional need as faculty members and staff facilitates the policy formulation stage

on account of decentralized governance at ISBS PGDM. Accountability for following policy guidelines becomes imperative while framing procedures for various committees and cells which are driven by faculty and staff. Such decentralization of responsibility enhances engagement of faculty and staff in framing policies.

### **Policy Framework at ISBS PGDM**

1. Statutory Policies and Procedures
2. Operational Policies and Procedures

### **Policy Formulation**

The process involved in Policy formulation and development is mentioned below:

- Appointment of a policy author, which in most cases is the activity in charge and policy approver, is the Director ISBS PGDM.
- While formulating policies stakeholders' participation is given due consideration. Stakeholders considered are faculty, staff, students, alumni, and industry professionals depending upon the nature of activity involved.
- Policies are framed based on research and data collection along with norms existing in the education industry and the requirement of the institution.
- Final draft of policy is presented to the IQAC for approval and implementation.
- Affirmation of the policy by the Directors office for communication and implementation.

Process for policy revision entails reviews related with achievement of objectives and triggers for a new policy and/or procedure. For example, these may include changes to the internal or external operating environment, a review of the strategic direction of the organization, or changes to government policy or legislation. The development and revision of policy documents comprises a process like the one set out for policy formulation.

### **Awareness amongst Faculty, Staff and Students**

Policies provide the framework within which decisions are taken by the administrators of tasks within the institute to carry forth effective governance. Following measures are taken up to create awareness about policies amongst faculty, staff, and students:

- Information about policies centring on legal compliance are disseminated as per the guidelines stated in the regulation.
- Students are made aware of the policies and procedures through orientation at the time of induction and the student council operates within the framework specified in the policy.
- Faculty and staff employment policies are recorded in a manual and the manual is made available in the library.
- The faculty team at ISBS PGDM engages in establishing policies of governance which aims at reinforcing the policy guidelines.
- Essentially the outcome expected from each function is expected to follow guidelines as stated in related policies. Thus, the precept for creating policies and implication gets reiterated through the procedure guidelines for executing the function.
- What also serves as additional awareness about policies is the fact that governance at ISBS PGDM is decentralized and accountability is distributed amongst faculty, and they also drive several initiatives through student council representation. Thus, students are expected to operate within the framework of policy guidelines. This creates working awareness of policies and procedures amongst internal stakeholders such as faculty, staff, and students.

- Such decentralization of responsibility enhances engagement of faculty in framing policies, and these are discussed in relevant forums.

## **Policies at ISBS PGDM**

Office of the Director ISBS PGDM is authorized by the Governing Council to formulate policies and procedures and appoint committees as deemed fit to manage the governance at ISBS PGDM. Besides the committees, councils and cells which follow structured procedures, mentioned policies are framed specifically:

## **7. Finance Policy**

Finance Policy at ISBS PGDM aims to provide a – “Financially well managed business school which grasps financial opportunities and makes decisions that are based on the best educational interests of the students.” It ensures the need for good financial control over the schools’ resources and has formulated this policy to achieve standards of financial management under the purview of the Finance Committee.

## **8. Green Earth Policy**

ISBS PGDM follows Green Earth Policy for protecting the environment. Green Earth Policy recommends ISBS PGDM– “To take initiatives which will facilitate efforts towards protecting the environment.”

Therefore, ISBS PGDM extends support for initiatives which augment the thrust in the direction of sustainability in its stakeholders. ISBS PGDM follows the precepts of PRME (Principles of Responsible Management Education) towards achieving sustainability goals. Such initiatives are driven with the assistance of administration and CSR committee.

Following are some of the initiatives undertaken by ISBS PGDM in this effort:

- Effort to make daily working paperless
- Discouraging use of plastic

- Non consumption of abusive products such as smoking, alcohol and drugs on campus
- Community service
- Use of cloud technology
- Sensitizing students through teaching
- Recycling
- Tree plantation

## 9. HRM Policy

HRM policies are framed with the prime focus that our faculty and staff are key to our success, and nothing can be achieved without their engagement. The HRM Policy states the – “Requirement to establish HRM policies to govern the employment and service requirements of all categories of employees.” ISBS PGDM since its inception has built a culture based on values of trust, mutual respect, and dialogue. HR policy aims to maintain positive individual and collective relationships and is committed to providing faculty and staff with a safe and healthy work environment, and compassionate employment conditions that support a better balance of private and professional life. HR policies and procedures are documented in the employee manual which encompasses the guidelines which constitute effective Human Resources Management in campuses of Indira Group of Institutes. It explains to all employees’ formal rules and procedures that dictate how certain matters should be addressed in the workplace including employee rights and duties. The precepts of HR and Administration Policy are executed by the HR Committee. Which serves to achieve following objectives:

- Serves as means of communication between the employer and employee.
- Lays down various employment guidelines which are to be followed on campus.
- States benchmark to treat all employees equally and fairly.
- Assists senior management towards better decision making.
- Makes work process more transparent.
- Prevents misunderstanding which can arise between the employer and employee.

### 2.1.1.4. Strategic Plan (5)

Institutes’ marks - 05

Strategic Plans form an essential component for the accomplishment of the vision and mission at ISBS PGDM, and these constitute long term goals and short-term goals. The framing of goals is classified in this manner so that a long-term perspective of about 5 years can be achieved. Strategic planning is the prerogative of the governing council and its precepts flow from that body, and these normally revolve around mentioned aspects:

- Expansion of education facility to provide education to larger section of population.
- International Exposure for students and faculty
- Accreditation for the programs
- Employment for maximum students
- Provide admission for weaker sections of society through reservation policies and scholarship.
- Facilitate interface between academics and industry
- Provide quality infrastructure to train the students in the use of contemporary technology and business processes.
- Sensitize the students towards their responsibility to society and community.
- Give impetus to research and increase quality research publications.

Long term goals lead the team at ISBS PGDM to plan short term goals to achieve the precedent indicated by the long-term planning. ISBS PGDM engages in progression planning and its

implementation is reviewed annually for progress and revision if any. The last plan was envisaged in June 2012 and the current plan under consideration was established in June 2017.

## **Strategic Plan 2017-22**

### **1. Creating quality education & skill enhancement ecosystem**

To create a consistent conduit of quality human resources for industry and enabling students to become economically independent & socially responsible, ISBS PGDM has taken various initiatives. Success of these endeavours has reflected in consistent improvement in attainment level of PEOs and upward trend in placement percentage year on year.

### **2. Ensuring quality accreditations such as NBA till the year 2022.**

ISBS PGDM in its pursuit of quality accreditation had initiated its process for accreditation with National Board of accreditation in November 2019. Due to the pandemic, the committee visit could not take place and the process was reinitiated in August 2021.

### **3. Enhancing faculty attributes and capabilities**

Faculty being at core of teaching learning process, ISBS PGDM in its endeavour to enhance faculty's knowledge, skills and research orientation, encourages faculty to register for Ph.D. write papers in quality journals and take part in MDPC projects.

In AY 2020-21, 65% of regular faculty had either completed Ph.D. or was in final stage of completion. The research paper publication summary for assessment year also indicates an upward trend in quality research writing

### 2.1.2 Faculty Empowerment (15)

Institutes' marks - 15

#### 2.1.2.1. Faculty development policies (5)

Institutes' marks - 05

#### Faculty Development Policy

Faculty Development Policy at ISBS PGDM aims to assist faculty members in improving performance in teaching, scholarly activity, and consultancy service. The R&D cell implements the Faculty Development Policy at ISBS PGDM. Such development plans are funded by ISBS PGDM and may include provisions for travel; teaching improvement activities; alternate work from teaching; assistance in proposing and conducting unpaid research; support for publication, consulting and management development programs; computer access; and other such institutional support as may be reasonably expected to enhance faculty development.

The objective of this policy is to further the goals of ISBS PGDM towards education and dissemination of knowledge through the institution of Research & Development Cell which engages in following initiatives:

1. Fostering continued development and excellence of the faculty.
2. Aiding the administration at ISBS PGDM in understanding the motivations, strengths, accomplishments, goals, and plans of individual faculty members.
3. Furtherance of communication and understanding between the faculty and department.

**Implementation of Faculty Development on Campus:** ISBS PGDM has an administrative hierarchy which fosters understanding of the faculty's motivations, strengths, and interests as

thoroughly and explicitly as practicable and this helps plan Faculty Development Program (FDP) at the department and institute level. Mentioned are the ways in which faculty development is undertaken:

1. Having faculty understand the academic planning context within their department for building the teaching quality. Thus, emerges transparent process of Faculty Development. Furthering development needs of faculty fosters individual and cohesive development of each department.
2. HOD becomes accountable to encourage and facilitate the development of faculty members in the department. The HOD and their team strives to achieve excellence in research and teaching.
3. The present policy and its implementation are not coercive and does not violate the freedom of each faculty member to pursue those goals he or she has set as an individual.
4. Self-assessment of faculty constitutes an essential component for incorporating training needs of faculty.
5. Departmental and institutional needs are assimilated to ensure talent is nurtured as per need of teaching and learning on campus
6. Minimum hours of training exposure are suggested for each faculty.
7. Faculty coach is provided for faculty who wish to have a mentor on account of personal challenges in teaching.
8. Budgets are provided for each faculty to identify the programs which will aid in their development.
9. Pursuance of further qualifications such as Ph.D. is encouraged and facilitated by providing official research time off.
10. Promotions and salary are varied based on achieving higher qualifications.
11. Publications in research journals are encouraged and faculty recognitions for publication is established by awarding cash award for publication annually.
12. All published papers are bound and presented in a compendium for reference, review and critique of faculty colleagues and students.
13. Sabbatical leave, with its provisions for educational leaves, represents a major form of faculty development. The leave is not granted automatically and considerations for approval include the totality of circumstances surrounding the requests.

#### **2.1.2.2. Decentralization, delegation of power and Collective decision making (10)**

##### **Delegation of power and Collective decision making**

Institutes' marks - 10

At ISBS PGDM a structured Governance system is organized and managed for taking administrative decisions. ISBS PGDM encourages decentralization by which the activities of the institute, particularly those regarding planning and execution along with decision-making at activity level, are distributed or delegated away from the central office of the Director. ISBS PGDM encourages participative form of governance to enhance internal stakeholder satisfaction and team's competence. Decentralization has led to a structured framework for administration.

ISBS PGDM frames procedures for accomplishing decentralization with the formation of various committees for the purpose. Such a governance structure contributes to the overall effectiveness of the institute and is an important determinant of ISBS PGDM system's effectiveness in meeting its objectives. At the execution level, the Director executes the planned activities through the Various Committees/Councils formed for specific purpose of administration. The Directors office, by virtue of its position heads all the committees. It

thereby ensures that the Director is always informed about the on-going activities of the Institute and this in turn ensures monitoring of all activities at all levels of hierarchy. Such councils and committees are constituted by members who are essentially faculty members and are directed by policies and standard operating procedures (SOP) which assist in the execution of activities to achieve objectives for which they have been established.

Such committees are also allocated funds based on budgetary requirement of each activity and liberty is given to the involved team of the committee to utilize the funds to achieve the outcome established for each activity.

Reviews at the end of the academic year help to measure the effectiveness of performing teams in each committee.

Mentioned below are details of faculty members who have been delegated powers for taking administrative decisions as part of decentralization through responsibilities of various committees for the year 2020-21:

<b>Sr. No.</b>	<b>Committee Name</b>	<b>In-charge/ Secretary</b>

**Financial and administrative powers delegated to the Director, Heads of Department and relevant in charges.**

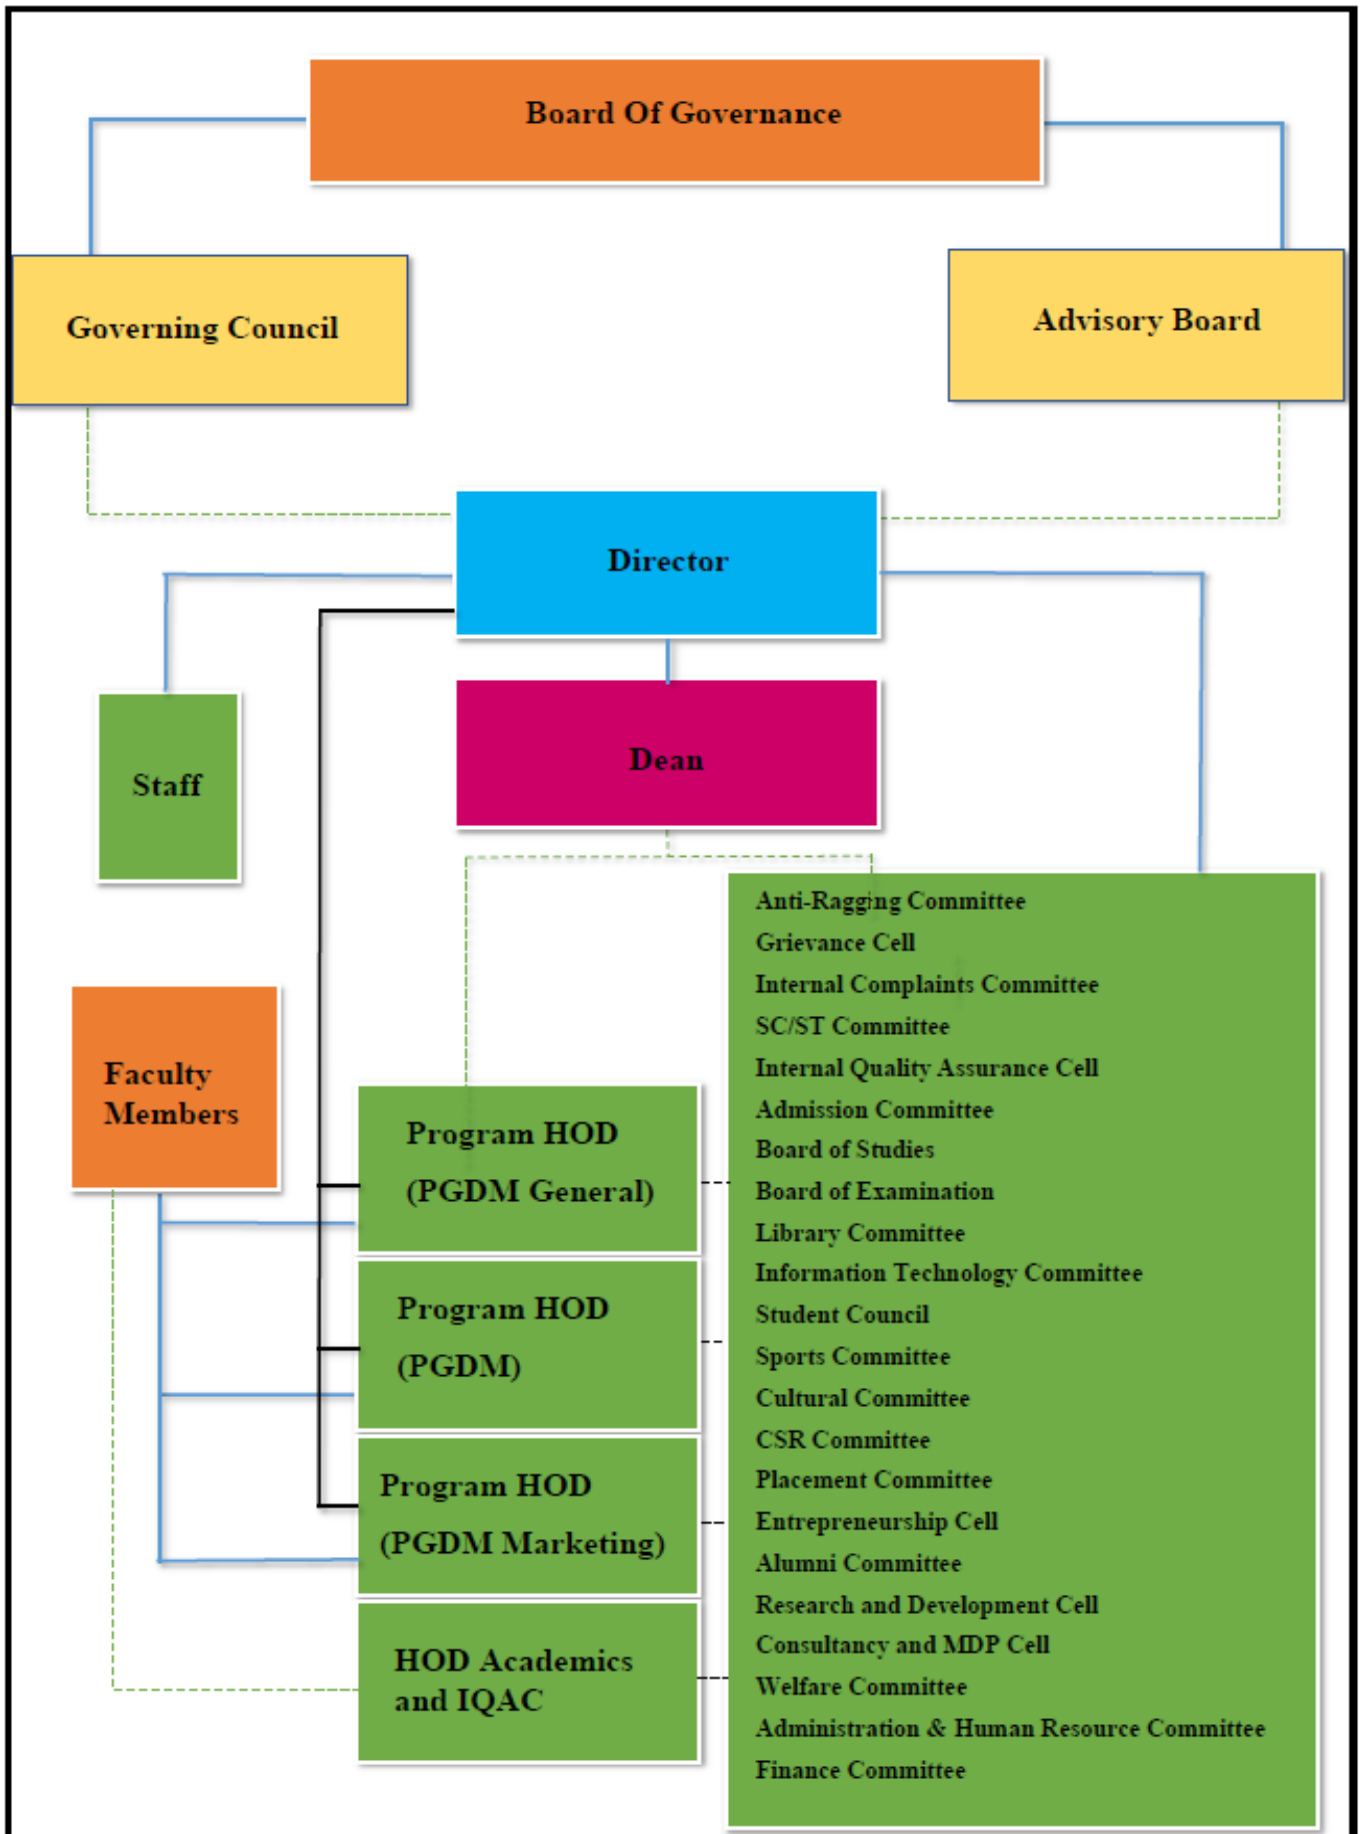

Director ISBS PGDM by the virtue of being nominated as the principal office for Governance at ISBS PGDM has been endowed with the power to formulate policies and procedures, nominate functioning committees, and allot budgets for utilization to carry forth its operations and governance. Director ISBS is endowed with financial and administrative powers on account of its established office and in turn delegates to the Heads of Department and relevant faculty in charges with authority to execute allotted administrative responsibilities and associated financial allocations.

ISBS PGDM encourages participative form of governance to enhance internal stakeholder satisfaction and team's competence. Decentralization has led to a structured framework for administration. ISBS PGDM frames procedures for accomplishing decentralization with the formation of various committees for the purpose. Such councils and committees are constituted by members who are essentially HOD and faculty members and are directed by policies and standard operating procedures (SOP) which assist in the execution of activities. Such committees are also allocated funds based on budgetary requirement of each activity and liberty is given to the involved team of the committee to plan utilization of the funds allotted and execute its implementation with the requisite procedures established for disbursement of funds.

Annual budgetary plans are developed with respect to all activities relevant for effective functioning of the institute through involvement of HOD, faculty and staff. Below mentioned aspects convey the essence of the financial and administrative powers delegated to the Heads of Department and relevant in charges:

- Relevant faculty in charge and administration in charge are required to submit the budgetary requirement of their respective administrative responsibility to the Director's office during specified time schedules.
- Additional budgets are allocated to activities based on supplementary value addition for such activities.
- Director ISBS PGDM holds discussions with relevant faculty in charge and required HOD about such administrative and budgetary allocation submitted.
- Past trends in the utilization of budgets serves as an important criterion for assessing the impact of utilized budgets and further provisions in the budget for such activities.

- Once the viability of administrative and financial allocation is ascertained the execution and implementation of the activity is initiated.
- HOD are provided with budgets for execution of teaching learning on campus, which involves activities such as:
- Involvement of industry professionals in imparting knowledge through sessions, workshops, and projects.
- Requisitioning appointments for relevant full-time faculty and visiting faculty.
- Planning budgets for various teaching tools and pedagogy to be engaged for teaching.
- Carrying forth industry visits, study tours and research related initiatives for students and staff.
- Ensuring adequate budgets for faculty development and research work.
- Faculty in charge of committees and other administrative initiatives are allotted with the approved budget for execution and implementation of such activities based on their presentation of plans for the same.
- Controls are built in the system for administrative implementation and financial utilization through periodic reviews of progress for such activities.
- Mentioned below is the operational structure indicating the powers delegated to the Director, HOD and relevant faculty in charge.

## **Decision making on Strategic Development and Resourcing**

The strategic development and resourcing at ISBS PGDM are deliberated by the Governing Council based on available educational resources. Progressive planning determines translation of strategic objectives into realistic mix of programs, choice of activities and establishment of priorities. Achievements in pursuit of the strategic objectives are also demonstrated by observing the budgetary allocation with respect to different elements.

Mentioned below is the procedure for decision making on resourcing for strategic development and educational provisions such as mentioned below:

- Identifying Developmental Initiatives: Governing Council advocates futuristic advancement for growth of institution with respect to aspects such as students' intake progression, infrastructure provision and related aspects of quality and positioning for the institute. Therefore, identifying developmental aspects become the initiating feature in the procedure for decision making on strategic development and resourcing.
- Such developmental aspects are determined with clear foresight on the relevance of such decision for concerned stakeholders. So, for example the aspect of increase in students' intake for ISBS PGDM is considered from the aspect of providing education to larger number of students and making them employable. At the same time feasibility with respect to financial resources is considered to ensure sustenance of such decision.
- This drives the management body to make value judgment, determining access for information which is relevant to the decision at hand, the people and processes involved in the issue and any constraints placed on such decision-making.
- Once clear understanding is achieved about the relevance of the decision, various solutions are worked out with respect to aspects such as provision for realistic mix of programs, recruitment, and brand communication along with choice of activities to be performed and establishment of priorities. Budgetary allocation with respect to different elements for successful implementation and running of the program becomes important consideration for financial resourcing.
- Finally plan for implementation is created and reviews are put in place for regular evaluation of the decision and its effectiveness.
- Strategic Plans are viewed, and budgetary allocation set aside for executing these plans.
- Annual budgetary plans are developed with respect to all activities relevant for effective functioning of the institute through involvement of HOD, faculty and staff.
- Past trends in the utilization of budgets also serves as an important criterion for assessing the impact of utilized budgets and further provisions in the budget.
- Final draft of the budget is prepared and presented to the central accounts department at Shree Chanakya Education Society (SCES) office before the start of the financial year.
- After approval from the office of the chief managing trustee SCES the budget is presented to the governing council at ISBS PGDM for execution.
- The sanctioned budget is distributed across the financial year for supply of adequate funds as per the need in campus.
- Effective control in the budgetary allocation and utilization is maintained by periodic reviews submitted by ISBS PGDM to the SCES accounts department.

### **2.1.3. Effective Governance Indicators (20)**

**Institutes' marks - 20**

#### **2.1.3.1. Grievance redressal mechanism (5)**

**Institutes' marks - 05**

## Introduction

Grievance Redressal Policy drives the grievance redressal mechanism at ISBS PGDM. The policy aims at encouraging its employees and students to voice their complaints in a constructive way. It also encourages feedback and suggestions from staff and students as stakeholders so that a proactive approach helps in resolving hindrances in the operations on campus. ISBS PGDM employs a fair grievance procedure which helps to minimize and avoid conflicts by having constituted the Grievance Committee. Grievance Committee has been established for students and staff, to provide a formal channel of communication to voice concerns. It comprises of Director, who is the Ex-officio member, while Faculty in Charge and non-teaching staff members are nominated by the Director. Student's grievance committee comprises in addition to Director, Faculty in Charge and non-teaching staff members, the student's council members who represent the students in the committee meetings.

## Staff Grievance Committee Functions

- Providing a communication channel to the staff members to express their grievances.
- Making channels of communication available for the Staff members such as Emails to be sent to secretary of committee and/or registering grievances in the register kept in the administration department.
- Imparting a degree of objectivity and fair play in the consideration of such grievances.
- Ensuring prompt consideration and decision thereon by ensuring smooth functioning of the committee.
- Proper feedback mechanism is maintained so that all the employees are made aware about the status of their complaints registered and have faith in the committee.
- Encouraging participative governance where students are free to put forward their suggestions and have an open discussion on them.
- The secretary also plans and executes various recreational and welfare activities for the staff to ensure a healthy work environment, in agreement with the director.

### 2.1.3.2 Transparency (5)

Institutes' marks - 05

ISBS PGDM considers it important to disseminate critical information to all its relevant stakeholders to ensure transparency. Information regarding policies, rules, processes is made available on ISBS PGDM official website

Besides making information available on official website of ISBS PGDM, information is also disseminated in following manner:

- Students are made aware of policies, rules and processes during their induction and such information is also made available to them in relevant documents such as Prospectus, Handbook and website.
- Faculty are made aware of the policies, rules and processes at the time of joining the institute and they are also party to the formation of such rules, policies and processes and this aids in percolating information related to these.
- Periodic reminders are also ensured through circulars.
- All information relevant or needed by all stakeholders is available in official website of ISBS PGDM.
- Periodic communications are sent to parents/guardians about policies for the governance of students on campus. The administrative rules and regulations covering all cadre of staff employed are mentioned in the manual.
- The program syllabus book is available in the library which provides transparency in implementing academic plans and current regulations, courses, marks, attendance, examination, etc.
- Recruitment and interview of all staff is done by issuing advertisements and following the regulations of AICTE as applicable.

### 2.1.3.3. Leader and Faculty Selection process (5)

Institutes' marks - 05

#### Leader and Faculty Selection Process and Implementation

##### 1. Introduction

The recruitment of faculty members is accomplished by following standardized procedure through Local Selection Committee process. The Local Selection Committee process and mode of appointment of the Leader/Director and Faculty in ISBS PGDM Program is conducted as per the eligibility norms of AICTE.

##### Composition of Selection Committee for the Leader/Director of the Institute

The Selection Committee for the post of Director consists of the following:

- Chairperson of the Governing Body or their Nominee as a Chairperson
- Two Nominees of the Governing Body of the Trust/Society/Management.
- One academic expert in the profile of a director of other Institute/ an accomplished educationist not below the rank of Professor.

##### Composition of Selection Committee for Asst. Professor, Associate Professor, Professor and Librarian

- Chairperson of the Governing Body or Nominee as a Chairperson
- Two experts consisting of the Director of another Institute.
- Director ISBS PGDM
- Two Subject Experts.

**The process of recruitment includes:**

- Notification of Vacancy
- Preliminary Assessment and Shortlisting.
- Recommendation by ISBS PGDM Local Selection Committee.
- Recruitment by ISBS PGDM Governing Council

**Notification of Vacancy**

The search for prospective candidates is made in several ways. Advertisements are placed in newspapers inviting applications. The list of candidates for consideration for recruitment may also include those who write to the Institute making enquiries for suitable opportunities or walk in candidates who satisfy the eligibility norms. For some positions, particularly for the appointment of Professor / Director, distinguished individuals may be invited to send their profile for consideration of the selection committee. The candidates must satisfy the normal eligibility criteria as per the 'All India Council for Technical Education' (AICTE) to facilitate further consideration of their candidature.

**Preliminary Assessment and Shortlisting**

The faculty recruitment for the post of Assistant Professors, Associate Professors, Professors and Director is based on merit. All the applications are screened based on eligibility criteria as stated by AICTE. Suitable candidates are invited to present themselves during the ISBS Local Selection Committee Process.

**Recommendation by ISBS PGDM Local Selection Committee**

The selection procedure is conducted by the duly constituted Local Selection Committee appointed by the Director ISBS PGDM, which constitutes internal and external selection experts. The Selection Committee may recommend demonstration sessions for faculty with limited academic experience prior to final selection by the Governing Council at ISBS PGDM. Assessment Report and recommendation by ISBS PGDM Local Selection Committee is submitted for further completion of the faculty selection process.

**Recruitment by ISBS PGDM Governing Council**

The recruitment process for permanent approval of faculty members is completed based on guidelines of AICTE and final appointment is validated by the approval of Governing Council at ISBS PGDM. Ensuing faculty selection process for Permanent Faculty is carried out each year based on the prevailing vacant positions.

The appointment of Ad-Hoc/Adjunct/Visiting Faculty is carried out by the Directors office in consultation with the HOD in respective functional domain and is need based on the requirement of expert guidance for students in teaching and learning. Such appointments are temporary and contractual in nature, and valid for the duration of the semesters in existence for which they are executed.

**Rationale of Budgetary Allocation**

Rationale for budgetary allocation at ISBS PGDM hinges on the strategic development and resourcing deliberated by the Governing Council based on available educational resources. Progressive planning determines translation of strategic objectives into realistic mix of programs, choice of activities and establishment of priorities. Achievements in pursuit of the strategic objectives are also demonstrated by observing the budgetary allocation with respect to different elements.

Mentioned below is the rationale for decision making on resourcing and budgetary allocation for strategic development and educational provisions:

- Identifying Developmental Initiatives: Governing Council advocates futuristic advancement for growth of institution with respect to aspects such as students' intake progression, infrastructure provision and related aspects of quality and positioning for the institute. Therefore, identifying developmental aspects become the initiating feature in the procedure for decision making on strategic development and resourcing.
- Such developmental aspects are determined with clear foresight on the relevance of such decision for concerned stakeholders. So, for example the aspect of increase in students' intake for ISBS PGDM is considered from the aspect of providing education to larger number of students and making them employable. At the same time feasibility with respect to financial resources is considered to ensure sustenance of such decision.
- This drives the management body to make value judgment, determining access for information which is relevant to the decision at hand, the people and processes involved in the issue and any constraints placed on such decision-making.
- Once clear understanding is achieved about the relevance of the decision, various solutions are worked out with respect to aspects such as provision for realistic mix of programs, recruitment, and brand communication along with choice of activities to be performed and establishment of priorities.

Budgetary allocation with respect to different elements for successful implementation and running of the program becomes important consideration for financial resourcing.

- Finally plan for implementation is created and reviews are put in place for regular evaluation of the decision and its effectiveness.
- Strategic Plans are viewed, and budgetary allocation set aside for executing these plans.
- Annual budgetary plans are developed with respect to all activities relevant for effective functioning of the institute through involvement of HoD, faculty and staff.
- Past trends in the utilization of budgets also serves as an important criterion for assessing the impact of utilized budgets and further provisions in the budget.
- Final draft of the budget is prepared and presented to the central accounts department at Shree Chanakya Education Society (SCES) office before the start of the financial year.
- After approval from the office of the chief managing trustee SCES the budget is presented to the governing council at ISBS for execution.
- The sanctioned budget is distributed across the financial year for supply of adequate funds as per the need in campus.

- Effective control in the budgetary allocation and utilization is maintained by periodic reviews submitted by ISBS PGDM to the SCES accounts department.

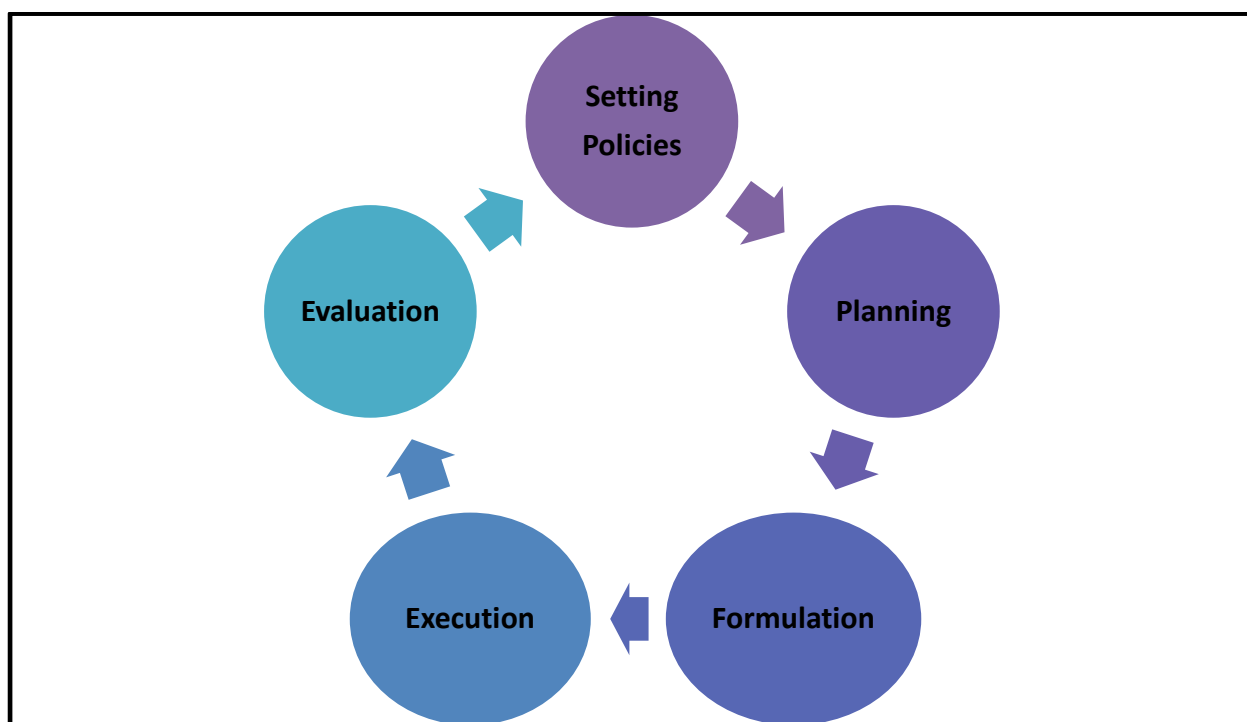

### **Budget Formulation Process**

The strategic development and resourcing at ISBS PGDM which entails budget formulation and allocation is deliberated by the ISBS PGDM Governing Council based on available educational resources. This involves consideration of Shree Chanakya Education Society (SCES) and its policies governing the priorities towards budgetary allocation which are impacted by the vision and mission of the institution. At this stage macro affordability is considered. Mentioned below is the budget formulation procedure for decision making on resourcing for strategic development and educational provisions such as mentioned below:

- **Setting Policies:** At this stage the Governing Council lays the broad guidelines within which expenditure needs to be allocated to various heads relevant for executing the purpose of the institute. Progressive planning determines translation of strategic objectives into realistic mix of programs, choice of activities and establishment of priorities. Governing Council advocates futuristic advancement for growth of institution with respect to aspects such as students' intake progression, infrastructure provision and related aspects of quality and positioning for the institute. Therefore, identifying developmental aspects become the initiating feature in the procedure for resourcing and budgetary allocations and at the same time feasibility with respect to financial resources is considered to ensure sustenance of such decision.
- **Planning:** The next stage provisions the Director ISBS PGDM to allot budgets for utilization to carry forth operations and governance within ISBS PGDM. Having adopted a decentralized operational model in ISBS PGDM, the working committees and activity in charge are engaged with planning relevant activities and ascertaining budgetary requirements. Annual budgetary plans are developed with respect to all activities relevant for effective functioning through involvement of HoD, faculty and staff. Below mentioned procedure enlists the way budgetary allocations are made by activity in charge:
  - Relevant faculty in charge and administration in charge are required to submit the budgetary requirement of their respective administrative responsibility to the Director's office during specified time schedules.
  - Additional budgets are allocated to activities based on supplementary value addition for such activities.
  - Director ISBS PGDM holds discussions with relevant faculty in charge and required HoD about such administrative and budgetary allocation submitted.
  - Past trends in the utilization of budgets serves as an important criterion for assessing the impact of utilized budgets and further provisions in the budget for such activities.
  - Formulation: Following submission of information and budgetary requirement by administrative in charge, the process of aggregation, examination, and negotiation of the stated financial statements of each activity is carried out by the Director in consultation with the respective heads.
  - Once the viability of administrative and financial allocation is ascertained by the Director, the execution and implementation of final draft of budget formulation is initiated.

- Final draft of the budget is presented to central accounts team at SCES.
- Deliberations by the central accounts team at SCES and Director ISBS PGDM leads to finalisation of the budget.
- Final Budget is presented to ISBS PGDM Governing Council for validation.
- Execution: Next stage is the execution of the budget which involves release of funds, spending, mid-term review, and revision if any.
- Evaluation: Final stage is that of accountability which involves accounting, reporting, auditing and follow-up. Controls are built in the system for administrative implementation and financial utilization through periodic reviews of progress for such activities.

### Budget Cycle

#### 2.2.1.2. Utilization of allocated funds (15)

Institutes' marks - 15

At ISBS PGDM utilization of allocated funds involves the budgetary execution of the financial resources as directed and controlled by the Director ISBS PGDM toward achieving the purposes and objects for which budgets have been approved. The utilization process involves compliance with administrative requirements prescribed by central budgetary committee at SCES and ISBS PGDM. The process essentially centres around monitoring, adjusting, and reporting on the current year's budget.

Once the budget is approved, concerned departments and activity in charge are informed about the allocation under respective heads. Apportioning of budgets is the responsibility of the Director ISBS PGDM and central budget committee and this is executed keeping in mind institutional and administrative requirements and aligned priorities.

Purchase and expenditure procedures are structured and well maintained and executed keeping in mind the level of allocated funds. However, exceptional priority considerations beyond the allocated funds are ratified by the Director and central budget committee. Delegation of financial powers at institute level is promoted to keep the autonomy of the institute and to reduce time lag. All budgetary requirements that assist in student's development and are critical to teaching learning processes, are given priority. Allocation of funds is done with an objective of optimum utilization of resources for institutional requirements and is related to aspects which assist in adherence to the stated Vision and Mission of the institute.

**Mentioned below is a summary of Budget Utilization Process at ISBS PGDM:**

- Cash flow Management: Final sanctioned budget is split into month-wise allocation for ease of planning and maintaining effective cash flow.
- Budget Committee Approval: At the time of any proposed expenditure, concerned team/ individual has to gain sanction of expenditure from the budget committee. Process for the same is as follows:
  - Department has to raise requisition on requisition/budget form enlisting expenditure details for approval.
  - Authentication from accounts department for stipulated expenditure is required.
  - The expenditure proposal when exceeding a stated limit needs to be supported by triple quotations and forwarded to Budget Committee for final approval.
  - Final approval is sanctioned by the Central Budget/Finance Committee.
  - Settlement: Once the expenditure is incurred, necessary invoices duly authenticated by concerned authorities in the campus, are submitted to accounts department for reconciliation of the utilized expenditure.
- In particular, five key systems are essential for effective budget execution:
  - Authorization of Budget
  - Funds Release
  - Accounting
  - Auditing
  - Reporting

**Displayed below is a diagrammatic representation of Budget utilization procedure:**

**2.2.1.3. Availability of the audited statements on the Institute’s Website (10)**

- Audited Financial Statements are available on institute's website.

### Course and PO Correlation

Indira School of Business Studies PGDM (ISBS PGDM) is approved by All India Council for Technical Education (AICTE) and offers Post Graduate Diploma in Management - Marketing (PGDM-Marketing) Program approved by the said authority. The curriculum for the program is designed by Board of Studies (BOS) in consultation with Industry experts and the resulting Course Outcomes (COs) are also defined for all the courses.

Stated below in table 3 are all the courses mapped with the Program Outcomes (POs), in the following manner:

- To map courses with PO, the course objectives are thoroughly researched by respective subject faculty with respect to outcome expected from the course and its correlation with Program Outcomes (POs) provided by National Board of Accreditation (NBA). These are then reviewed by ISBS PGDM academic committee.
- Depending upon the objectives of each course, POs are assigned to them based on relevance, indicated as high (3), medium (2) and low (1) levels. These are assigned on the feasibility of their content and assessment in the context of the course details.
- Such correlation of CO and PO are made for all student batches.

**Table 3 below displays an illustration of the CO and PO correlation for Batch 2018-20.**

### 3.1 Attainment of Program Outcomes (50)

Institutes' marks - 50

#### 3.1.1 Describe the assessment tools and processes used to gather the data upon which the evaluation of Program Outcome is based (15)

Institutes' marks - 15

**Assessment Methods and Tools:** PO attainment is based on two assessment methods i.e., Direct Method and Indirect Method.

- **Direct Method:** In direct method, CO attainment of all courses contributing to a particular PO is calculated based on mapping (as per table 3). For example, if PO1 is mapped to three courses C101, C202, C302, then attainment levels of these courses is considered as the direct assessment of that PO attainment.
- **Indirect Method:** Indirect assessment of PO attainment is based on Student Exit survey, Employer survey and Co-curricular activities. These surveys are analysed and accordingly attainment level is calculated. Each of these assessment methods are first mapped to the POs and then their assessment is carried out.

**Table 3.1: Assessment Methods and Tools**

Method of Assessment	Weightage	Tool	Process used	Frequency of data collection
Direct	80%	Course attainment level	Internal Assessment	Mid-Semester & Continuous
			End Term Exam	Once in Semester
Indirect	20%	Student Exit survey	Feedback form	Annually
		Co-curricular activities	Feedback form	Annually
		Employer survey	Feedback form	Annually

**Assessment Process:**

- PO Attainment level considered is 80% of direct assessment + 20% of indirect assessment
- Direct attainment level of a PO is determined by taking average across all courses addressing that PO. Fractional numbers are aggregated to two points e.g. 1.53.
- Indirect attainment level of PO is determined based on the student exit surveys, employer surveys and co-curricular activities.
- For calculating attainment of indirect methods rubrics are used. For e.g. Student exit survey is quantified on a scale ranging from 1 to 5 (5 Excellent, 1-Poor), as under:

Level-3	80% or above feedback marks
Level-2	70% or above feedback marks
Level-1	60% or above feedback marks

**3.1.2. POs attainment levels (35)**

Institutes' marks - 35

PO attainment is based on course outcomes directly through student's performance in internal and end semester examination and indirectly through surveys.

Direct Assessment: As per table 3, average course outcomes were documented for various POs it's addressing. This table gives us the targeted level for PO and CO attainment. After calculating actual attainment level of each course, PO attainment level is calculated by multiplying the actual CO attainment level with the targeted one i.e. mapping and averaged to calculate final attainment level of PO.

**Observations:** PO attainment levels shown above are analysed and some of the observations related to PO attainment are:

- PO2 has the highest attainment level across batches (with an average of 2.60 i.e., 86.66 %) showing that our students can do analytical and critical thinking for data-based decision making.
- Attainment value of PO1 is the 2<sup>nd</sup> highest across batches (with an average of 2.59 i.e., 86.33%) indicating that our students can learn the application of management theories and practices to solve business problems.
- The attainment levels of all POs have shown continuous improvement year on year.

The attainment level of PO1 has increased from 2.39 (79.66%) (Batch 2016-18) to 2.52 (84%) (Batch 2017-19) (5.44 % increase) **AND** 2.52 (84%) (Batch 2017-19) to 2.85 (95%) (Batch 2018-20) (13% increase).

The attainment level of PO2 has increased from 2.39 (79.66%) (Batch 2016-18) to 2.54 (84.66%) (Batch 2017-19) (6.27% increase) **AND** 2.54 (84.66%) (Batch 2017-19) to 2.86 (95.33%) (Batch 2018-20) (12.60% increase).

The attainment level of PO3 has increased from 2.23 (74.33%) (Batch 2016-18) to 2.31 (77%) (Batch 2017-19) (3.59% increase) **AND** 2.31 (77%) (Batch 2017-19) to 2.95 (98.33%) (Batch 2018-20) (27.70% increase).

The attainment level of PO4 has increased from 2.38 (79.33%) (Batch 2016-18) to 2.49 (83%) (Batch 2017-19) (4.62% increase) **AND** 2.49 (83%) (Batch 2017-19) to 2.83(94.33%) (Batch 2018-20) (13.65% increase).

The attainment level of PO5 has increased from 2.23 (74.33%) (Batch 2016-18) to 2.26 (75.33%) (Batch 2017-19) (16.58% increase) **AND** 2.26 (86.66%) (Batch 2017-19) to 2.90 (96.66%) (Batch 2018-20) (11.53% increase).

- For the Batch 2016-18, in comparison to the attainment levels of PO1 (2.39 i.e. 79.66%), PO2 (2.39 i.e. 79.66%) and PO4 (2.38 i.e. 79.33%), the attainment levels of PO3 (2.23 i.e. 74.33%) and PO5 (2.23 i.e. 74.33%) are less [this indicated that there was a gap to be fulfilled regarding value based leadership abilities and the ability to lead themselves and others in achievement of organizational goals and effective contribution to team environment], but shown a great improvement in 2017-19 (the attainment level of PO3 increased from 2.23 (74.33%) to 2.31 (77%) and the attainment level of PO5 increased from 2.23 (74.33%) to 2.26 (86.66%). Similarly, the attainment levels of PO3 and PO5 has also shown improvement for batch 2018-20 over batch 2017-19 (the attainment level of PO3 increased from 2.31 (77%) to 2.95 (98.33%) and the attainment level of PO5 increased from 2.26 (75.33%) to 2.90 (96.66%).
- For the Batch 2016-18, in comparison to the attainment levels of PO1 (2.39 i.e. 79.66%), PO2 (2.39 i.e. 79.66%), the attainment level of PO4 (2.38 i.e.79.33%) is less (2<sup>nd</sup> highest among all POs) [this indicated that there was a gap to be fulfilled regarding development of ability to understand, analyse and communicate global, economic, legal and ethical aspects of business], but has shown consistent improvement in the subsequent batches. For batch 2017-19, the attainment level of PO4 increased from 2.38 (79.33%) to 2.49 (83%) and for batch 2018-20, the attainment level of PO4 increased from 2.49 (89.33%) to 2.83 (94.33%).
- Indirect attainment levels have consistently remained at highest levels (at level 3) across all batches.

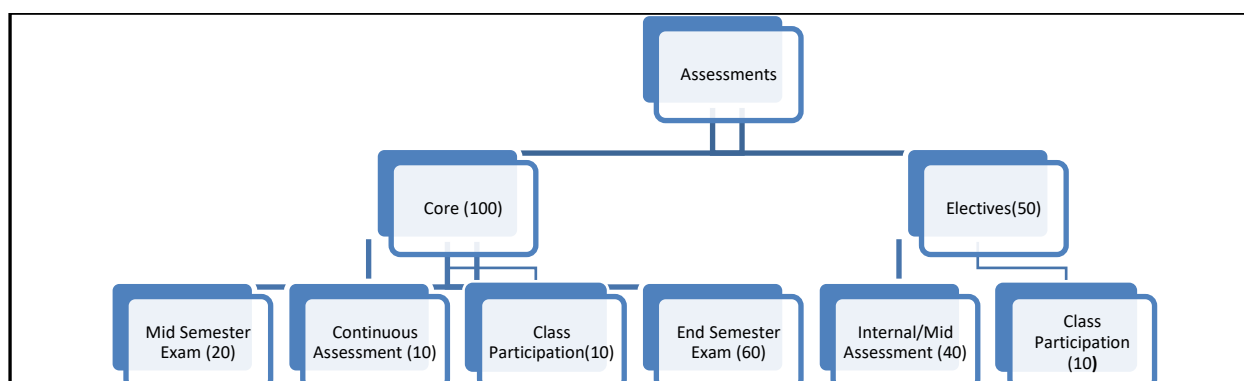

### 3.2 Course Outcomes (50)

Institutes' marks - 50

#### 3.2.1 Describe the assessment tools and processes used to gather the data upon which the evaluation of Course Outcome is based (10)

Institutes' marks - 10

**Assessment Tools and Processes:** CO attainment is based on Internal Assessments and End semester examination. The below mentioned assessment structure is followed:

- **Internal Assessment:** Continuous assessment / Internal assessment is done by internal faculty member using various modes like tests, assignments, case studies, role plays, presentations, scrap books, MCQs, Quiz, GD, Industrial Visits, Newspaper reading etc.. ISBS PGDM selects assessments based on following parameters - Application oriented, balance between theory and practical, adherence to guidelines and comprehensive analytical and collaborative approach.

**Table 3.2.1: Assessment Methods & Tools**

Method of Assessment	Weightage	Tool	Nature of exam	Frequency of data collection
Internal Examination	40%	MCQs	For each subject 3-5 assessments are taken and mapped to the course objectives.	Continuous
		Class test		
		Group discussion		
		Case study		
		Role play		
		Presentations		
Mid Semester Exam				
End Semester Examination	60%	Theory Exam	Theory + Numerical	Once in semester

**Note: Tools of internal assessment are not restricted to the above methods only.**

**Internal Assessment** is separately compiled for each course by the respective faculty members. All internal assessments are duly mapped to course objectives.

**External Assessment** is based on the students' performance in end term exams. The result analysis is prepared for each subject and the attainment level is calculated.

In present analysis, the targets for assessment were set keeping in view the average performance of the students. The threshold is set at 60% marks and the levels of attainment will be as under:

Level-3	More than 60% students getting 60% marks
Level-2	40-60% students getting 60% marks
Level-1	Less than 40% students getting 60% marks

These standards are used for both the internal and external assessments.

### **3.2.2 Record the attainment of Course Outcomes of all courses with respect to set attainment levels (40)**

Institutes' marks - 40

CO attainment is based on Internal and End-Semester Examination i.e. direct method. All internal assignments are mapped against course objectives. End-Semester marks are also mapped with course outcome. Then as per the set levels and weightage, attainment of the course is calculated.

**Calculation of one Course attainment level is given below as an illustration:**

**Course: PGDM –Marketing (Batch 2018-20) - Semester I – Managerial Economics (MGC 101)**

This course is evaluated based on internal assessments and end-semester examination. Calculation of attainment levels for both is shown as under:

**Internal Evaluation:** Internal evaluation of this course is done on the basis of three evaluation which are Continuous Assessment 1, Class Participation and Mid-semester exam. Below mentioned tables shows the attainment level of course through each of these assignments.

**Table: 3.2.2.1-CO Attainment through Assignment 1**

Assignment Name	CA1	
Teacher	Prof. Sudhindra Majumdar	
	Course Outcome	<b>2018MGC101.1,2018MGC101.3</b>
	Max Marks	<b>10.00</b>
Student $\geq 60\%$ Marks		<b>59</b>
Total Student s		<b>59</b>
CO 1, CO 2 Attainment (%)		<b>100</b>

The above table shows that the assignment is mapped to CO1 and CO3 of course 101. 59 students out of total 59 students got more than 60% marks which means that CO1 and CO2 have attainment level of 100%.

**Table: 3.2.2.2-CO Attainment through Mid Sem**

Assignment Name	Midsem	
Teacher	Prof. Sudhindra Majumdar	
	Course Outcome	<b>2018MGC101.1,2018MGC101.2</b>
	Max Marks	<b>20.00</b>
Student $\geq 60\%$ Marks		<b>54</b>
Total Student s		<b>59</b>
CO 1, CO 2 and CO 3 Attainment (%)		<b>91.53</b>

The above table shows that the Mid Sem is mapped to CO1 and CO2 of course 101. 54 students out of total 59 students got more than 60% marks which means that CO1 and CO2 has attainment level of 91.53%.

**Table: 3.2.2.3-CO Attainment through Class Participation**

Assignment Name	Class Participation	
Teacher	Prof. Sudhindra Majumdar	
	Course Outcome	<b>2018MGC101.1,2018MGC101.2, 2018MGC101.3</b>
	Max Marks	<b>10.00</b>
Student $\geq 60\%$ Marks		<b>44</b>
Total Student s		<b>59</b>
CO 1, CO 2 and CO 3 Attainment (%)		<b>74.58</b>

The above table shows that Class Participation is mapped to CO1, CO2 and CO3 of course 101. 44 students out of total 59 students got more than 60% marks which means that CO1, CO2 and CO3 have attainment level of 74.58%.

**Table: 3.2.2.4-CO Attainment through End Semester Exam**

<b>Assignment Name</b>	End Sem Exam	
<b>Teacher</b>	Prof. Sudhindra Majumdar	
	<b>Course Outcome</b>	<b>2018MGC101.1,2018MGC101.2, 2018MGC101.3</b>
	<b>Max Marks</b>	<b>60.00</b>
<b>Student &gt;=60% Marks</b>		<b>39</b>
<b>Total Student s</b>		<b>59</b>
<b>CO 1, CO 2 and CO 3 Attainment (%)</b>		<b>66.1</b>

The above table shows that university exam is mapped to CO1, CO2 and CO3 of course 101. 39 students out of total 59 students got more than 60% marks which means that CO1, CO2 and CO3 have attainment level of 66.1 %.

**Table: 3.2.2.5-Consolidated CO Attainment for the subject**

PGDM-M - 2018 - Sem I - Managerial Economics

The above table gives us a consolidated view of all the assessment taken for evaluating this subject. It explains the internal/continuous and end semester evaluation % and also the weighted attainment of the subject taking internal and external assessments' weight as 40% and 60% respectively.

**Table: 3.2.2.6- CO attainment Levels for the subject**

Attainment of Course Outcome								
Course Outcome	Mapping with Program Outcome		Attainment % in

	PO--4	Moderate (0.67)						

The above table shows level of CO-PO mapping. Then as per the set levels of marks, level 1, 2 or 3 are given, which are then converted into weighted level of attainment. As courses are evaluated as per internal and external assessments i.e. direct method, the weightage of the same is 100%.

Level-3	More than 60% students getting 60% marks
Level-2	40-60% students getting 60% marks
Level-1	Less than 40% students getting 60% marks

This table shows the level of weighted CO attainment contribution to the attainment of PO. Each course is mapped against the various POs. The CO attainment level is taken from each course and then as per the below mentioned formula PO attainment is calculated:

$$\text{Formula} = \frac{\sum (\text{Affinity} * \text{Level of attainment})}{\sum \text{Affinity}}$$

Where **Affinity** = Level of Mapping

### CO attainment Batch wise

As per the above sample weighted CO attainment contribution is calculated for each course which gives us the consolidated table of PO attainment across semesters leading to batch wise PO attainment. The last column of the below mentioned CO attainment report shows the weighted average CO attainment %. This is calculated keeping in mind the result of each course in internal and external assessments. Weights for internal and external assessment are taken as 60 and 40 percent respectively.

Below mentioned is the CO attainment Reports batch wise for three batches of students starting from 2016-18 to 2018-20:

#### Batch 2016-18

- 17 subjects out of total 37 subjects have attained less than 61% of learning outcomes.
- 9 subjects out of total 37 subjects have attained learning outcomes in the range of 61-80%.
- 11 subjects out of total 37 subjects have attained leaning outcomes in the range of 81-100%.

**Batch 2017-19**

- **15 subjects out of total 37 subjects** have attained less than 61% of learning outcomes.
- 10 subjects out of total 37 **subjects** have attained learning outcomes in the range of 61-80%.
- 12 subjects out of total 37 **subjects** have attained leaning outcomes in the range of 81-100%.

**Batch 2018-20**

- 6 subjects out of total 38 **subjects** have attained less than 61% of learning outcomes.
- 18 subjects out of total 38 **subjects** have attained learning outcomes in the range of 61-80%.
- 14 subjects out of total 38 **subjects** have attained leaning outcomes in the range of 81-100%.

**Table 3.2.2.10-Consoliated CO-attainment**

<b>CO-attainment range (%)</b>	<b>16-18 Batch</b>	<b>17-19 Batch</b>	<b>18-20 Batch</b>
<61	17	15	6
61-70	5	6	3
71-80	4	4	15
81-90	6	6	7
91-100	5	6	7

The above table shows the consolidated picture of attainment levels of courses through batches.

It can be observed that number of subjects having <61% attainment level has decreased from 17 out of 37 subjects for the batch 2016-18 to 15 out of 37 subjects for the batch 2017-19 and 6 out of 38 subjects for the batch 2018-20

The number of subjects with CO attainment in the range 91 to 100 has also increased from 5 out of 37 subjects for the batch 2016-18 to 6 out of 37 subjects for the batch 2017-19 and 7 out of 38 subjects for the batch 2018-20.

This shows that there is an improvement in the result year on year.

#### 4.1 Curriculum (50)

##### 4.1.1. State the process for designing the program curriculum (10)

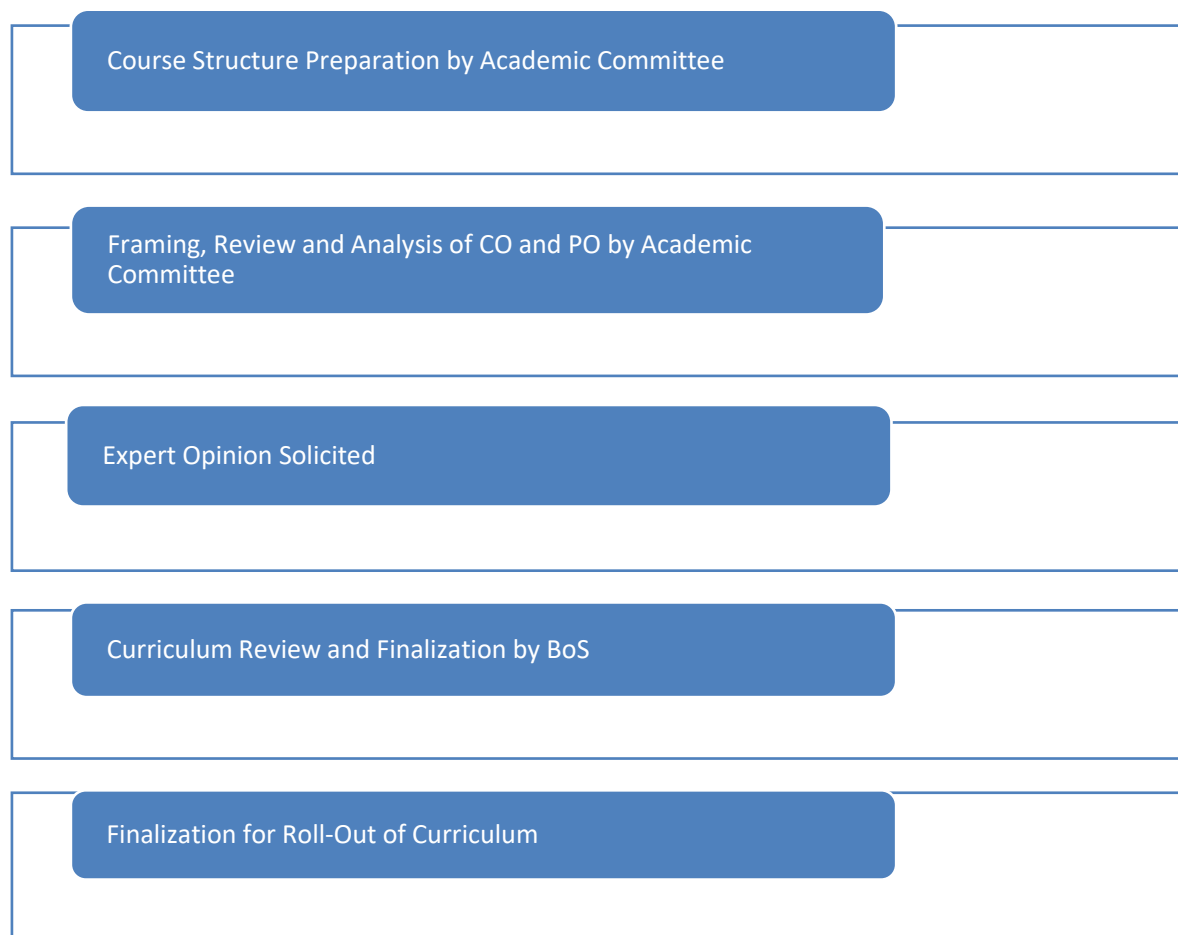

Institutes' marks - 10

Indira School of Business Studies PGDM (ISBS PGDM) offers Post Graduate Diploma in Management- Marketing (PGDM- Mkt) program approved by AICTE. The curriculum for the program is designed by the Academic Committee at ISBS PGDM that takes into consideration the inputs of Industry Experts and the curriculum taught at other Universities. The curriculum is ratified for adoption by Board of Studies (consisting of Academic and Industry experts along with other members). Enriching learning environment, continuous learning, active student–teacher participation, industry collaboration, employability enhancement and like, are some of the key features of ISBS PGDM curriculum.

The program structure is as follows:

## Process for Designing the Program Curriculum

## Process for Designing the Program Curriculum

### Course Structure Preparation by Academic Committee

The curriculum is divided into Core and Elective Subjects. The academic committee studies courses taught at various universities, input is also provided by industry and academic experts who are part of ISBS PGDM visiting/adjunct/guest faculty team. Deliberations on industry needs, academic relevance, course outcome, credits allotted and syllabus for the course lead to the formation of program curriculum most relevant for the students of management program.

### Framing, Review and Analysis of CO and PO by Academic Committee

Academic Committee engages to map the CO with PO to attain maximum relevance for the attainment of PEO. This entails study of past trends in attainment level and inclusion of aspects in curriculum to minimize any future gaps on account of different skills needed by students to match the latest trends in industry.

### Expert Opinion Solicited

The draft document is presented to the experts from industry, working in different functional areas and their input is considered to further refine the content of the curriculum. Thus emerges a final draft of the curriculum.

### Curriculum Review and Finalization by BOS

The curriculum is ratified for adoption by Board of Studies consisting of Academic and Industry experts along with other members of ISBS PGDM. Deliberations at this stage ensure

the macro level fulfilment of suggested curriculum with reference to continuous learning provided through the content of curriculum, active student– teacher participation, industry collaboration, employability enhancement, enriching learning environment, and the like.

### Finalization for Roll-Out of Curriculum

Curriculum is rolled out with adequate provisions for effective teaching and learning.

Semester II onwards, 6 elective courses are offered to students, out of which students choose any 2 electives. These chosen electives are termed as “program electives”, those electives that are offered but are not opted by students are termed as “open electives”. Thus, open electives are not taken into consideration while calculating the total number of credits.

#### 4.1.4. Overall Quality and Level of Program Curriculum (15)

Institutes' Marks - 15

One of the Mission statements at ISBS PGDM is “To promote learning environment for students from diverse cultures and engage them in globally relevant knowledge dimensions for future application in industry, business and life.” To engage students in globally relevant knowledge dimension and application orientation it is imperative to take the students beyond the fixed curriculum. Therefore, focus of teaching learning efforts at ISBS PGDM stress on holistic development of the students, exposing students to multi-disciplinary aspects in learning.

#### Process for designing the Domain and Co-Curricular Inputs

The employability quotient of students is enhanced by imparting robust domain inputs and co-curricular inputs. For domain inputs, suggestions are sought from Industry experts to ensure that curriculum is in line with Industry requirements. The detailed process of designing domain inputs/curriculum has been explained in 4.1.1. Since all skills cannot be imparted through classroom teaching of curriculum, to fulfil the requirement of giving students a practical orientation of requisite skills, a comprehensive skill-based Co-curricular program called the Career and Leadership Development Program (CLDP) is designed by Academic Committee in consultation with BOS. The prime focus of CLDP curriculum is enhancement of employability skills of the students along with grooming the overall personality.

## Illustration of CLDP Inputs Finalization

- **Preparation of Career and Leadership Development Program (CLDP) Structure by Academic Committee** - Academic Committee prepares the co-curricular inputs to be imparted to students, based on personality and professional skills needed for success in the corporate. Such skills are also prepared keeping in mind the attainment of PO's.
- **Review by Industry Experts** - ISBS PGDM appreciates the need of employability as an essential outcome from a management program and therefore preparation of CLDP Program and ensuing skills are finalized in consultation with Industry experts. The PO attainment from such skills is considered as part of indirect attainment of PO.
- **Finalization of Career and Leadership Development Program (CLDP) by BOS** - The input suggested by Academic Committee as part of CLDP is reviewed and finalized for roll out, based on employability quotient needed and records of past placement records of students.

### Career and Leadership Development Program (CLDP)

Comprehensive Career and Leadership Development Program (CLDP) is prepared as part of Co-curricular teaching and learning. The attainment of outcome of this program is mapped as part of indirect attainment of PO, utilizing rubrics as the measurement scale. The CLDP has been developed to fulfil the requirement of personality and professional skills for enhancement of employability expertise of the students. ISBS conducts the Co-curricular Program (CLDP), concurrently with the curricular input.

Objectives of Career and Leadership Development Program (CLDP):

- Enhance personal and professional skills through application-based learning.
- Equip students with decision making and negotiation skills.
- Assists in imparting effective communication skills.
- Enhances general awareness to keep abreast with Business Environment.

The major inputs given in each of four quadrants are:

ISBS PGDM consistently collaborates with industry for adding value in the teaching learning processes and enlists their assistance to create customized programs for the students, conduct sessions on campus and form alliances for joint certification programs.

- 9 OZONE** – ISBS PGDM provides the students with a skill development activity called "OZONE". In this initiative corporate professionals train the students to impart skills relevant to face recruitment processes and serve as a bridge building activity to cater to the expectations of the industry from the management graduates. The industry experts train the students on their interview skills, group discussions and summer internship project presentation. In this program the students are given an insight on how they can portray the applicability of their project work in organization that will join. This program is conducted in the first three semesters for the students.
- 10 XED Intellect:** ISBS PGDM provides the students with analytical training called XED Intellect. This input is provided to students to build an analytical and logical aptitude in their repertoire of skills, to enhance decision making as a management professional. This program is conducted in the first two semesters for the students.
- 11 Proton** – Aptitude refers to the competency of students to acquire knowledge. With the help of aptitude tests ISBS PGDM assists students to predict and understand their learnability and work towards enhancing gaps in their learning. It also assists students to assess their potential and suitability for certain careers.
- 12. Personality development Program** - Indira School of Business Studies PGDM focuses on imparting knowledge on various technical domains on one hand and also lays high emphasis on improving the personality of students to enhance their complete repertoire, desirous of a management professional. Following initiatives are implemented for students personality grooming:

**Language Leadership Lab** - Communication skills are essential for enhancement of student's personality on one hand and another to augment their interpersonal skills for people management. ISBS PGDM provides English language training along with finer aspects of communication skills and utilizes its provision of Language Leadership Lab (LAB): This prepares students for effective skills such as Reading, Speaking, Listening and Writing in English Language. These sessions are extensive, result oriented and are conducted by experienced trainers.

To accomplish the objective, ISBS PGDM has well equipped audio- visual "English LAB" with latest technology to enhance interactive learning. The LAB has software that helps students learn and grade themselves on various parameters. The LAB is developed on the methodology of Listening, Speaking, Writing, Reading skills.

It has following interactive modules:

- Audio recording for assessing one's speech
- Vocabulary Building modules
- Self-Paced Reading Exercises
- Interactive Quizzes.
- Listening Exercises

**Soft Skill Development** - Besides communication skills, ISBS PGDM aims to nurture and empower its future managers with soft skills to meet the ever-changing needs of modern globalized business. Soft Skill Development Programs are process driven with content standardization, for enhancing overall personality of students. Appropriate trainer selection brings forth desired outcome from the training imparted.

Soft Skill Development includes input on:

- Goal Setting and Career Planning
- Positive Thanking and Motivation.
- Time Management, People Skills, Business Etiquettes
- Personal Grooming and Hygiene and many more

### **Implementation of Career and Leadership Development Program (CLDP)**

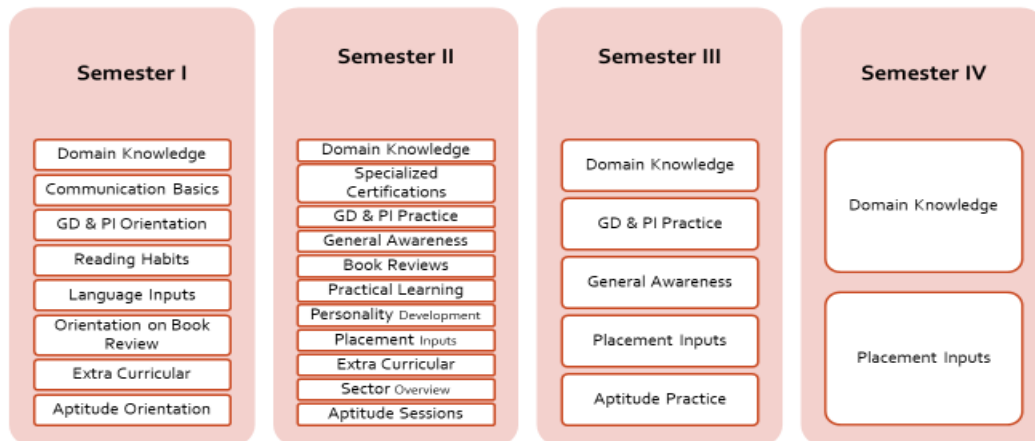

CLDP is a comprehensive program and thus the inputs are systematically spread across all the four semesters of the PGDM Program.

**Semester I** – Focus is on fundamental competencies of the students viz communication skills, General awareness, basic inputs on GD and PI and aptitude skills.

**Semester II** – Focus shifts on imparting domain related skills through customized CLDP inputs. Prime focus of this semester is to build domain expertise that is achieved through organizing specialized workshops, giving detailed knowledge of different sectors and placement related inputs especially GD/PI training.

**Semester III and IV** –The focus areas are primarily around placement specific inputs. Extensive training is provided on group discussions, personal interviews and company related inputs.

#### Curriculum Implementation Process

**Resource Identification and Implementation**

Resource identification for teaching courses is based on nature of courses and available permanent faculty with expertise for the courses along with resources for supplementary input by industry representatives.

**Faculty Allocation- Course wise**

Faculty allocation for courses considers preferences prescribed by faculty members, and in consultation with the HOD for respective functional domains, courses are allocated to respective faculty members based on their teaching experience, subject expertise, and feedback for previous years. Such allocation is conveyed to Director for approval. Faculty are also encouraged to subscribe for diverse courses to teach students and they are led forward in this by having them showcase their competency in such courses through demonstration sessions attended by senior faculty members.

**Session Plan Preparation- LTP Pattern**

Once course allocation is firmed for the semester, a detailed Session plan/ Rollout is submitted by each faculty member, before the commencement of actual teaching. In the Rollout Plan details of the topics to be covered together with the pedagogy/teaching tools to be followed for the subject are mentioned. Each rollout is divided into L-T-P pattern i.e. Lecture – Tutorial – Practice.

- Improving instructional methods and using pedagogical initiatives:** Teaching and learning process at ISBS PGDM follows conventional mode of teaching along with focus on innovative and effective pedagogical initiatives. It is mandatory for faculty to include multiple tools for teaching and incorporate them in the session rollout plan at the commencement of classroom delivery. Lecture plan showing methodology of teaching is shared with students before the beginning of the semester. Institute has taken

various initiatives out of which some are listed on our website. The purpose of using these initiatives is:

- To evoke interest among students
- To encourage out of the box thinking
- To provide real life scenario to students
- To effectively transfer knowledge
- To facilitate group learning
- To meet global standards of education
- To upgrade knowledge effectively
- To promote application-based learning

### **Illustration of Pedagogical Initiatives**

- **MOOCs (Massive Online Open Courses):** ISBS PGDM offers MOOCs as compulsory module to students along with certain MOOCs of their preference. MOOC which is a recent addition to online courses has quickly gained interest and support in higher education world-wide. MOOCs allow students to complete full courses of study in a non-traditional format, and certificates for course completion are integrated into programs ISBS PGDM already offers. MOOCs are driven using technology and include video lectures, discussion forums, tests, and assignments. MOOCs are built on efficiency of scale, giving access to the teaching of a world class professor to thousands of students at once. The lectures, assessments, and activities for a course – especially an online course – and the expertise of the professor behind the content provide considerable value for students. ISBS PGDM has adopted MOOC as it opens the door of the professor's classroom to teach more than just a few dozen students at a time. Our government is also recognizing the power of MOOCs.
- **Webinar:** Being a contemporary tool in teaching pedagogy, ISBS PGDM has incorporated webinars in the methodology for teaching. A webinar is an event held on the internet which is attended exclusively by an online audience. Defying all the latest communication trends towards everything being shorter and quicker, the average viewing time for webinars is increasing year on year, and currently stands at an average of 56 minutes! From a teaching and educational perspective, webinars are interesting because of the very high degree of interaction, helping participants to learn and understand more quickly.
- **Case Study:** Case method is a powerful student-centred teaching strategy that can impart students with critical thinking, communication, and interpersonal skills. Working on cases requires students to research and evaluate multiple sources of data, fostering information literacy. Cases are narratives, situations, select data samplings, or statements that present unresolved and provocative issues, situations, or questions. The case method adopted at ISBS PGDM is a participatory, discussion-based way of learning which promotes more effective contextual learning and long-term retention.
- **Case lets:** These are small cases developed by ISBS PGDM faculty members for their respective subjects. Current information related to a concept or subject is summarized in the form of a case which support the formal method of teaching. Through this technique students get an insight of the current scenario related to the subject and this helps them to build their knowledge about the various practical aspects of business.
- **Role-plays:** Role-plays as utilized by some faculty at ISBS PGDM as a teaching pedagogy and serves as an effective technique that allows students to explore realistic situations by interacting with other people in a managed way. It allows students to develop an experiential approach and try different strategies in a supported environment, for instance demonstrating an effective sales strategy. It is a very flexible teaching approach because it requires no special tools, technology or environments; for example, student could work through a role-play exercise just as effectively in a lecture hall as in a seminar room. However, technology can provide significant advantages, and even new possibilities, for using the approach as a learning activity.
- **Mini Projects/Research based Assignments:** Students are allotted assignments as part of different subjects by faculty with the intent of enhancing their research aptitude for gathering and analysing data. Such projects/assignments also augment their skills for using software tools such as SPSS to analyse the findings of the research. Subjects like BRM (Business Research Methods) make use of this pedagogy to improve the analytical and presentation skills of the students. Students also get hands on experience on practical usage of statistical methods like Chi-square, Annova, T-test, F-test etc.

- **Group Projects:** Group work can be an effective method to motivate students, encourage active learning and develop planning, cooperative learning, critical thinking, and decision-making skills. This technique at ISBS PGDM helps students to learn to contribute effectively to a team environment. Students are also asked to do specific industry analysis in their groups and present the same as a class assignment.
- **Simulation / Online Games:** Educational games and simulations are experiential exercises that transport learners to another world. They apply their knowledge, skills and strategies in the execution of their assigned roles. These games help students to practice and/or refine already-acquired knowledge and skills, identify gaps or weaknesses in their knowledge and also to develop new relationships among concepts and principles.
- **Videos / Movies** – Faculty at ISBS PGDM have found value in the use of video for teaching and learning process. Students can relate better with presented concepts and explore content more deeply during class time. Since faculty found it advantageous to use videos for reinforcing concepts, this has been adopted as an accepted form of pedagogy to aid in more efficient processing and memory recall.
- **Research Papers:** Research paper discussion is another method used by faculty for involving students in learning the current aspects of various concepts. Since faculty undertake research, they share the knowledge gained by them in classrooms with the students. Students also learn about the nuances of undertaking research.

**Table 4.2.1: Summarized Pedagogical Initiatives and their Utility**

Sr. No.	Pedagogical Initiative	Usefulness / Utility
1	MOOCs	A massive open online course aimed at unlimited participation of students and open access via the web. MOOCs provide interactive courses to support open interactions among students, professors, as well as immediate feedback to quick quizzes and assignments.
2	Webinars	To provide insights to the students on improve learning outcomes and result which will enable them to procure better career prospects.
3	Case Study	To enhance Analytical ability, Decision making and Problem solving skills of students
4	Case lets:	To equip students on questions on Situational analysis.
5	Role Plays:	Practical learning through activities.
6	Mini Projects / Research based Assignments:	Application oriented projects focused on Research fundamental and primary orientation on statistical tools.
7	Group Projects:	Collaborative Learning and team dynamics.
8	Simulation / Online Games	Enhance ability to process Real time data using Analytics and virtual games.
9	Videos / Movies	Improving Student engagement, efficient learning and memory recall.
10	Research Paper	Ability to systematically prepare and process data. Instill reading habits.

### **Use of ICT through Smart / Interactive classrooms:**

With onset of Pandemic, ISBS PGDM swiftly adapted to virtual mode of teaching-learning. Even before the virtual became new normal, ISBS PGDM had concept of Smart classroom which was delivered through the platform called “Impartus”.

The objective of the concept was “**to bring the importance of Video based learning into mainstream education and take learning beyond the limitations of physical infrastructure.**”

As the pandemic disrupted the offline education, ISBS PGDM trained its faculty through an intensive faculty development program called “virtual vidya” and got the subscription of online LMS Microsoft teams and zoom. Classes were held unhindered first through Impartus and later via Microsoft Teams and Zoom.

### **Process and some of the key features of the Virtual classrooms are as follows:**

ISBS PGDM started recording sessions conducted by regular faculty, visiting faculty, as well as guest faculty, using high-definition cameras installed in the classroom.

- All sessions were held live. Faculty would make use of features such as breakout rooms, polls, quizzes, symbols to make the class interactive and engaging.
- The recordings of sessions are made available for students in their respective subject channel. This assists students extremely well for revisit and revision of the concepts.
- This way the end-to-end lecture capture records the video and offers a complete platform for online digital library for the institute.

### **Methodologies to Support Weak Students and Encouraging Bright Students**

While the endeavor of every faculty at ISBS PGDM is to ensure that students in the class to the best of their abilities, there are bound to be differences in the calibre of students. Faculty therefore make effort to fathom these special needs of some students and prepare a plan to cater to their needs in ways that does justice for weak and bright students, so that both emerge with expected levels of learning.

Following are the details of approach / methodology followed at ISBS PGDM to cater to special needs of the students:

**Assisting Weak Students** – As part of the teaching learning process, faculty at ISBS PGDM ensure that every student is given equal opportunity of learning and specific attention is given to students who needs additional assistance.

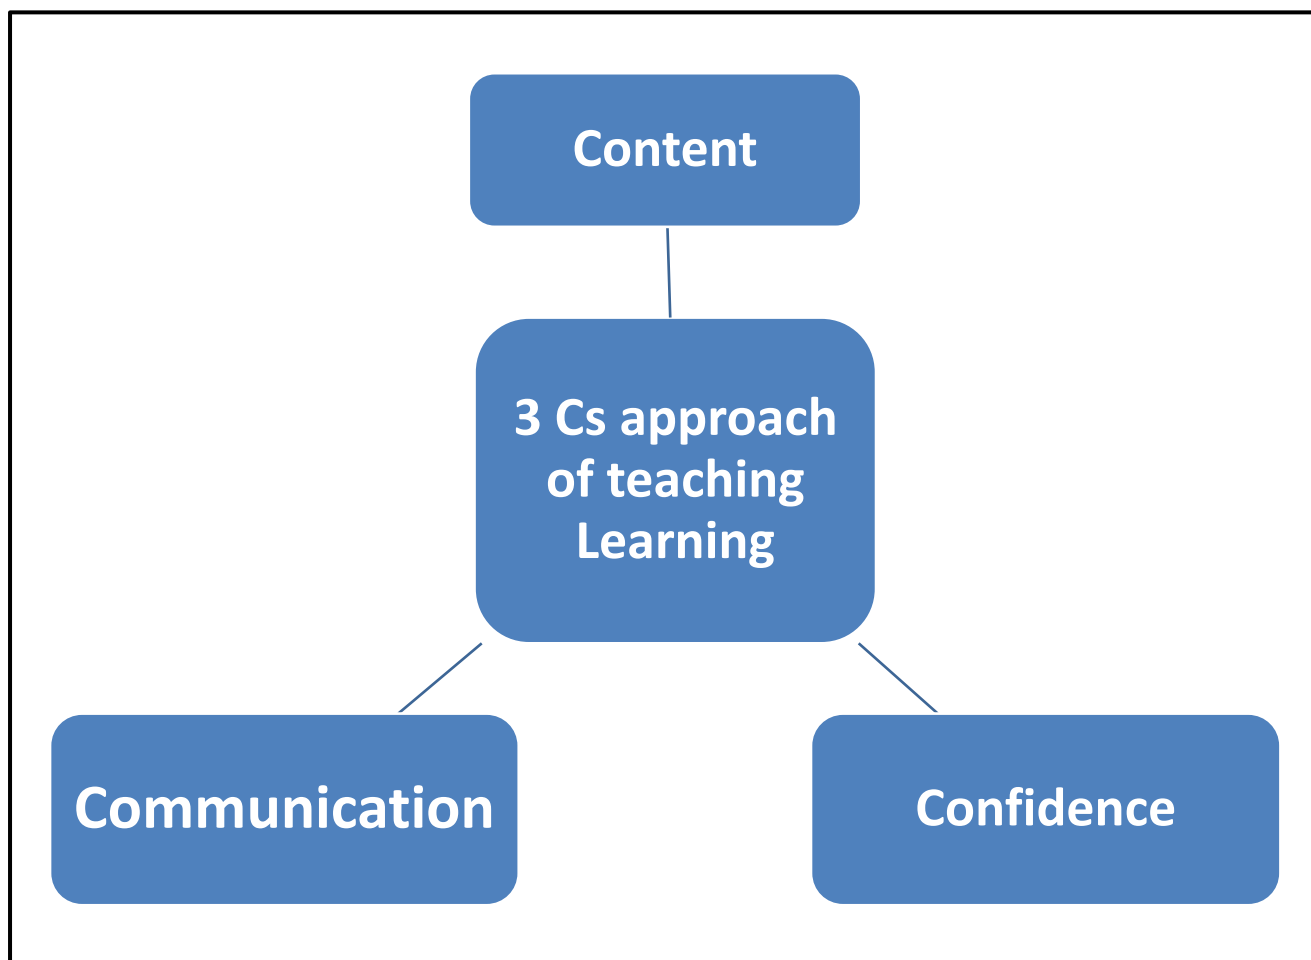

Identification and assistance is done in the following manner:

- Careful observation in the class by subject Faculty.
- Class performance and participation in Skill development program.
- Provision of Tutorials for subjects in which weak students need assistance.
- Counselling through Mentoring groups.
- Appointment of seniors as buddies for these students.
- Providing additional study material / guidance to weak students.
- Assignments based on previous years question papers and special classes for tips on solving such papers.

**Encouraging Bright Students** – Along with assistance to weak students, the additional demands of bright students are maintained through initiatives as mentioned below:

- Additional assistance by appointing Industry Mentors for better placement prospects and preparation for such students. This is achieved at ISBS PGDM through the *Alpha Program and Near Alpha Program* by knowledge partners at ISBS PGDM , which is a professional agency called Ozone.
  - Specific and focused training under Alpha Program enables the students, for instance, to pursue summer internship in their dream organizations and effectively complete summer internship and convert it into final placement.
  - Appointment of Alumni as Buddy to guide and assist in improved performance.
  - Encouraging students to take up joint certification programs with industry to enhance employment prospects in these companies at higher levels of placement.
  - Students are encouraged to participate in competitions that test their mettle and thus add to their performance and confidence.
- **Quality of Classroom Teaching and Classroom Ambience** – Environment within which teaching, and learning takes place, plays an important role in the effectiveness of implementation. ISBS PGDM ensures well quipped classrooms with ample space, green and clean surrounding.

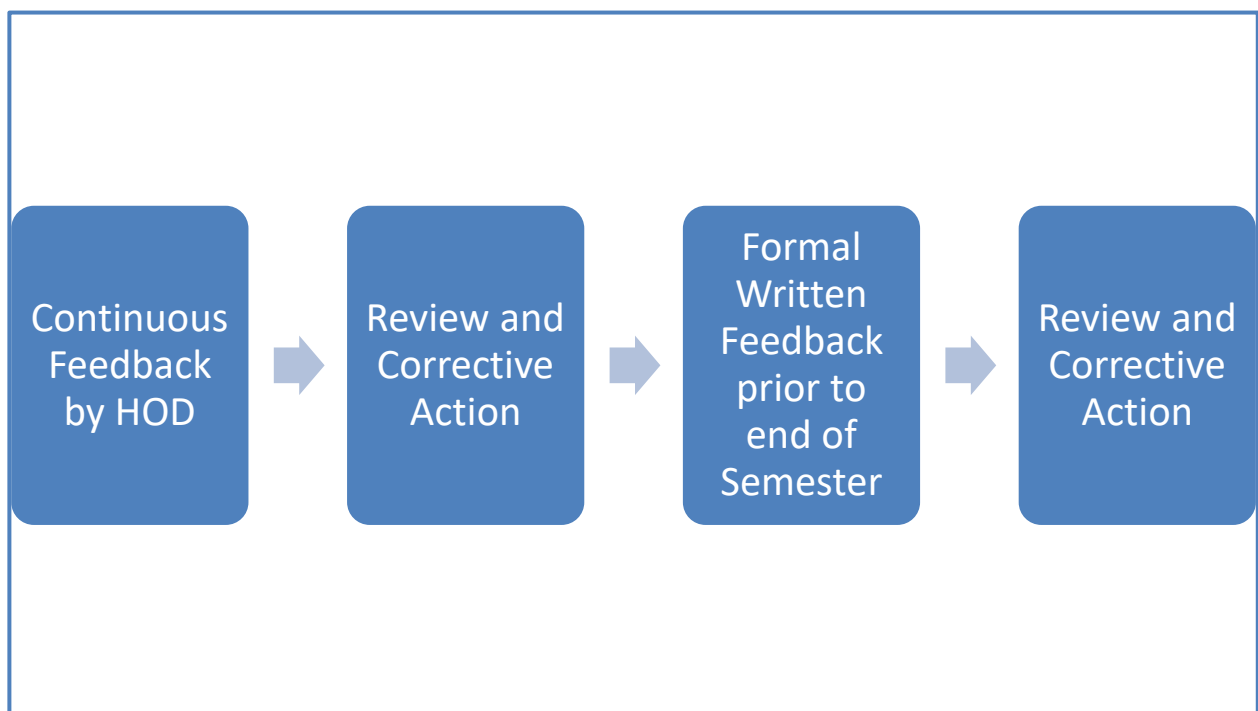

While imparting teaching too, faculty focuses on interactive based teaching and learning. Pedagogical tools like case studies, articles, and class activities, help in assisting healthy discussion in classes. Students are encouraged to participate, ask questions, and share thoughts, express their views to ensure interaction. Faculty shares real life situations, examples to ensure application-oriented learning. Philosophy of 3Cs approach for classroom delivery focuses on content, communication, and confidence.

**Student feedback of teaching learning process and action taken:** Feedback is an integral part of assessing the effectiveness of teaching and learning on campus. ISBS PGDM follows sound mechanism for seeking continuous feedback from students and takes corrective measures, when required. Mentioned processes are followed for attaining feedback from students and taking requisite follow up action:

- Formal feedback is taken from students through ERP once every semester as per the requirement and nature of the activity.
- Director/ HoD are expected to take regular feedback by visiting classrooms to assess the satisfaction level of students.
- Concerned departmental heads and faculty division in charge interact with students and faculty on regular basis to ensure that the implementation of curriculum is synchronized with planned inputs.
- The student's council comprises of an academic team consisting of CR (class representative) and DCR (deputy class representative) who have an allotted role of recording action taken on planned activities and this team shares such information with the Director every month to discuss teaching learning on campus. Concerns of students are taken into consideration and minutes of the meeting are mailed to all students with response for action to be taken about issues raised by students.
- Additional forum for feedback is also provided to students as part of student's grievance committee which meets the Director once every month to discuss any grievances students may have with respect to teaching-learning and the committee also provides suggestions and solutions for aspects possible for them. A report on action taken based on their grievances is mailed to students with time line for resolution of such grievances.
- Such multiple processes of response from students builds in requisite proportion of care to avoid any oversight with respect to adequate teaching learning provisions for students. Since every student's need varies, suggestions from students help to build teaching-learning processes adequate for all types of students.
- Feedback regarding quality of teaching of faculty is also utilized to ensure allotment of subjects to faculty who are better suited for certain subjects.

#### 4.2.2: Quality of continuous assessment and evaluation process (40)

Institute Marks - 40

ISBS PGDM follows the practice of evaluation of students' performance by utilizing three components viz Concurrent Assessment, Attendance and Class Participation and End-Semester Assessment, which is a pen and paper examination.

- **Evaluation Process**

Following illustration presents the allocation of various students' assessment followed:

- **Attendance** – One of important parameter on which students are assessed is their sincerity which is gauged through their attendance. 10 marks are allocated for attendance. Those who have above 90% attendance get 10 marks, 80-90% get 5 marks and 70-80% get 3 marks for attendance.
- **Continuous / Concurrent Assessment:** Continuous assessment / internal assessment is done by internal faculty at ISBS PGDM using the modes prescribed (Tests, assignments, case studies, role plays, presentations, scrap books, MCQs, Quiz, GD, Industry Visits, Newspaper Reading etc.). Faculty members select methods of assessments most relevant for their courses in consultation with HOD.

**Quality Parameters** – ISBS PGDM identifies internal assessments based on following parameters:

- Application Oriented Assessments.
  - Balance between theory, analytical and numerical assessment.
  - Comprehensive coverage of syllabus.
- **Sample Assessments and Objectives:** Below mentioned are the prescribed forms of assessments and their objectives:
    - 1) **Case Study/ Situation Analysis:** The objective of taking assignments through case study is to
      - a. Critically evaluate the nature of management challenges and explore the relationship of various solutions to those problems.
      - b. Approach problems through collaborative (Teamwork) learning.
      - c. Understand the theoretical principles and concepts in the context of real-world problems facing the society.
    - 2) **Role play / Story Telling:**
      - a. To gain a solid understanding of human behaviour in workplace from an individual, group and organizational perspective.

- b. To obtain frameworks and tools to effectively analyze and approach various Organizational situations.
- 3) MCQ test / Quiz:**
- a. To develop an analytical ability which would facilitate decision making.
  - b. To know the tools and techniques for different research processes.
- 4) Research Report:**
- a. To assess the students understanding of various research concepts and the process of business research in business environment.
  - b. To use statistical techniques for analysis in research data.
- 5) Class Presentations:**
- a. To acquaint the students with fundamentals of communication and help them in transforming their presentation skills.
  - b. To build the students confidence and to enhance competitiveness by projecting a positive image of themselves.
- 6) MOOCS:**
- a. To build on the engagement of learners who self – organize their participation according to learning goals, prior knowledge and skills and common interests.
- 7) Class Test:**
- a. To evaluate the understanding of various concepts and principles of management taught in the classrooms.
- 8) Open Book test:**
- a. To evaluate the understanding of various concepts and principles of management taught in the classrooms.
- 9) Field Visit:** Provides students with hands on experience to learn different management concepts and to apply them to real life situations.
- 10) Home Assignments:** Prepares the students for the Term - End examination, by allocating home assignments which they need to complete and submit.
- 11) Small Group Project and Internal Viva-Voce:** Assesses student's competency to defend the group projects submitted.
- 12) Learning Diary:** The purpose of the learning diary is to address, discuss and reflect students learning process in relation to the topics discussed at the lecture or in the seminar they attend.
- 13) Scrap Book:** It is a book with a set of memories in common sense. This hobby has been growing in popularity, especially in students to preserve personal history. Students get in touch with scrapbooking with collecting photos, clippings, whatever has been told in the class by the faculty and the like.
- 14) Group Discussions:** Group Discussions among students evaluate their thinking skills, listening abilities and articulation of their thoughts.

**15) Individual Term Paper/ Thematic Presentation:**

- a. To acquaint the students with fundamentals of communication based on specific theme and help them in transforming their presentation skills.
- b. To build the students confidence and to enhance competitiveness by projecting a positive image of themselves.

**16) Industry Analysis:** It is a tool that facilitates a company's understanding of its position relative to other companies that produce similar products or services. Understanding the forces at work in the overall industry is an important component and that helps students in developing their strategic skills.

**17) Book Review:** To develop reading ability among the students and to summarize the main ideas and arguments that the book's author has presented. The purpose of the review is to share enough information with the student/ group who has read the book.

**18) Model Development:** Students are asked to come forward with a certain set of Business ideas with different strategies.

**19) Simulation Exercise:** Students are presented with real-life situations to sharpen their analytical skills. Students get a chance at managing diverse business situations, from being the CEO of a bank, to managing asset and taking responsibility for liability portfolios, heading a multinational and negotiating a hostile takeover, and the like.

**20) In Depth Viva:** Provides students with an opportunity to develop in depth expertise on a particular subject and evaluate their competency.

**21) Quiz:** Helps to identify gaps in students' knowledge. Taking a quiz helps in retention and makes the next related study more productive.

**22) Newspaper reading:** Develops the reading, comprehension skills and knowledge of students and gives them the confidence to communicate and articulate more effectively.

**23) Student Driven Activities:** Students get opportunity to conduct various activities in their class and come up with certain results by evaluating their performance, like making posters, conducting students' club activities, organizing events on campus, and the like.

**Question Paper setting, Evaluation and Effective Process Implementation**

ISBS PGDM implements the examination process through well-defined procedures established by the Board of Examinations (BOE) and these are taken forward by the Examination Committee constituted to carry forth the examination process and governs the Examination Department at ISBS PGDM. The BOE also deals with all matters related to examination and reviews complaints in matters arising out of the examination process. The BOE appoints other standing committee's requisite for the audit of the examination processes. Setting question papers for semester end examination and assessment of answer books is carried out by appointment of external paper setters and examiners and is carried out through a "Centralized Assessment Process" (CAP). The Examination Department appoints paper setters, examiners and moderators and other referees where necessary. It is also entrusted with the accountability of taking forth students' evaluations and completing the evaluation cycle up to the printing of mark sheets and release of Diploma Certificates during Convocation. Students' evaluation process is time bound and such timelines are prepared prior to the beginning of each semester and communicated to all stakeholder. Director ISBS PGDM serves as the Controller of

Examination (COE) and this profile is entrusted with the ratification of all processes carried out under the examination department and maintains the sanctity of the examination procedures.

Students' assessments are carried out in two phases:

- **Students Internal Continuous Assessments** are carried out across the semester, with the objective of assisting in continuous and sustained learning. All internal continuous assessments are taken forward by the faculty team and results in submission of marks to the examination department.
- **Students Semester End Assessments** are carried out through CAP - Centralized Assessment Process by the Examination Department and is time bound and such timelines are prepared prior to the beginning of each semester and communicated to all stakeholders.

CAP is taken forward in two phases in each semester in the following manner:

- Question Paper Setting Process
- Answer Book Assessment Process

The objective for institutionalizing CAP is:

- Setting quality question papers.
- Unbiased assessment of semester end papers.
- Enlist external experts to bring in enquiry of diverse nature, to enhance students learning.

#### Stakeholders in the CAP Process

- **CAP In charge:** Responsible for executing end to end CAP process and works in coordination with examination department and external evaluators. The process begins with invitation to external paper setters, examiners and ends with submission of answer books to the examination department.
- **External Evaluator:** They are individuals with considerable experience in setting question papers and assessing answer books. Such process is carried out under standard norms for execution of the CAP process.
- **Head of Departments (HOD):** The role of HoD's in CAP process lies in evaluating the quality of question paper set by external examiners and ensures coverage of syllabus appropriately.
- **Examination Department:** The examination department ensures all administrative support for the smooth conduct of CAP, including schedule for completion, format for submissions, accountability for loss/damage of question papers/answer books and all other disciplinary aspects required for the conduct of CAP.

1	Case Study on “Work Culture at Google”	12/08/2019	CO 1
2	Mid Term exam	11/09/2019	CO2,3

#### Course: PGDM (General)-Batch (2018-20) - Semester I – Managerial Economics (101)

This course is evaluated based on internal assessments and end semester examination. Calculation of attainment levels for both is shown as under:

**1. Internal Evaluation:** Internal evaluation of this course is done on the basis of three evaluation which are Continuous Assessment 1, Mid-semester exam and attendance. Below mentioned tables shows the attainment level of course through each of these assignments.

**Table: 4.2.2.1-CO Attainment through Assignment 1**

<b>Student &gt;=60% Marks</b>		<b>39</b>
<b>Total Student s</b>		<b>59</b>
<b>CO 1, CO 2 and CO 3 Attainment (%)</b>		<b>66.1</b>

The above table shows that university exam is mapped to CO1, CO2 and CO3 of course 101. 39 students out of total 59 students got more than 60% marks which means that CO1, CO2 and CO3 have attainment level of 66.1 %.

**Model answers and Study Material:** Faculty provides sample study material to students to prepare them for assessments. Before the commencement of the academic session, Faculty in conjunction with the library team ensures availability of text as well as reference books in library. Practice tests and material is also provided to students to prepare specifically for end semester examination.

#### 4.2.3: Quality of Student reports / Dissertation (15)

Institute Marks - 15

#### Summer Internship Programme (SIP)

As part of the curriculum, in semester III, students have to work under the supervision of a faculty and carry out a Summer Internship Program (SIP) which has to be submitted for evaluation.

**SIP Introduction** - Summer Internship Program (SIP) is student's first exposure to the corporate environment. SIP is a vital component in the curriculum imparted in PGDM Program, as it revitalizes students learning for employment in Industry and prepares them for their professional lives. At the end of second semester, each student undertakes Summer Internship Project (SIP) for minimum six weeks. The SIP may be pursued in topics linked to student's functional domain or related topics. Ideally SIP is expected to exhibit a cross-functional orientation for the students. Students are expected to submit their dissertation based on the internship carried out in the organization, for evaluation purpose. SIP may be a research project - based on primary / secondary data or may be an operational assignment involving work done by the student on a given task/assignment/project/ etc. in an organization / industry. It is expected that the SIP shall sensitize the students to the demands of the workplace. The learning outcomes and utility to the organization must be specifically highlighted.

With onset on pandemic in 2020, apart from SIP in companies, desk research projects were also allocated to students who could not get a company project.

Considering the current situation (COVID pandemic) wherein working at a company's premise or on the field on behalf of the respective company has been ruled out by AICTE, ISBS PGDM explored multiple options which not only enabled students to successfully complete their SIP programme but also enabled them to seek alternate methods of doing so.

- a. Company allocated projects are those SIPs that student has got either on their own or from campus placement (through placement cell)
- b. Institute allocated desk research are those projects that students have got, in consultation with their allocated SIP mentor from ISBS.

c. If a student starts doing a desk research project and later, also applies for Company's projects (through P.C or on his/her own) and wish to undertake Company's project as well, he/she may do so but will also have to continue with and complete the allocated desk research.

**The objectives of SIP are to:**

- Acquire on the job skills, knowledge, attitudes, and perceptions.
- Get immersed in actual supervised professional experiences.
- Get an insight into the working of real organizations.
- Gain deeper understanding in specific functional areas and inter departmental linkages.
- Develop perspective about business organizations in totality.
- Build confidence for future Corporate Assignments.

**SIP is carried out in any of the mentioned entities:**

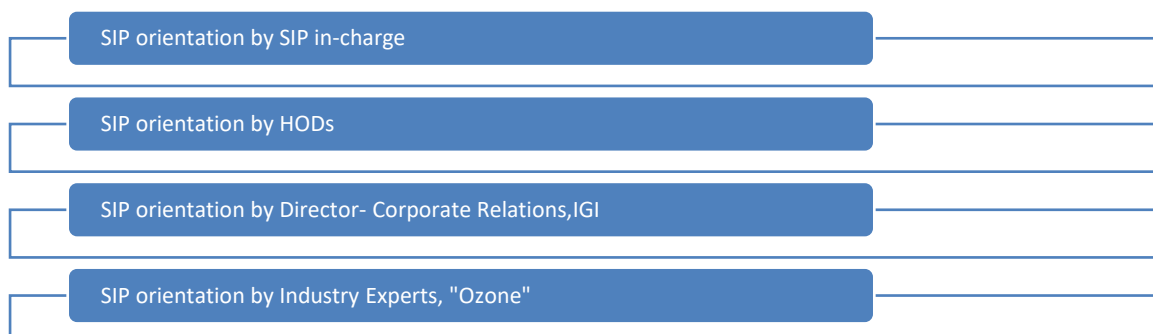

- Corporate
- NGO
- SME
- Government Undertaking
- Cooperative Sector

The SIP dissertation is expected to be well documented and supported by following elements:

- Executive Summary, Organization profile, Outline of the problem/task undertaken.
- Research methodology & data analysis (in case of research projects).
- Relevant activity charts, tables, graphs, diagrams, et al.
- Learning of the student through the project and contribution to the host organization.
- References in appropriate referencing styles (APA, MLA, Harvard, Chicago Style etc.)
- Reflect the nature and quantum of work undertaken by the student.
- Report must reflect eight weeks of work and justify the same.

Completion of SIP is certified by the respective Faculty Mentor/Guide and Industry Mentor/Guide and approved by the Director ISBS PGDM. The organization (Corporate / NGO/ SME/ Government Entity/ Cooperative/ etc.) is expected to provide a certificate of completion to the student. Copy of SIP dissertation is submitted in the campus for final Viva-voce for assessment.

**Preparation for SIP** - Students are provided orientation classes for effective preparation for SIP. Such sessions are delivered by ISBS PGDM Faculty and experts from Industry. Mentioned input is provided to students towards preparing them for SIP. The inputs given in such orientation sessions revolve around orienting students about different job roles/profiles, orienting them about various sectors, flow of SIP report etc. Various experts who give orientation to students to help them better prepare for SIP are:

**SIP Process/ Schedule followed at ISBS PGDM:**

<b>S. No.</b>	<b>Activity</b>	<b>Tentative Timeline</b>

## Explanation:

1. **SIP Placement** - SIP Placement is driven by the Placement Cell at ISBS PGDM. SIP Placement takes place in two different ways-

- **On Campus** - Companies are invited on campus and students go through the company process for their SIP Placements.
- **Off Campus** - Company details are shared with the students for them to attend the SIP Placement Process off-campus, as per the location suggested by the company.

2. **Allocation of SIP Guide/Mentor:**

Once the Placement activity is completed, the initial step followed at ISBS PGDM is allotment of Mentors to students based on their specialization. Each faculty member has around 10-15 students under his/her guidance and it's their responsibility to train students on the requirements of the project and guide them for successful completion.

3. **SIP Orientation by SIP In charge (1 Hour each division):**

During the Orientation Session, SIP In charge discusses the flow of SIP, Forms and Formats of SIP, Timelines etc. with the students across specialisations.

The PowerPoint presentation used for Orientation is displayed below:

1

2

3

4

5

6

- Minimum SIP duration will be 45 days but not more than 60 days
- Students will NOT accept any SIP which is less than 45-day duration and NOT more than 60 days.
- SIP completion date will be 30<sup>th</sup> June 2021
- Unless a prior approval from SBS mentor has been taken, students need to ensure the SIP is completed by 30<sup>th</sup> June except in cases wherein SIP is of 60 days.
- Off campus SIP placement
- In case a student has undertaken a SIP from outside SBS campus, they need to intimate the same to the placement cell immediately.

7

### THEREFORE...

- Let us make our reports more **presentable** and **meaningful**.
- Let us make our reports more **understandable**.
- Let the report speak for our **scholastic achievements** at SBS.

8

### WHAT IS A REPORT?

A report is a **structured written presentation** directed to interested readers in response to some specific purpose, aim or request.

Generally, its utility is to give an **account of something**, to **answer a question**, or to **offer a solution** to a problem.

9

### CHARACTERISTICS OF AN EFFECTIVE REPORT

An effective report is

- appropriate to its **purpose and audience**
- accurate;
- logical;
- clear and concise;
- well organized.

10

### A REPORT

One important advantage that a report has over other written communication is that it follows a **standardized format**.

This enables readers to **find and focus on specific pieces of information**.

Ensures **proper storage of the data & Information**.

11

Project report needs to encompass, but not restricted to following area:

- Sector Analysis
- Company Analysis
- Philosophy of the company
- Key challenges faced both at the sectoral and company level
- Main competitors & their growth strategies
- CSR policy and Corporate Governance Initiatives
- Regulatory bodies in the sector and their role

12

### CONTI...

- Key government initiatives to promote growth in the sector
- Global issues affecting the sector
- Key technological advancements in the sector
- Financial Statement analysis of last 3 years of the company – Specific to Finance specialisation
- Recent marketing / advertising campaigns of the company – Specific to Marketing specialisation
- HR policies of the company – Specific to HR specialisation
- Recent Mergers, Acquisitions and strategic alliances in the industry

13

### PROCEDURE FOR REPORT WRITING

The following is a suggestion as to how you should proceed in compiling and presenting a report. There are three stages:

- Planning
- Writing
- Formatting, revising and proof-reading

14

### A. STAGE ONE: PLANNING

**4. SIP orientation Specialization wise by HODs (1 Hour each division):**

During this Session the HODs of respective departments address the students regarding the importance of SIP w.r.t. their placement, corporate exposure, the expected code of conduct and behaviour in the SIP Company etc.

**5. SIP Orientation by Placement Cell (1 Hour each division):**

During this Session the Placement In charge addresses the queries and concerns w.r.t. the SIP Company, Placement prospects, expected Code of conduct, what to expect from their SIP etc.

**6. SIP Orientation by Ozone Education Consultants (1 Hour each division):**

Mr Shantanu Sen Sharma, from Ozone Consultancy brings in his hands on knowledge and experience from the industry pertaining to SIP.

**7. Pre SIP Interaction sessions with Mentor (1 Hour each):**

It is ensured that the students get a platform to interact with their SIP Mentor at least thrice, before they leave for their SIP. This interaction gives an opportunity to the Mentor and the students to know each other. The students are encouraged to discuss any question coming to their minds w.r.t SIP. The Mentor ensures that the student is well equipped with all the knowledge and information about SIP before leaving the campus.

**8. SIP Period:** Students carry out Project work in the SIP Company for a period of 45 Days to 2 months. Students identify their area of research. In discussion with their SIP Mentor and Company Guide, student finalizes the SIP topic.

Some of the aspects discussed by the students are:

- Why is it a problem, and why research is important?
- Why is it important to find a solution?
- How will the answers be searched?

During the SIP period, SIP Mentors maintain a Log sheet for continuous monitoring of the progress of their set of Mentees in the company. The mentors regularly collect the feedback from company guides regarding student’s performance and reporting in the company.

**9. Progress Report:** During their SIP period in the company, students are required to submit Progress report of their research work to their Mentors at different points of time, as mentioned below:

**Initial information report (IIR)** – This report has to be submitted in soft copy to respective SIP guide within 7 days of joining SIP Company. Student has to give primary information like Organization, Guide, tentative Title and SIP schedule of the organization in IIR.

**First Progress Report:** First Progress Report must include- Title, Industry/Company overview, Review of Literature/Theoretical Background, Objectives, Research Methodology, Questionnaire. FPR must be submitted within 15 days of Project start date.

**Second Progress Report:** Second Progress Report must include- Research progress/Practical implementation of topic. SPR must be submitted within 30 days of Project start date.

#### 5.1. Enrolment Ratio (Admissions) (20) (PGDM Marketing)

Institutes' Marks -20

Enrolment Ratio= Number of students admitted/ Sanctioned intake

Item (Students enrolled at the First Year Level on average basis during the last three years starting from current academic year)	Marks
Enrolment Ratio: 2020-21 $56/60 = 95\%$	20
Enrolment Ratio: 2019-20 $60/60 = 100\%$	
Enrolment Ratio: 2018-19 $60/60 = 100\%$	
Enrolment Ratio :2017-18 $60/60 = 100\%$	

### 5.2. Success Rate (Students clearing in minimum time (10))

Institutes' Marks - 9

S.I. = Number of students completing program in minimum duration / Number of students admitted,

Average SI = Mean of Success Index (SI) for past three batches

Success rate = 10 × Average SI

Item	LYG (2018-20)	LYGm1 (2017-19)	LYGm2 (2016-18)
Number of students admitted	59	59	58
Number of students who have graduated in minimum time	59	50	47
Success Index (SI)	1	0.84	0.81
Average SI	0.88		
Success Rate	8.8		

### 5.3. Academic Performance (Percentage marks scored) (10)

Institutes' Marks - 06

Academic Performance = Average API (Academic Performance Index)

API = ((Mean of final Year Grade Point Average of all successful Students on a 10 point scale) or (Mean of the percentage of marks of all successful students in final year/10)) x (number of successful students/number of students appeared in the examination)

Successful students are those who have passed in all final year courses.

Academic Performance	CAYm1 (2018-20)		CAYm2 (2017-19)		CAYm3 (2016-18)	
	6 Point Scale	10 Point Scale	6 Point Scale	10 Point Scale	6 Point Scale	10 Point Scale
Mean of CGPA or Mean Percentage of all successful students (X)	4.29	7.15	3.83	6.38	3.49	5.81
Total no. of successful students (Y)	59		59		56	
Total no. of students appeared in the examination (Z)	59		59		56	
API = x* (Y/Z)	4.29	7.15	3.83	6.38	3.49	5.81
Average API = (AP1 + AP2 + AP3)/3	6 Point Scale			3.87		
	10 Point Scale			6.45		

#### 5.4. Placement, Higher Studies and Entrepreneurship (40)

Institutes' Marks- 34

Assessment Points =  $30 \times$  average placement; N is the total no. of students admitted in first year

Item	CAYm1 (19-20)	CAYm2 (18-19)	CAYm3 (17-18)
No. of students placed in companies or Government Sector (x)	47	48	53
No. of students pursuing Ph.D. / Higher Studies (y)	1	2	1
No. of students turned entrepreneur (In the areas related to management discipline) (z)	0	1	0
<b>x + y + z =</b>	<b>48</b>	<b>50</b>	<b>54</b>
<b>Placement Index: (x + y + z)/N</b>	<b>.81</b>	<b>0.84</b>	<b>0.91</b>
<b>Average placement= (P1 + P2 + P3)/3</b>	<b>0.853</b>		
<b>Assessment Points = 40 × average placement</b>	<b>34.12</b>

### 5.5. Student Diversity (5)

Institutes' Marks -5

ISBS PGDM has a diverse group of students with respect to gender and geographic diversity, experience and qualification. This facilitates students to appreciate individual uniqueness while learning from other students from diverse background. Mentioned below are some of the students' diversity clusters:

- **Gender Diversity:** Every year ISBS PGDM gets combination of male and female students. Presented below is a diagrammatic representation of three years data for gender diversity:

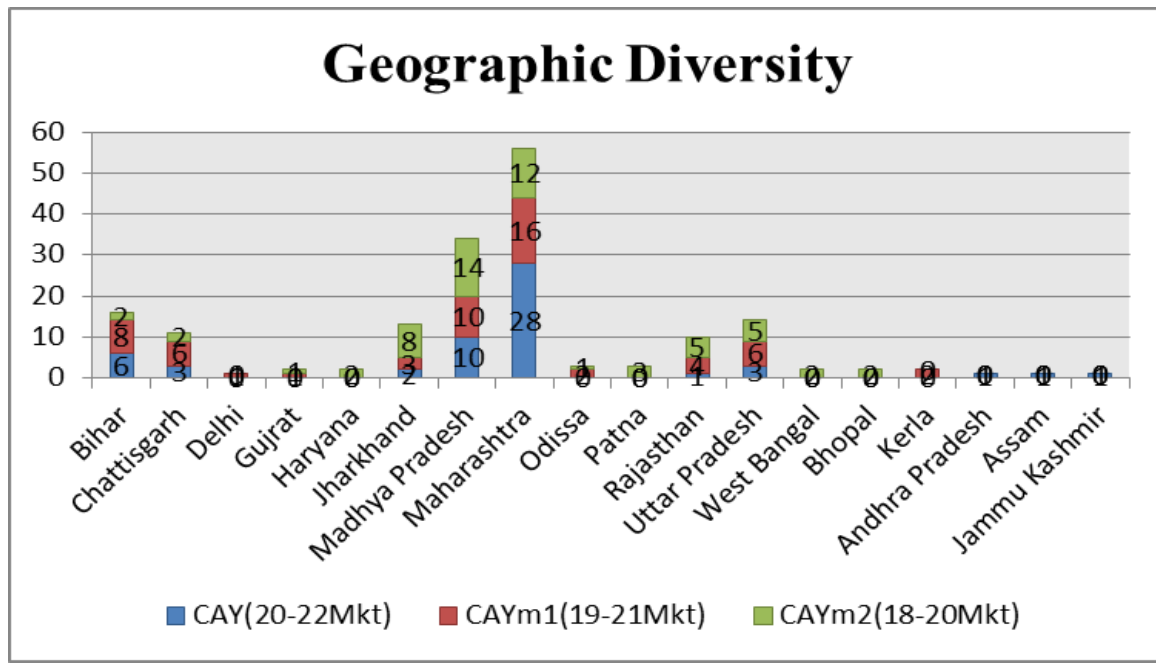

#### Gender Diversity:

**Qualification:** ISBS PGDM enrolls students from different academic backgrounds such as management, commerce, arts, pharmacy, engineering, science and hotel management such amalgamation provides diverse perspective during teaching and learning in classroom and brings forth various skills and multiple aspects for viewing management precepts. Presented below is a diagrammatic representation of three years data for diversity in qualification:

**Geographic diversity:** ISBS PGDM enrolls students from different state such as Madhya Pradesh, Rajasthan, Maharashtra, Chhattisgarh, Bihar, Orissa, Jharkhand and Uttar Pradesh Such combination of students from different states brings to campus geographic diversity which enhances the creative uniqueness in classroom environment. Presented below is a diagrammatic representation of three years data for geographic diversity:

#### 5.6. Professional Activities (15)

Institutes' Marks -15

##### 5.6.1. Students' participation in Professional societies/chapters and organizing management events (5)

Institutes' Marks -5

#### Student Participation in Professional Societies:

ISBS PGDM engages student's participation with professional bodies. These professional bodies include people united by common professional interests. Students at ISBS PGDM gain considerably by means of utilizing services offered by such bodies which often house the latest information on research, current trends, best practices, and organize events. Their websites, online libraries, training programs, education programs and conferences, provide exposure to students for industry best practices. Such associations have annual/lifetime membership plans and their benefits are typically classified as Training and Education, Networking and Mentoring, Employment Assistance and in some cases Community Outreach opportunities. Mentioned below is the ISBS PGDM Year-wise list of Membership through such associations:

#### 6.5. Faculty Initiatives on Teaching and Learning (10)

Institutes' marks - 10

- **Faculty Initiatives on Teaching and Learning:** Teaching and learning process at ISBS PGDM follows conventional mode of teaching along with focus on innovative and effective pedagogical initiatives. It is mandatory for faculty to include multiple tools for teaching and incorporate them in the session rollout plan at the commencement of classroom delivery. Lecture plan showing methodology of teaching is shared with students before the beginning of the semester. Institute has taken various initiatives out of which some are listed on our website. The purpose of using these initiatives is:
  - To evoke interest among students
  - To encourage out of the box thinking
  - To provide real life scenario to students
  - To effectively transfer knowledge
  - To facilitate group learning
  - To meet global standards of education
  - To upgrade knowledge effectively
  - To promote application-based learning

**Illustration of Pedagogical Initiatives**

- **MOOCs** (Massive Online Open Courses): ISBS PGDM offers MOOCs as compulsory module to students along with certain MOOCs of their preference. MOOC which is a recent addition to online courses has quickly gained interest and support in higher education world-wide. MOOCs allow students to complete full courses of study in a non-traditional format, and certificates for course completion are integrated into programs ISBS PGDM already offers. MOOCs are driven using technology and include video lectures, discussion forums, tests, and assignments. MOOCs are built on efficiency of scale, giving access to the teaching of a world class professor to thousands of students at once. The lectures, assessments, and activities for a course – especially an online course – and the expertise of the professor behind the content provide considerable value for students. ISBS PGDM has adopted MOOC as it opens the door of the professor's classroom to teach more than just a few dozen students at a time. Our government is also recognizing the power of MOOCs.
- **Webinar:** Being a contemporary tool in teaching pedagogy, ISBS PGDM has incorporated webinars in the methodology for teaching. A webinar is an event held on the internet which is attended exclusively by an online audience. Defying all the latest communication trends towards everything being shorter and quicker, the average viewing time for webinars is increasing year on year, and currently stands at an average of 56 minutes! From a teaching and educational perspective, webinars are interesting because of the very high degree of interaction, helping participants to learn and understand more quickly.
- **Case Study:** Case method is a powerful student-centred teaching strategy that can impart students with critical thinking, communication, and interpersonal skills. Working on cases requires students to research and evaluate multiple sources of data, fostering information literacy. Cases are narratives, situations, select data samplings, or statements that present unresolved and provocative issues, situations, or questions. The case method adopted at ISBS

PGDM is a participatory, discussion-based way of learning which promotes more effective contextual learning and long-term retention.

- **Case lets:** These are small cases developed by ISBS PGDM faculty members for their respective subjects. Current information related to a concept or subject is summarized in the form of a case which support the formal method of teaching. Through this technique students get an insight of the current scenario related to the subject and this helps them to build their knowledge about the various practical aspects of business.
- **Role-plays:** Role-plays as utilized by some faculty at ISBS PGDM as a teaching pedagogy and serves as an effective technique that allows students to explore realistic situations by interacting with other people in a managed way. It allows students to develop an experiential approach and try different strategies in a supported environment, for instance demonstrating an effective sales strategy. It is a very flexible teaching approach because it requires no special tools, technology or environments; for example, student could work through a role-play exercise just as effectively in a lecture hall as in a seminar room. However, technology can provide significant advantages, and even new possibilities, for using the approach as a learning activity.
- **Mini Projects/Research based Assignments:** Students are allotted assignments as part of different subjects by faculty with the intent of enhancing their research aptitude for gathering and analysing data. Such projects/assignments also augment their skills for using software tools such as SPSS to analyse the findings of the research. Subjects like BRM (Business Research Methods) make use of this pedagogy to improve the analytical and presentation skills of the students. Students also get hands on experience on practical usage of statistical methods like Chi-square, Annova, T-test, F-test etc.
- **Group Projects:** Group work can be an effective method to motivate students, encourage active learning and develop planning, cooperative learning, critical thinking, and decision-making skills. This technique at ISBS PGDM helps students to learn to contribute effectively to a team environment. Students are also asked to do specific industry analysis in their groups and present the same as a class assignment.
- **Simulation / Online Games:** Educational games and simulations are experiential exercises that transport learners to another world. They apply their knowledge, skills and strategies in the execution of their assigned roles. These games help students to practice and/or refine already-acquired knowledge and skills, identify gaps or weaknesses in their knowledge and also to develop new relationships among concepts and principles.
- **Videos / Movies** – Faculty at ISBS PGDM have found value in the use of video for teaching and learning process. Students can relate better with presented concepts and explore content more deeply during class time. Since faculty found it advantageous to use videos for reinforcing concepts, this has been adopted as an accepted form of pedagogy to aid in more efficient processing and memory recall.
- **Research Papers:** Research paper discussion is another method used by faculty for involving students in learning the current aspects of various concepts. Since faculty undertake research, they share the knowledge gained by them in classrooms with the students. Students also learn about the nuances of undertaking research.

### **Use of ICT through Smart / Interactive classrooms:**

With onset of Pandemic, ISBS PGDM swiftly adapted to virtual mode of teaching-learning. Even before the virtual became new normal, ISBS PGDM had concept of Smart classroom which was delivered through the platform called “Impartus”.

The objective of the concept was “**to bring the importance of Video based learning into mainstream education and take learning beyond the limitations of physical infrastructure.**”

As the pandemic disrupted the offline education, ISBS PGDM trained its faculty through an intensive faculty development program called “virtual vidya” and got the subscription of online LMS Microsoft teams and zoom. Classes were held unhindered first through Impartus and later via Microsoft Teams and Zoom.

### **Process and some of the key features of the Virtual classrooms are as follows:**

ISBS PGDM started recording sessions conducted by regular faculty, visiting faculty, as well as guest faculty, using high-definition cameras installed in the classroom.

- All sessions were held live. Faculty would make use of features such as breakout rooms, polls, quizzes, symbols to make the class interactive and engaging.
- The recordings of sessions are made available for students in their respective subject channel. This assists students extremely well for revisit and revision of the concepts.
- This way the end-to-end lecture capture records the video and offers a complete platform for online digital library for the institute.

### **6.6. Faculty Performance, appraisal, and development system (10)**

<b>Institutes' marks - 10</b>
-------------------------------

ISBS PGDM has a well-defined and implemented system of faculty performance appraisal and development

#### **Faculty Appraisal System**

ISBS PGDM considers it essential to ensure high quality of instructions with a supportive, growth-oriented environment for both students and faculty of ISBS PGDM. Consequently, along with faculty appraisal, ISBS PGDM also provides faculty with systematic support for improvement in professional space.

Performance evaluations at ISBS PGDM foster building relationships based on trust, mutual commitment, and team effort. Intellectual honesty, rigor, and fairness are essentially put in place throughout the evaluation process. The intent is to foster individual development and reinforce best practices in instruction. This process serves as a mechanism for evaluating job performance; it is not intended to be a punitive or disciplinary instrument. The system is designed so that individual faculty members become responsible for their own instructional improvement. Such a process has ultimately resulted in better teaching and learning environment.

#### **Its implementation and effectiveness**

The purpose of evaluating faculty performance is mentioned below:

1. Assess and promote excellence in the teaching/learning process.
2. Meet the educational needs of students and continually monitor instructional performance.

3. Provide a constructive framework for evaluating faculty performance by identifying areas of strength and areas for improvement in classroom instruction and service to the institution.
4. Provide a basis for professional growth and development.

### **Components of the Faculty Evaluation System**

- Part-time faculty is evaluated only on the teaching effectiveness therefore, student's feedback is prime focus for this.
- Each item on the evaluation sheet is rated 5-point Likert scale.
- The ratings on the Likert scale are as follows:
  - Strongly Agree (5 pts.)
  - Agree (4 pts.)
  - Neutral (3 pts.)
  - Disagree (2 pts.)
  - Strongly Disagree (1 pt.)

**1. Student Feedback:** The student responses are compiled into a summary report and provided to each faculty member. Normally this occurs by the end of each semester each year. This report provides each faculty member with aggregate data (merging all student responses from all courses), as well as data sorted by course. Faculty members utilize this data as part of the self-evaluation process, and it is also used by Director for consultative counselling with the faculty. An opportunity for written comments from students is provided at the end of the Student Evaluation form. Student's comments if any are included in the summary report given to each faculty member.

**2. Faculty Self-Evaluation:** Individual faculty members assess themselves by completing the Faculty Self-Evaluation form as objectively and impartially as possible. Based upon self-evaluation findings or related areas of interest for self-improvement, the faculty members also propose their professional development activities planned for the forthcoming academic year. Each item on the Faculty Self-Evaluation form is paired with an item from the student feedback form. In addition, faculty rate themselves using the same Likert scale. Also under self-feedback, contribution to CSR is added wherein faculty need to rate his/her contribution to any CSR activity conducted in the institute or any other CSR initiative taken outside Institute.

**3. Faculty Evaluation by HOD:** The HOD completes the Evaluation of Faculty form using information from various sources. These include, but are not limited to:

- Faculty's ability to take responsibility with respect to timing, code of conduct, following institute's norms etc.
- Faculty's ability as Team player as to how the faculty demonstrate teamwork, participates in departmental activities & his / her willingness to share his experience with others.
- Faculty's ability to teach in best possible manner, sharing industry examples & having good class control.
- How will faculty align with various goals like writing research papers, attending conferences, FDP or taking active participation in various departmental or institutional activities?
- The assessments of faculty's knowledge & demonstration of the same. It may include teaching various subjects, writing research papers or undertaking research projects etc.

- 4. HOD Evaluation by Subordinate:** In this aspect of 360 feedback, each faculty evaluates their respective HOD on various parameters listed below:
- Growth – In this parameter faculty evaluates his/her HOD based on the growth opportunities provided by HOD like teaching new subject, attending FDP or in any other area of research or training.
  - Acceptability – this aspect deals with acceptability of HOD to new ideas, willingness to involve team while taking decisions.
  - Team Management – In this aspect the team gives feedback on the working style of HOD like distribution of workload equally, conducting regular meeting etc.
- 5. Feedback from Support Staff:** In this aspect of feedback all the faculty members are evaluated by support staff. As a faculty it becomes necessary on regular basis to interact with various support staff & get the work done. From feedback perspective it becomes important know from support staff about their experience with each faculty. All the faculty are assessed by various support functions like admin, IT, library, academic co-ordinator etc.
- 6. Feedback from Peers:** In this aspect of feedback, faculty members give feedback of the colleagues they are working with. Communication, team player, adaptability to change & sharing knowledge are the main areas on which each faculty gives rating to their colleagues. This becomes important aspect as, on day-to-day basis faculty interacts with various team members & need to work with them on various platforms or on various committees.
- 7. Feedback from Director (ARC):** Director being the final authority of the institute, holds weightage in giving feedback of each faculty member working under her. Director may not interact with each faculty on daily basis but can surely give feedback based on the faculty's contribution in developing the institute. All institutional level activities are considered while giving feedback in this regard. Reliability, dependability, proficiency in teaching, admin work, positive attitude & behaviour are some key areas on which Director's feedback is based.
- 8. Feedback by CSR In charge:** ISBS PGDM understands its responsibility towards society. CSR is integral part of ISBS PGDM philosophy. The institutes urge its faculty to contribute towards upliftment of society. Thus, contribution to CSR becomes an important parameter in 360 feedbacks. ISBS PGDM has a dedicated CSR committee. The committee in charge of CSR provides feedback about each faculty based on support rendered by faculty in various CSR initiatives undertaken by Institute in past one year.

#### Components of 360 Feedback

Sr. No.	Component	Explanation
1	Teaching Process	Feedback by Self, HOD
2	Students' Feedback	Feedback by Students
3	Departmental Activities	Feedback by HOD
4	Institute Activities & ACR	Feedback by Director
5	Contribution to Society	Feedback by CSR Head and Self
6	Colleagues	Feedback by Peers

7	Support Staff	Feedback by Support Functions (Academic Coordinator, Library, IT, Administrative Department, Examination Department)
---	---------------	--

**Counselling Process**

- Feedback given by all stakeholders
- Data compilation.
- Generation of summary report
- Gap analysis \*
- Consultative discussion between faculty and director
- Creation of developmental plan
- Follow up and review

**Gap Analysis:** The analysis of any gap between self-rating given by faculty and the rating given by other stakeholders on similar parameters. This may bring out meaningful information, for e.g., faculty may be critical towards self (if rating given by self is consistently lower than the rating given by other stakeholders), faculty may be blind towards self-improvement areas (if rating given by self is consistently higher than the rating given by other stakeholders)

## 6.8. Academic Research (75)

**Institutes' marks - 75**

### Faculty Paper Publication

ISBS PGDM's Research and Development (R&D) Cell has been constituted with the broad purpose of building academic research-oriented culture within the institute to encourage faculty members to engage in meaningful research and enhance their capabilities to generate and extend their knowledge to students and other important stakeholders. The R&D cell implements the Faculty Development Policy at ISBS PGDM which aims to assist faculty members in improving performance in teaching, scholarly activity, and consultancy services. The R&D cell is expected to contribute to building faculty capacity as teachers, consultants and researchers which would further contribute to the student community, industry, and society at large by way of knowledge generation and extension. The cell achieves this by providing faculty members with mentioned amenities to further their research aspirations:

- Each faculty member is encouraged to publish research papers annually as their research target. Financial assistance is provided for publication, attending conferences and workshop at relevant locations.
- The faculty regularly reports its research work to the peer level group and reporting authority.
- Such research work is also shared by faculty in classrooms while conducting sessions in related subjects.
- Each year a conference is organized by the Institute covering recent topics where apart from outside faculty members, Institute faculty also contributes papers for publishing.
- The faculty members also engaged in focused research of business and industry at regional and national level.

### ISBS PGDM provides mentioned support to faculty for improving their research work:

- Guidance is provided by senior faculty members for writing research papers for conferences and journals.
- Institute provides financial aid and duty leave for research workshops, conferences, and seminars.
- Internal training sessions are organized to provide guidance for writing research papers and pursuing Ph.D.
  - Institute has research base library facilities for researchers such as:
    - Books and Journals (Online & print).
    - EBSCO
    - J Gate
    - SPSS

	<b>Institute Marks</b>	<b>120</b>

**7.1. Industry Connect (90)**

Institutes' marks -

**7.1.1. Consultancy (from Industry) (25)**

Institutes' marks - 20

Consulting and Management Development at ISBS PGDM operates with the objective to share management systems and practices with the industry and assist in taking forward industry objectives through consultancy assignments. The pedagogy adopted for consultancy and development programs is participatory.

**7.1.2. Faculty as consultant of the industries (15)**

Institutes' marks - 15

ISBS adopts an approach to bring forth the rich experience of industry participants through discussions and blends this with inputs from faculty consultants and trainers. The case method of study is the major tool. It is supplemented by group exercises, role plays, management games, lectures and presentations, by participants. In addition to open MDPs that are attended by executives from different organizations, ISBS also develops and organizes customised sponsored programs based on specific requests and needs identified. Thus, the aim is to bridge the gap between industry and academia. Content is designed by subject matter experts across key disciplines and emerging areas. ISBS PGDM has trained more than 800 participants from various sectors such as Manufacturing, Banking, Hospitality and other service industries.

### 7.1.2. Faculty as consultant of the industries (15)

Institutes' marks - 15

ISBS PGDM adopts an approach to bring forth the rich experience of industry participants through discussions and blends this with inputs from faculty consultants and trainers. The case method of study is the major tool. It is supplemented by group exercises, role plays, management games, lectures and presentations, by participants. In addition to open MDPs that are attended by executives from different organizations, ISBS PGDM also develops and organizes customised sponsored programs based on specific requests and needs identified. Thus, the aim is to bridge the gap between industry and academia. Content is designed by subject matter experts across key disciplines and emerging areas. ISBS PGDM has trained more than 800 participants from various sectors such as Manufacturing, Banking, Hospitality and other service industries.

### 7.1.3. Initiative Related to industry internship / summer training / study tour/ Guest Lectures (15)

Institutes' marks - 15

ISBS PGDM continuously strives to provide corporate exposure to the students and our industry and academic interface plays a pivotal role in enriching learning experience for students. Thus, a judicious blend of theme seminars, panel discussions, conferences, guest lectures, research activities, industry internship, summer training, industry study tours and the like are constantly made a part of the curriculum. With reference to this head, mentioned below is the structure used for such initiatives:

- **Summer Internship Program:** As part of the curriculum, students must undergo Summer Internship Program (SIP) for period of 2 month at the end of 2<sup>nd</sup> semester. SIP can be carried out in - Corporate Entity, NGO, SME, and Government Undertaking or in Cooperative Sector. At Indira, we provide ample opportunities to students to select a sector / company of their choice to undergo the mandatory training. Following are the details of the companies which have visited our campus for SIP in past few 3 years:

#### Desk Research Projects:

The ongoing pandemic has created difficulties for some students to secure internship projects through Companies. Such students were asked to do Desk Research Projects.

Under Desk Research Projects, students were engaged in conducting research on secondary data. Students had to choose a sector / company of their choice and identify areas on which they need additional information and prepare a scope document accordingly. The end objective was to collate data, analyse it and interpret it in a way which fulfils the project objective. The students conducted the research work under the guidance of an allocated faculty mentor.

#### 7.1.4. Participation of industry professionals in curriculum development, projects, assignments as examiners in summer projects (10)

Institutes' marks - 10

#### Role of Board of Studies, Advisory Board and Academic Committee in Curriculum Development-

The academic curriculum at ISBS PGDM is designed by Academic Committee and approved by Board of Studies (BOS). BOS appoints Academic Committee, which is operational body of BOS that implements the points of action stated by BOS. Academic curriculum is designed by HODs by taking inputs from Industry Experts and final approval is given by BOS. ISBS PGDM also provides extensive industry orientation to students through a comprehensive career and leadership development program (CLDP). The focus of this program is enhancing the employability of students. Industry plays a pivotal

role in shaping the employability quotient of students and ISBS PGDM relies heavily in having industry representation in its various bodies such as Advisory Board, IQAC and Board of Studies.

### Industry Participation in Summer Projects and Dissertation

As part of the academic curriculum, students have to undergo mandatory Summer Internship Program (SIP) for a period of 45 days to 2 months. This training is undertaken by students in different sectors in organizations. On completion of the summer project students undertake assessment, primarily to

recognize their learning from the internship program. ISBS PGDM initiates the preparation of students for the summer internship project by providing them training at the hands of industry representatives, to ensure students understanding of the professional environment in industry and the learning aspects they need to assimilate during the summer project.

On completion of the summer project, students are evaluated at two levels – External evaluation by external experts which provide corporate perspective to students’ learning from such summer projects and internal evaluation by the institute.

The details of external experts who conducted SIP viva for students in year 2020-21 (for Batch 2019-21) are as follows:

**7.1.5. Initiative related to industry including Executive Education, Industry sponsored labs and industry sponsorship of student activities (15)**

**Institutes' marks - 15**

ISBS PGDM consistently makes efforts to provide such platforms to students which bring forth representation from industry to impart valuable learning to students. In this endeavour and with the perspective of generating entrepreneurial aspirations of students, ISBS PGDM organises international business plan competition called *IndiaPreneur* with the active involvement of E-Cell on campus. *IndiaPreneur* is an attempt to foster the spirit of employment creators rather than just employment seekers in the students and in this attempt ISBS PGDM attracts budding entrepreneurs across the country and outside the country to visit the campus to share their experiences with the students. The underlying philosophy of *IndiaPreneur*, an international level business plan competition, is to allow experience of transition from ideation to implementation of a well thought out idea.

10th edition of IndiaPreneur was held on 2nd & 3rd April 2021, where 121 teams got registered across globe, 25 teams were shortlisted, and 5 teams gave presentation in the Final round. ISBS PGDM has active participation from industry to play critical role in sponsoring the event, mentoring the participants, and judging the participants to evolve one best business plan. Since Indiapreneur 2020 was an online event, there was no sponsorship solicited. For Indiapreneur 2019 which was an offline event wherein 1700 teams got registered across the globe, 70 were shortlisted and 32 gave presentation in the final round. The sponsorship details of Indiapreneur 2019 are as follows:

### Industry Sponsorship in Indira Brand Slam:

Among the various endeavours that ISBS PGDM undertakes, one very important one is to acknowledge the brands, the organizations that have made a difference to corporate landscape! In order to do so, ISBS PGDM hosts “Indira Brand Slam”, a mega marketing bonanza wherein some of the iconic brands are awarded for the contribution they have made in consumer space.

The objective of Brand Slam at Indira is to discuss innovations in Branding that have led to greater market penetration and reach to the customer, recognize brands that have by sheer power of innovation reinvented themselves and iconize Brand Leadership in multiple sectors. The 8th edition of Brand Slam was hosted on 26<sup>th</sup>, 27<sup>th</sup> February 2021. Since it was a virtual event, no sponsorship was solicited for same. Indira Brand Slam 2019 which was held on 27<sup>th</sup>, 28<sup>th</sup> September 2019 (with theme “Triggering Transformation in New Age Indian Business”) was sponsored by event partner, “Des Rangeela”, a social enterprise that focuses on rural upliftment by selling handicrafts made by rural artisans to urban areas.

**International Exposure via international sessions/webinars**

As a part of the industry -academia interface Indira organizes talks, seminars, and workshops by international industry experts regularly. Indira Global Leadership Lecture Series (IGLLS) 2020 was one such prestigious event to give a global perspective to our students.

The rationale behind organizing this lectureship series was to let students understand the ways of dealing with sudden adversities like Covid which caused an upheaval in the global scenario with the help of the concept of sustainability, Innovation and Empathy.

The Speakers who delivered sessions were the alumni of Harvard Business School- OPM Batch, in a way this is the indirect partnership with the most prestigious academic institution across the globe. The topics delivered were mostly based on the tracks of Sustainability, Innovation, and Empathy which eventually hints to profits, planet, and people.

### E-Learning Facilities:

ISBS PGDM provides E-Learning facility in classrooms for use of various kinds of electronic media and Information and Communication Technologies (ICT) in education. These facilities utilize the latest technologies to assist and enhance knowledge distribution and calls for flexible and active interactions amongst teachers and students.

Major tools & platforms used for E learning facilities available in ISBS PGDM are mentioned below:

### Smart Classrooms Initiative:

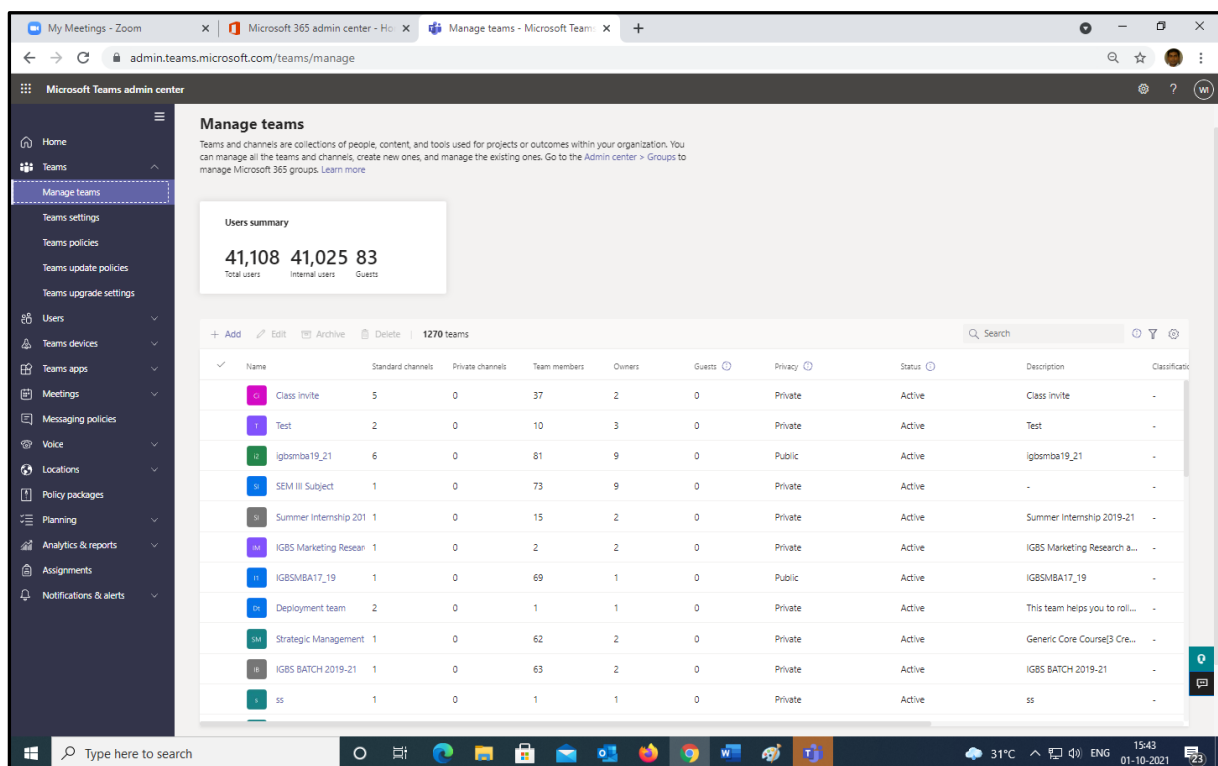

ISBS PGDM ensures that students are exposed with latest trends pursued for education globally. ISBS PGDM makes active effort to embrace technology to the best of its ability and students' capacity to grasp. 'Smart Classrooms' by an agency called Impartus, is one such digital classroom concept which was introduced on pilot basis at ISBS PGDM. The objective of the concept is to bring the importance of video-based learning into mainstream education and take learning beyond the limitations of physical infrastructure. In the first phase of implementation, sessions were recorded by faculty and sent to students. High-definition cameras installed in classrooms capture sessions taken by Faculty, along with stated material

on black/white board and LCD Screen. Post completion of the session, it is made available for students to utilize its content for future use and such sessions can also be relayed to other classrooms while the session is in progress.

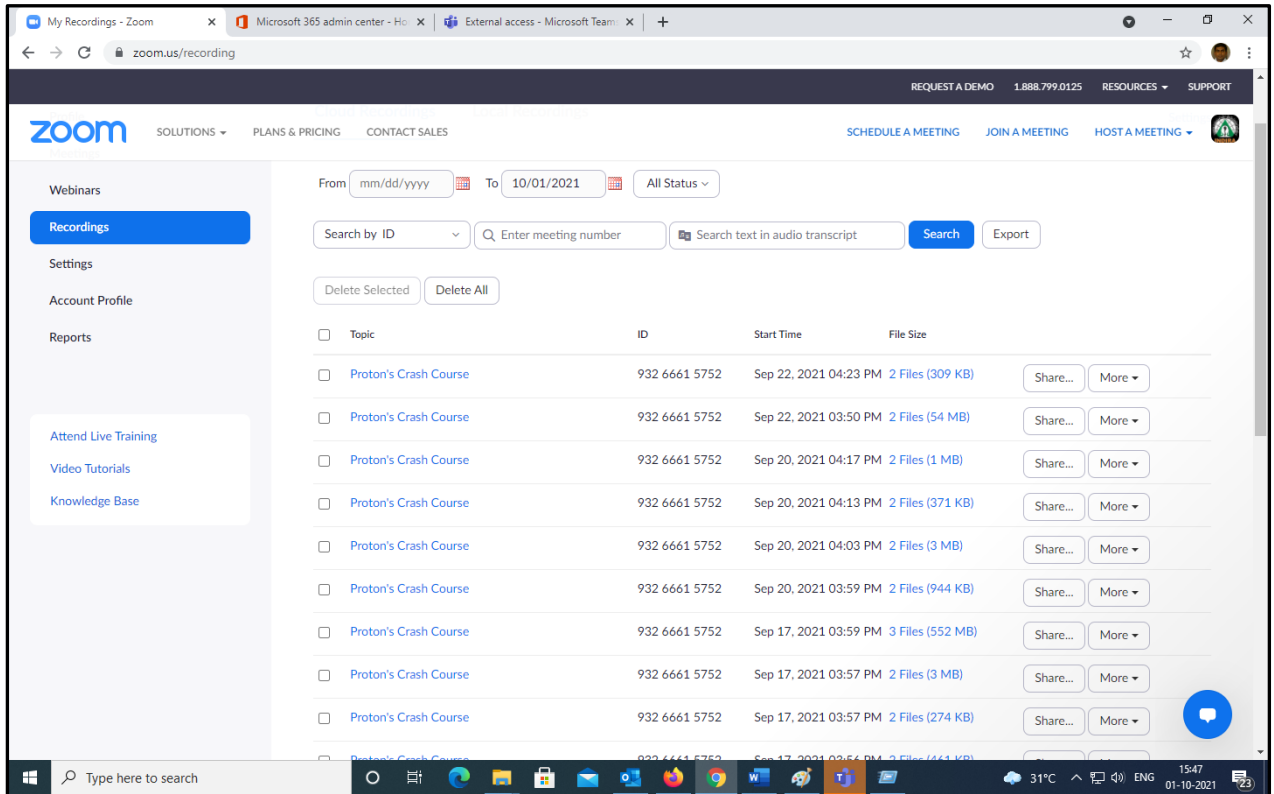

This platform was of great assistance to the students as it enabled revision/learning of the concepts at their own time. Students could also post online queries and participate in various topics available on assigned web portal. If required, the sessions could also be live streamed to remote locations. Such lecture sessions become a valuable resource for online digital library on campus.

### Microsoft Teams/Zoom:

As pandemic hit and when physical classes had to be stopped, ISBS PGDM was quick to make the shift to virtual learning. Since then, online sessions have been conducted using Microsoft Teams and Zooms Platform. Microsoft Teams is a collaboration app/software that helps students stay organized and have conversations—all in one place.

Zoom online platform is using for conducting Guest sessions, seminars, Quiz, and polls. ISBS PGDM has taken annual subscription of Zoom platform with capacity of 500 participants.

**Glass board for E-Learning:**

IGI has introduced Glass board for online lectures to increase the engagement quotient and in this regard IT department has setup a complete studio.

Glass boards serve as a mobile writing surface to capture ideas during brainstorming sessions and transport them from classroom to students. Their sleek and easy to edit surfaces invite collaboration during online teaching and reduce paper waste.

Glass boards are a multi-purpose tool that can adjust to needs on the spot while enhancing workflow and promoting collaboration. Design-friendly and functional, glass boards fulfil unique visual communications needs--and look good doing it.

**Online Databases:** ISBS PGDM provides students and faculty members with multiple online database:

Resources from where they can access research papers, journals, case studies, research reports and the like to be used for knowledge enhancement, research, and faculty development. ISBS PGDM has subscription of following databases:

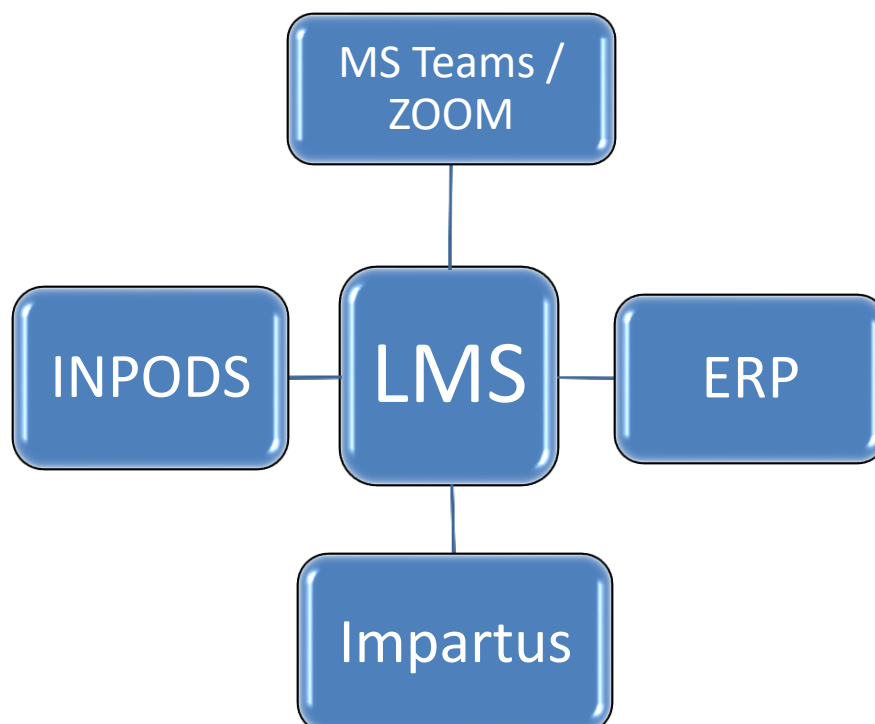

- 1) ProQuest Management ABI Inform Global
- 2) J-Gate Social and Management Sciences (JSSH)
- 3) ProQuest EBRARY Business & Economics Collection (E-Books)
- 4) McGraw Hill Publications Text E-Books
- 5) Pearson Publications Text E-Books

Apart from the subscribed sources, ISBS PGDM also provides reference to some open access databases viz. Open J-Gate, Directory of Open Access Journals and Open DOAR (Directory of Open Access Repositories), to the students and faculty members.

Apart from the subscribed sources, ISBS PGDM also provides reference to some open access databases viz. Open J-Gate, Directory of Open Access Journals and Open DOAR (Directory of Open Access Repositories), to the students and faculty members.

**Usage of LMS and ERP in teaching learning:**

ISBS PGDM uses 2 well established **Learning Management System** (Inpods) and **ERP** (GEMS) to increase student engagement, collaboration, and effective stakeholder participation. It gives flexibility and allowance for pedagogical experimentation to faculty and above all, involves all stakeholders' participation in teaching and learning process. Academics as well as administrative processes are also managed effectively and efficiently on account of such systems availability.

### Microsoft Team/Zoom Platform:

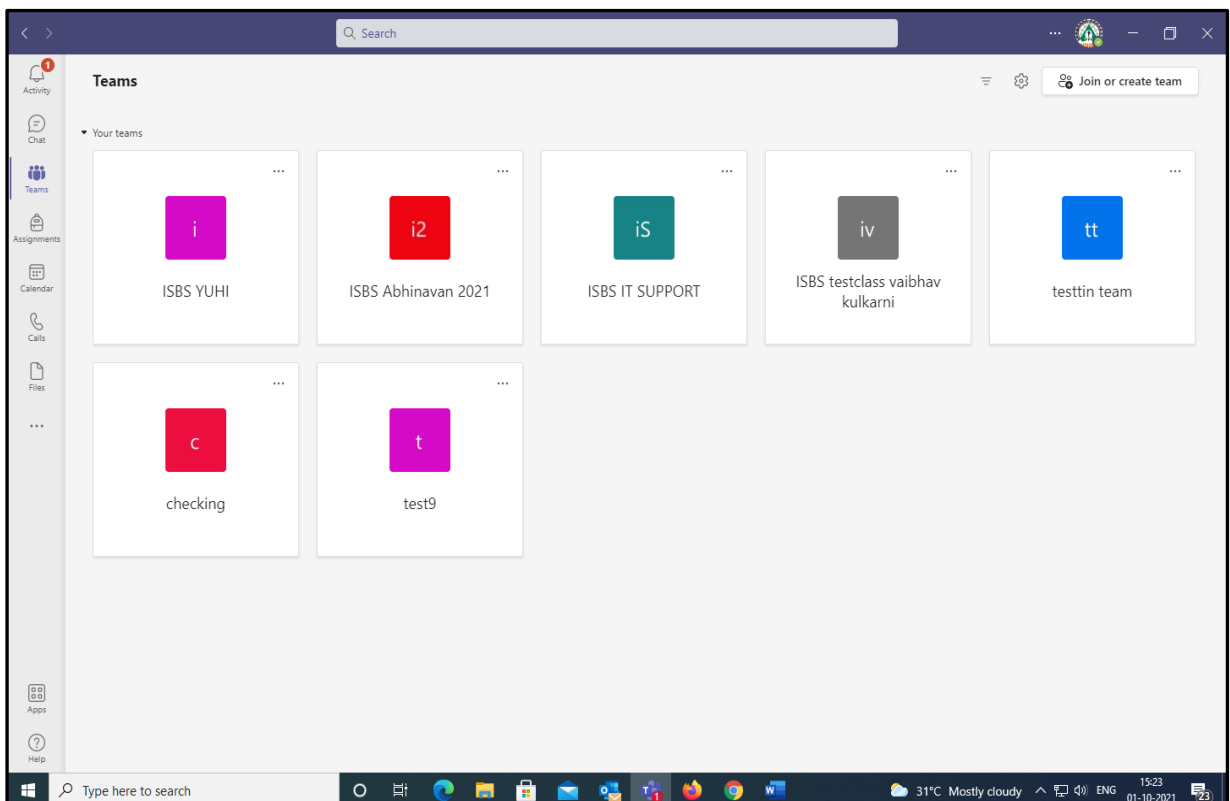

Microsoft Teams is a digital core that enabled us to bring conversations, content, assignments, and apps together in one place, to enable a vibrant learning environment for our management students. Building collaborative classrooms made it possible for the students to do multiple activities on this platform and they could also connect with their classmates for completing various group activities/assignments due to various advanced features.

This platform offers multiple advantages like:

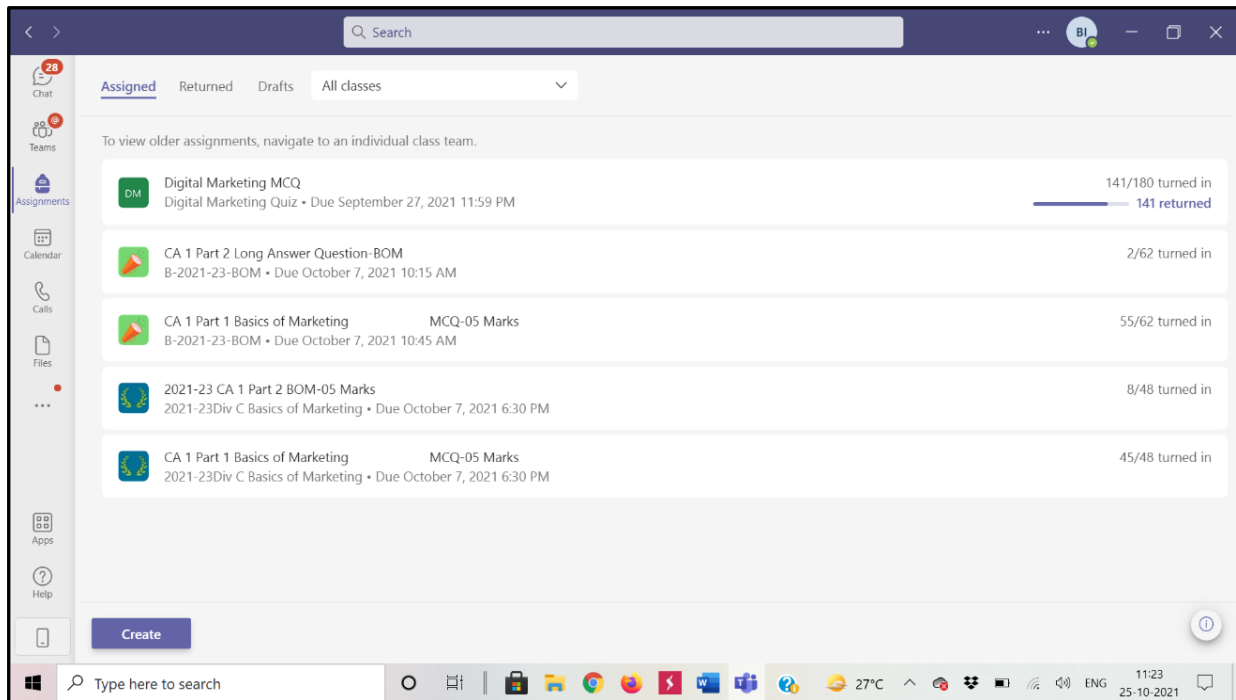

- Students Interaction with classmates in a familiar environment became easy and efficient
- Students could easily upload their assignments and work in one place.
- Additional help and support could be provided to the students through MT whenever needed.
- Collaboration with other students on projects and homework became easier.
- MT platform is the simplest and most easy to use platform due to which students could manage their time.

Faculties used MT platform to conduct

- Online Session Delivery
- Quiz competition using MS forms.
- Survey & Polls during ongoing sessions.
- Breakout rooms feature enabled case study discussions and other activities that could be conducted for small groups.
- This app has recording facility which helps the students to get the session recording anytime. Assignments features is used to give task to students with specific timeline. Faculty and students share their contents and files using Ms teams. Auto grading and feedback sharing can also be done through MT.
- Various activities of Marketing, Finance & HR club are also conducted thru this platform for the PGDM students.

**Zoom Platform** is one more such platform which is extensively used by ISBS PGDM for ensuring effective learning and interaction with the students. This platform is frequently used for:

- Conducting Guest sessions. ISBS PGDM conducts a plethora of International Guest sessions frequently to ensure increased exposure to global platforms, and these sessions were conducted through Zoom Platform.
- National & International seminars/webinars
- Quiz, and polls.
- Internal cultural activities and events like Convocation were conducted via Zoom platform during the pandemic.

ISBS PGDM has taken annual subscription of Zoom platform with capacity of 500 participants.

The various features of Zoom enable a flawless experience of interactions that students have with faculties, guest speakers and webinars:

- Collaborative white board (Aptitude sessions are conducted thru Zoom platform because of this feature)
- Large group session makes it more conducive for fruitful discussions during webinars/guest sessions etc.

## ERP: Enterprise Resource Planning

Indira School of Business Studies PGDM uses ERP to conduct the processes for the benefit of the stakeholders (students, faculties, staff, and management). The various process that can be done on this platform are:

- Admission
- Attendance
- Academic sessions
- Online examinations & evaluation,
- Library activities
- Track of student leaves, student documents, generating students ID etc. and
- Study material sharing.

### Admissions:

ISBS PGDM uses No Paper Forms (NPF) as a Lead Management Software and CRM tool to manage all the leads generated for admission. The software also helps the admission cell to communicate with the respective candidates smoothly. The admission head/officer can find relevant statistics from NPF for future Admission projections as well.

Some screenshots of NPF are put below:

The screenshot shows the 'NoPaperForms' interface for a lead named Ashwini Bhake. The lead is marked as 'Interested' and has a 'Lead Score' of 210. Contact information includes an email (ashwini13295@gmail.com) and a mobile number (+91-7276246695). The lead was added on 10 Feb 2021 and last active on 14 May 2021. The assigned counsellor is Tejaswini Khatavkar. Communication status shows 19 emails and 4 SMS sent. The upcoming follow-up is on 27/10/2021 at 14:44. The lead source is 'Offline: Direct calls'. A progress bar shows the lead has completed 'Unverified', 'Verified', 'Application Started', 'Payment Approved', and 'Application Submitted' steps. Below the progress bar, there are tabs for 'Lead Details' and 'Timeline'. The form interested in is 'INDIRA PGDM Application Form'.

ISBS PGDM also uses ERP for smooth conduct of on-boarding process of new students. Merit list of students are displayed and accordingly students are admitted in ERP system. Once students pays admission fees, students are converted from applicant to student.

The screenshot shows the 'ERP' system interface for 'ADMISSION PROCESS > APPLICANT ADMISSIONS'. The user is Dr. Parmeshwar Yadav, Associate Professor, Admissions Administrator. The page includes a navigation menu with options like 'Data Configuration', 'Admission Configuration', 'Applications', 'Admission Process', 'Students', 'Online Assessment', and 'Reports'. The main content area has filters for 'Programme' (ISBS PGDM - PGDM GENERAL - PG...), 'Admission Year' (I Sem 1st Year (2021-23) (2021-2...)), 'Entrance Round' (PGDM ADMISSION 2021-23), and 'Entrance Name' (All). There is a checkbox for 'Would you like to have step wise suggestion' and a 'Record Limit' dropdown set to 'sele'. Below the filters, there are five steps in a process flow: Step:I (Admission Process requirement), Step:II (Applicant list for Admission), Step:III (Proceed to Admission), Step:IV (Admission Confirmation), and Step:V (Bill Generation). An 'Activate Windows' watermark is visible at the bottom right.

## Attendance:

Institute monitors student's attendance very closely. Student must maintain their subject-wise/overall attendance (70%) as per the attendance norms. We have separate attendance department to monitor the same. Apart from this, subject faculty also monitors student's attendance at their subject level. We generate student's attendance every 2 weeks and display to the students. Faculty can update their subject/activity attendance through desktop/laptop or mobile app (Juno Campus Employees).

## ATTENDANCE UPDATION IN ERP

The screenshot shows the 'SCHEDULER' page in an ERP system. It includes a navigation menu, a search bar, and a table of sessions. The table has columns for Sr.No, Session Date, Programme, Course, Lecture Description, More Details, Session No. & Time, Session Status, Attendance Status, Shared Attachments, and Shared Status. Two sessions are visible:

## Evaluation

Student's evaluation is important activity to access the inputs provided by faculties and institutes. Institute uses ERP as tool to assess students' performance as far as teaching is concerned. Student's Multiple-Choice Questions (MCQs) and descriptive evaluation is conducted through ERP. It maintains the evaluation data and the process saves the time. It also helps the students to adopt new tool for the evaluation.

### Generating various documents for students:

Students require different types of documents for various purpose like sanctioning the bank loans etc. ERP fulfils student's document requirement (Bank loan letter, Student Bonafide Letter) via online. Student needs to apply through ERP for the document. Once it is verified and approved by the administrator, system generates the document for the student. Student receives the document through his/her institute e-mail or through ERP

### Students Learning:

ERP is used as a learning tool at ISBS PGDM. Institutes shares student's documents at ERP dashboard. ERP also displays student's daily timetable, examination timetable, student notices in ERP dashboard. Apart from this faculty shares study material to the students (entire division).

The screenshot shows a web browser window displaying the 'Student Home' dashboard for a user named Anupriya. The browser address bar shows 'https://erp.indiraedu.com/home.htm'. The dashboard features a navigation menu with categories like Institute, Personal, Academic Schedules, Academic Functions, Events, Facilities, Placements, and Communication. A central section displays key statistics: 0 Announcements, 78.68% Attendance, 0 Assessment, 4 Task, and 0 Placement. Below this is a 'TODAY'S SCHEDULE' table showing classes for SBM, CRM, Int IESEP, and CB in Classroom 204. A 'BULLETIN BOARD' section shows a post by Rohan Robindranath Das. The Windows taskbar at the bottom shows the time as 4:46 PM on 10/29/2021.

### Activities of Library:

Library issues and returns book from students through ERP system. If student returns the book to the library late, fine for the same is collected through ERP system. The data for the transactions are generated through report.

### Faculty Feedback:

Faculty feedback is an important activity to access the inputs given by all the faculties. Institute conducts subject and activity-wise faculty feedback at ISBS PGDM. Students those have 70% attendance in all the subjects/activities are eligible for faculty feedback. Once students give their feedback in ERP system, reports are downloaded and shared with the faculties.

**Examination:**

Examination module of ERP is extensively used by the institutes. It includes display of notices regarding examinations, conducting online examination, form submissions, fee payment of examination, generation of student's hall ticket, printing of grade sheets etc.

**Inpods:**

**Introduction / Concept:**

Inpods is an LMS, digital technology for collaborative learning. It is used for sharing study material, administering assessments, linking assessments to COs, Keeping record of attendance and marks, manage question banks, etc.

The online system enables access from the web from any location, allowing students flexibility in learning. It is a great tool to share pre and post learning readings with students.

The other benefits of having Inpods are:

- It is very useful in calculation of Co attainment for the subjects
- Capture indirect assessment data
- Calculation of PO attainment for the batch
- Comparison of PO attainment across batches
- Setting thresholds for attainment as per requirements of the institute.

**Utility in teaching Learning Process:**

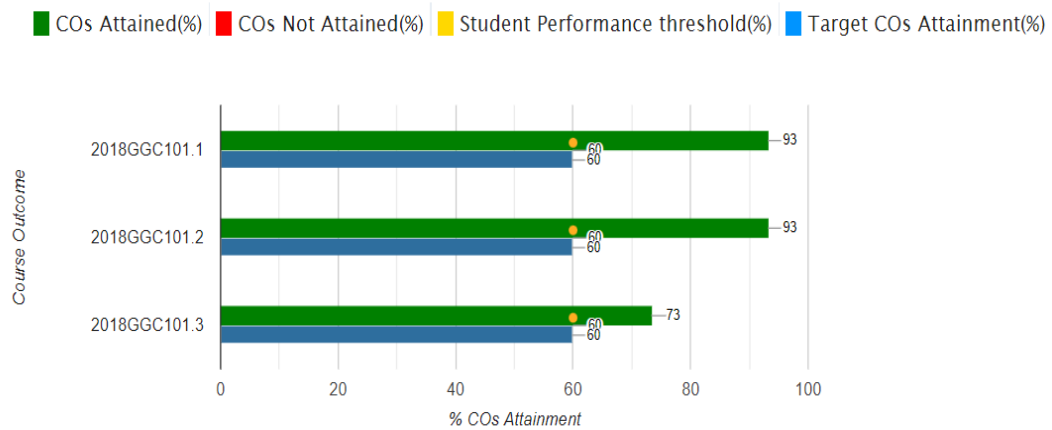

### CO-PO Mapping / Assessments / Evaluation / Result Analysis

- The faculty can use the LMS for CO-PO mapping
- Mapping assessments to Cos
- Administering assessments
- Grading assessments (MCQs automatically graded)
- Looking at individual performance and attendance of assessment at a glance.
- Graphs of assessment performance and CO attainment contribution of individual assessments available.
- Break-up of performance in assessments is available making result analysis easy.

### Usage:

- Being used in all subjects to administer assignments
- For online and university exams, marks are entered externally to get complete result of the student

### Snapshot of some reports:

### **Impartus:**

Impartus was used by ISBS PGDM to record the lectures of various sessions because of its amazing features. It is a comprehensive, video learning platform that brings about a paradigm shift in the teaching - learning experience. When the pandemic hit and sessions had to be done from online platforms, Impartus helped in capturing, editing, and distributing contextually relevant content for our students.

The objective of the concept is to bring the importance of video-based learning into mainstream education and take learning beyond the limitations of physical infrastructure. In the first phase of implementation, sessions were recorded by faculty and sent to students. High-definition cameras installed in classrooms capture sessions taken by Faculty, along with stated material on black/white board and LCD Screen. Post completion of the session, it is made available for students to utilize its content for future use and such sessions can also be relayed to other classrooms while the session is in progress.

This platform was of great assistance to the students as it enabled revision/learning of the concepts at their own time. Students could also post online queries and participate in various topics available on assigned web portal. If required, the sessions could also be live streamed to remote locations. Such lecture sessions become a valuable resource for online digital library on campus.

Following are snapshots of the interface and reports available through Impartus digital classrooms:

## Language Lab, Multimedia Facility:

- Multimedia Facility** - The library has a separate space exclusively devoted for a multimedia digital library section. This space accommodates 10 computers with the audio-visual facility. Library also has fine collections of academic reference videos and CDs comprising of national and international titles. Library procures latest videos from sources such as Video Education Australasia and Harvard Business Resources. The library Video Resource Centre helps enhance the inputs given to our students and makes learning a more enriching experience.

- Language Lab** - Indira School of Business Studies focuses on imparting knowledge on various technical domains and lays high emphasis on improving the Communication skills of students. To accomplish the objective, ISBS PGDM has a well-equipped audio-visual "English LAB Software" with the latest technology to enhance interactive learning. The LAB has software's that help the students to learn and grade themselves on various parameters. The LAB is developed on the methodology of Listening, Speaking, Writing and Reading skills. It has the following interactive modules: Audio recording for assessing one's speech, Vocabulary Building modules, Self-Paced Reading Exercises, Interactive quizzes, and Listening Exercises.

#### 8.4. Learning Management System (10)

Institutes' marks - 10

##### **Introduction to Learning Management System (LMS): ISBS**

PGDM recognizes the rapid advancement in technology and therefore provides use of digital content to ensure its students are aligned with the change in the needs of modern learners. ISBS PGDM has adopted Learning Management System (LMS) to efficiently manage academics as well as administrative processes.

A well-established LMS allows ISBS PGDM to follow a student-centric approach, increases engagement and student collaboration, gives flexibility and room for pedagogical experimentation to faculty and most important – it involves all stakeholders to be part of the teaching learning process. At ISBS, there exist two such major Software platforms which assist in achieving efficiency in functioning and provide administrative and academic data for smooth and quick decision making. Two such Systems used in ISBS PGDM are:

## 1. Inpods

### a) Introduction / Concept:

- i. Inpods is an LMS, digital technology for collaborative learning.
- ii. Used for sharing study material, administering assessments, linking assessments to CO's, Keeping record of attendance and marks, manage question banks and similar requirements.
- iii. The online system enables access from the web from any location, allowing students flexibility in learning.
- iv. It is a great tool to share pre and post learning readings with students in ISBS.
- v. Such a tool enables big data formatting during activities such as NBA as described below:
  - Calculation of CO attainment for the courses.
  - Capturing indirect assessment data.
  - Calculation of PO attainment for the student's batches.
  - Comparison of PO attainment across students batches.
  - Setting thresholds for attainment as per requirements of the institute.

### b) Utility in teaching Learning Process: CO-PO Mapping / Assessments / Evaluation / Result

#### Analysis

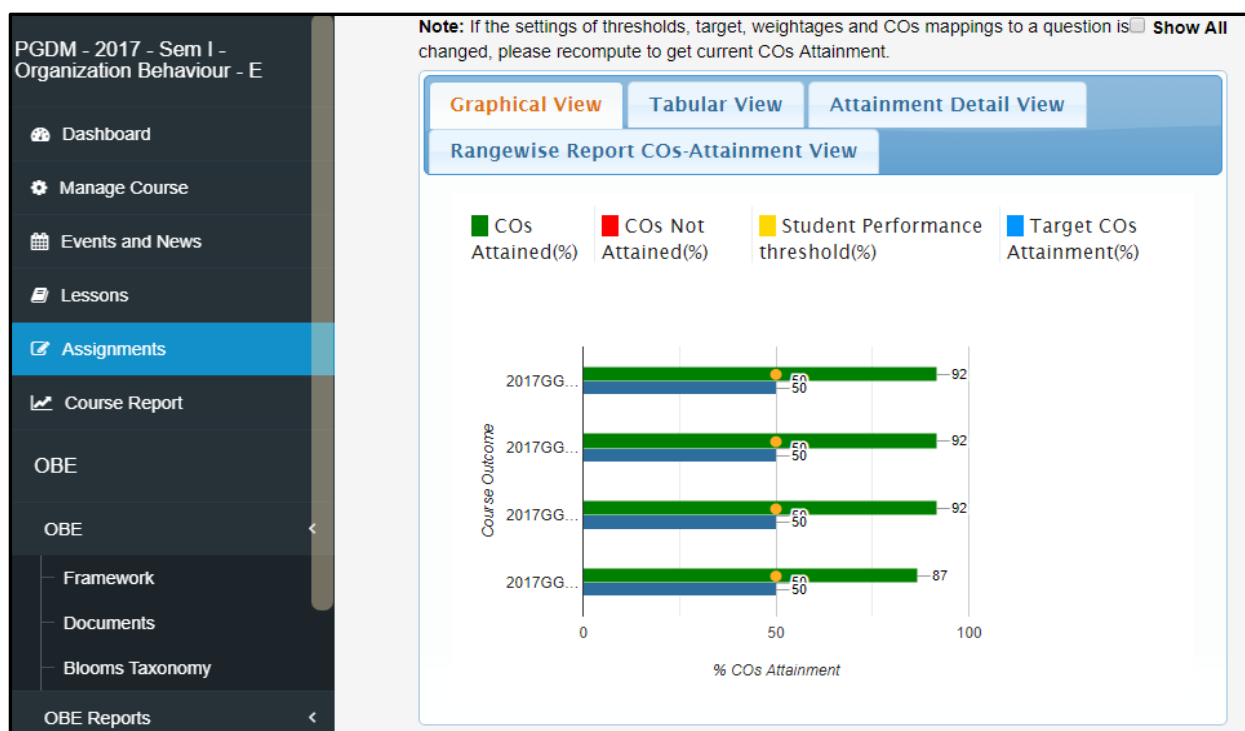

- a. The faculty can use the LMS for CO-PO mapping.
- b. Mapping assessments to Cos.
- c. Administering assessments.
- d. Grading assessments (MCQs automatically graded).
- e. Looking at individual performance and attendance of assessment at a glance.
- f. Graphs of assessment performance and CO attainment contribution of individual assessments available.
- g. Break-up of performance in assessments is available making result analysis easy.

### c) Usage for Student Assessment:

- a. Being used in all subjects to administer assignments.
- b. For online and university exams, marks are entered externally to get complete result of the student.

d) Snapshot of some reports using Inpods:

## 2. Governing Education Management System (GEMS)

ISBS has adopted GEMS as an educational platform for students and staff. GEMS provide innovative teaching-learning methodology that drives better outcomes for education and training. GEMS takes care of academics, admission, examination, attendance, scheduling, research, project work, course file management, events, worksheets, infrastructure, hostel, human resource, inventory, purchase, finance, online tests, examination, attendance, salary and tax, office management and library. GEMS saves time, provides accuracy in the process of stakeholders (i.e. students, faculty and staff) management and provides quick reports. Various modules offered by the system are mentioned below and ISBS continues to adopt and refine these to the extent of value and feasibility

### Academics

Academic modules take care of everything that is central to learning, education, and teaching. For example: courses and configuration, syllabus patterns, core and elective subjects, different evaluation methods, monitoring, mentoring, projects, practical's, tutorials and many more. Academics are supported with an easy and collaborative Content Management System through which faculty can share educational content, manage projects and assignments, and handle notifications, conduct quizzes and the like.

### Admission

Admissions module effectively manages admission through merit, entrance exam or a government regulated agency. It automates courses, intake for each course, number of shifts, seat division and eligibility, merit and merit per se, fee structures, revisions, concessions and sponsorship on fee for different category of students, admission cancellation policies, late fee policy and integration with finance module.

### Examination

The Examination module manages exam-related tasks at various levels. It fits very well with a university examination system, an autonomous set-up, and internal exams for an affiliated

institute. The configuration of examination module covers various exam related duties, moderation schemes, result format, exam cycles and the like. All exam processes such as exam centres, assessment centres, question paper setting, question paper disbursement, exam scheduling, invigilation, result compilation, re-evaluation, mark sheets generation and the like are duly provisioned in the system.

### **Attendance**

Attendance is a wholesome module that integrates and automates various attendance keeping methods including muster, attendance entry, login-based, biometric-based, barcode-scanning attendance and others.

### **Research**

Growth and learning is impossible without doing research. It's an important factor for any institute to grow and stand out. This module takes care of research projects, publications, conferences, journals, patents, copyrights, Ph.D. preparation and more.

### **Scheduler**

Planning and scheduling is of utmost importance for goals to be completed in time. This module comprises of powerful tools including personal planner, academic planner, financial planner, placement planner, event planner, reminders, emailing, sending SMS, scheduling, to-do lists, reporting, and others.

### **Feedback**

Feedback forms a key ingredient of any successful system. This module includes academic-specific feedback, customizable evaluation parameters, flexible key process areas, grading, and more.

### **Placement**

Placements module effectively manages the entire campus placement process. It takes care of job postings, registration of eligible students, placement event handling, career guidance, pre-screening, testing and many more.

### **Teaching**

The well-integrated module offers powerful tools that empower faculty to efficiently manage their work. These tools include academic calendar, planning, scheduling, course file, mentoring, projects, time-table and many more. Apart from above mentioned aspects the software takes care of project, course file, events, worksheets, infrastructure, hostel, human resource, inventory, purchase, finance, online test, examination, attendance, salary and tax, office management and library.

Presented below are sample reports of some of the activities conducted with the use of GEMS:

### 8.6. Sports Facility (10)

**Institute marks – 10**

ISBS PGDM believes that physical fitness is essential for mental well - being of students. Therefore, students are provided with platforms to pursue their sporting passion and to make them better team players. Sports Committee constituted for this purpose organizes various sports events which is a combination of outdoor and indoor games. The committee also organises regular fitness regime for students encompassing work out at the campus gymnasium, yoga sessions and besides encourages students to participate in various intercollege competitions organized by different B-Schools. ISBS PGDM has been a winner of the overall trophy of intercollegiate events organised by Savitribai Phule Pune University (SPPU) for several years.

Feedback is also provided to students about the extent of their participation in physical fitness regime so that they realise their fitness quotient.

Thus, initiatives for sports aim at:

- Providing an environment for physical development of the students.
- Providing opportunity to the student to showcase their talent in sports.
- Promote sportsmanship among students by organizing various sporting activities.
- Aid in holistic well-being of the student
- Providing guidance and mentoring to students and motivate them to participate in inter and intra institute competitions.

**Following are the details of available sports facilities for students:**

### 9.3 Methodology to connect with Alumni and its implementation (15)

Institutes' marks - 15

#### Alumni Portal

Alumni and their connect with the Alma mater is a matter of pride for ISBS PGDM. Therefore, ISBS PGDM takes various steps to ensure that it achieves this through adopting various methodologies as mentioned below:

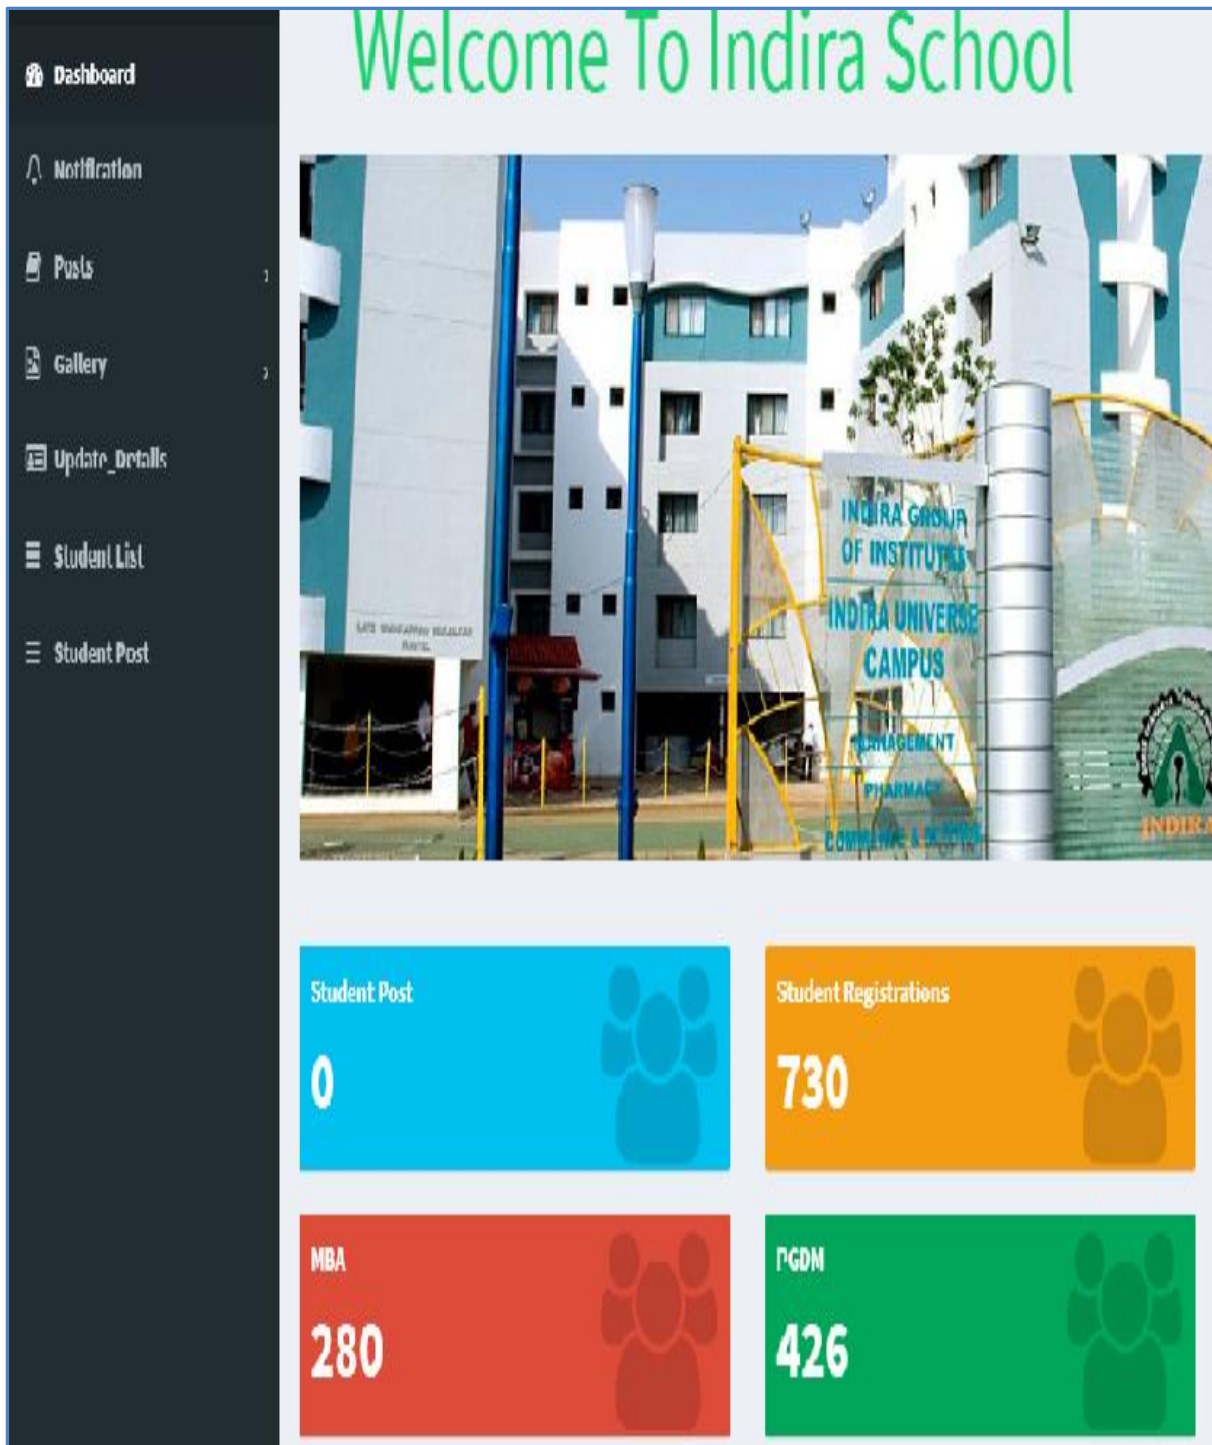

**Portal:** There exists a dedicated portal [www.alumni.indiraisbs.ac.in](http://www.alumni.indiraisbs.ac.in) for connecting the alumni and updating their current profiles. The alumnus is also given their username and password through which they upload information about internship, job opportunities and the like.

#### Objectives of having an Alumni Portal

- A full-fledged alumni management solution with similar capabilities with rich Alumni experience.
- Bring alumni together on one platform.
- Networking amongst alumni
- A platform to be relations with Alumni and existing students.
- Promotes real and all-round alumni engagement and serves as a one-stop solution for all the needs of the alumni association/institution.
- The platform also works as Database Management System for all our Alumni.

- Sharing alumni requirements for existing student’s internship, job opportunities and lateral placement.
- Recognition of Alumni achievements, rewards, and awards for their professional contribution.
- Some screenshots of Alumni Portal of ISBS and ISBS PGDM.

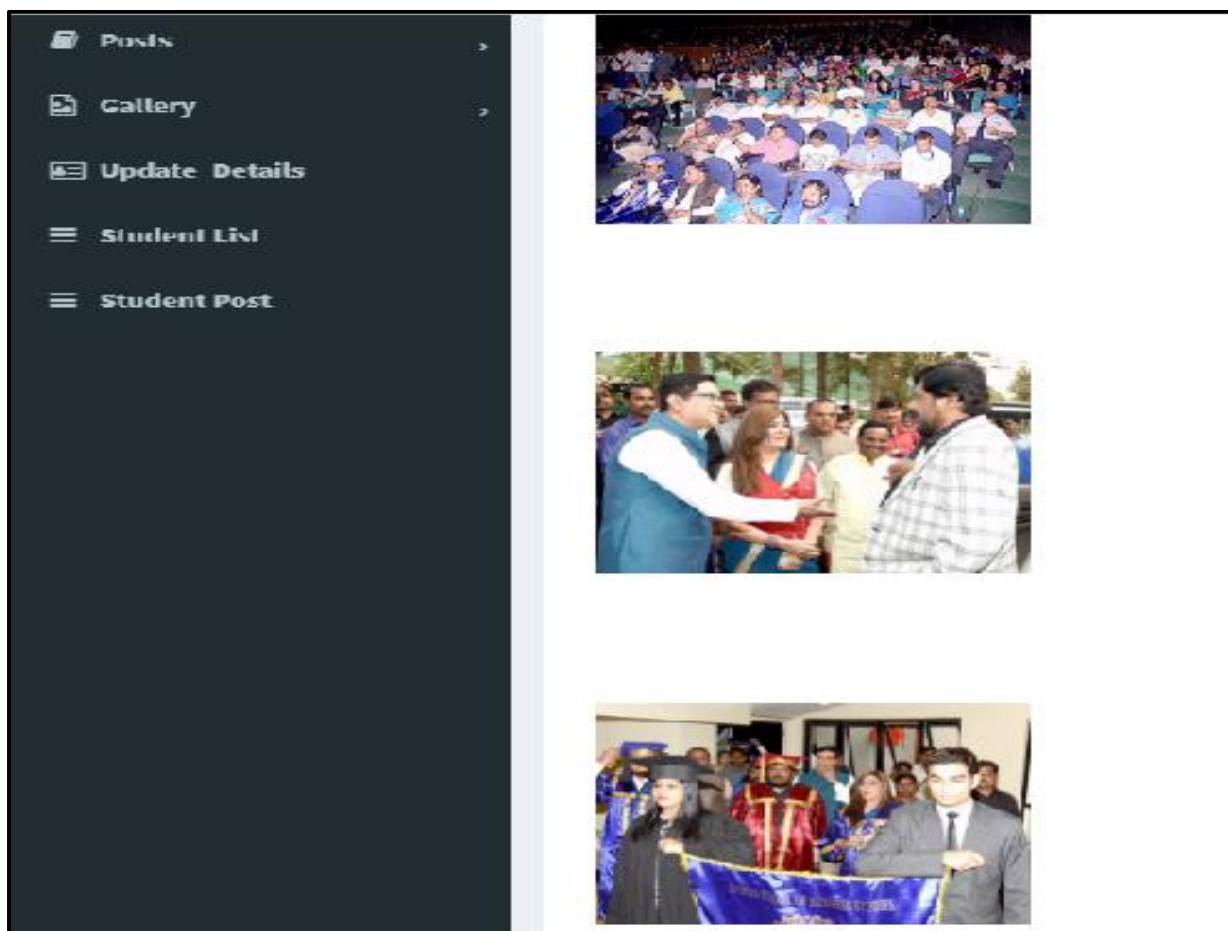

**Dashboard – reflecting 426 Active Alumni on the portal.**

## Social Media Platforms

ISBS PGDM harnesses the social media presence of our alumni for activities that are beneficial for students, college management and alumni. Social media platforms like **Facebook, WhatsApp & LinkedIn** enable constant alumni engagement recurrently.

- WhatsApp group has been created for all PGDM batches. The purpose of creating WhatsApp group is to make contact points wherein alumni are active and also to ensure quick & effective communication with the alumni.
- ISBS PGDM has a dedicated Facebook page for alumni named as **DOR**. This page was created so that alumnus could be updated of the ongoing achievements and progress of ISBS PGDM. Job vacancies & internship opportunities are posted on this page by the alumnus which are immensely helpful to the ongoing batch.
- **Alumni Meet/Reunion:** Alumni Meet is organized annually to connect with the alumni and allow current students an opportunity to network with their alumni. Alumni are encouraged to attend the annual meet in large numbers. This serves to:
  - Provide opportunity for Alumni to meet face to face with their batch mates and other alumni and allows them to network.
  - Helps to create alumni allegiance towards the alma mater.
  - Creates a lot of networking opportunity and a platform for idea sharing.

## Alumni Meet

**ISBS PGDM currently has started organizing Alumni Reunions.**

A 5 year home coming reunion was organized for PGDM batches 2006, 2007, 2008, 2009 & 2010 on 14<sup>th</sup> December 2019 in ISBS PGDM campus. 100+ alumni had attended the event.

Such reunions have various objectives:

- Promotes the interests and welfare of ISBS PGDM Alumni Association.
- Provides opportunities to the Alumni to suggest ways to serve the ISBS PGDM Alumni Association
- Promotes networking amongst Alumni.
- Provides platform for Alumni to discuss their challenges.

**Newsletters:** ISBS PGDM has a Bi-annual online newsletter which features alumni articles and their achievement/ award/ promotion. Serves mentioned purpose:

- The newsletter INSPIRA serves as a medium of disseminating information related to ISBS PGDM.
- Serves as voice for alumni.
- Highlights the achievements of alumnus.
- Invites **articles from the alumnus**

**Database:** ISBS PGDM does periodic update of alumni database by the alumni committee on campus. Regularly updating of alumni database serves to:

- Keep the website records updated about alumni.
- Disseminate alumni current information to all alumni.
- Ensures seamless connect with the alumni.
- Updating of database is done every year by alumni committee student members.

**Details of alumni meet/re-union held:**

- Alumni meet for PGDM 2014-16 Batch was held on 25<sup>th</sup> February 2017 in Kiwa Lounge, Hinjawadi, Pune.
- Alumni meet for PGDM Batch 2015-17 was held on 1<sup>st</sup> March 2018 in Grand Tamanna, Hinjawadi, Pune.
- Alumni meet for PGDM Batch 2016-18 was held on 16<sup>th</sup> March 2019 in Club 29, Wakad, Pune.

<b>Average PO Attainment</b>	<b>2.59</b>	<b>2.60</b>	<b>2.50</b>	<b>2.57</b>	<b>2.46</b>

The table above shows the actual PO attainment in different batches along with the average attainment across batches against highest level of PO attainment of 3. Graphs show the attainment of each PO in percentage for every batch. Highest level of 3 is taken as 100% to calculate the attainment percentage of POs.

**ISBS shows attainment level of each PO in the range of 74% to 98%.**

**As shown in the above graphs, the attainment levels of all POs have shown continuous improvement year on year.**

- The attainment level of PO1 has increased from 2.39 (79.66%) (Batch 2016-18) to 2.52 (84%) (Batch 2017-19) (5.44 % increase) and 2.52 (84%) (Batch 2017-19) to 2.85 (95%) (Batch 2018-20) (13% increase). ***This indicates that our students have shown improvement in the application of knowledge of management theories and practices to solve business problems.***

With an objective to continue with this upward trend of PO1 we have introduced new subjects in the curriculum of PGDM-Marketing (Batch 2020-22). These subjects were introduced based on the valuable suggestions received from industry experts, external academic experts, advisory committee member and other external stakeholders. The subjects such as “Digital Marketing”, “Marketing of Financial Products and Services”, “Tourism & Hospitality Marketing” “Social Media Marketing” etc. are newly introduced as core subjects. The list of all new core and elective subjects introduced is given in the table titled “Incremental curriculum changes brought in 2020 for Batch 2020-22” below.

- The attainment level of PO2 has increased from 2.39 (79.66%) (Batch 2016-18) to 2.54 (84.66%) (Batch 2017-19) (6.27% increase) and 2.54 (84.66%) (Batch 2017-19) to 2.86 (95.33%) (Batch 2018-20) (12.60% increase). ***This indicates that our students have shown improvement in the analytical and critical thinking abilities for data-based decision making.***

With an objective to continue with this upward trend of PO2 we have introduced new subject “Basics of Business Analytics” as a compulsory subject in the curriculum of PGDM-Marketing (Batch 2020-22) which will help students to develop their abilities for data-based decision making using various tools such as Power BI, Tableau, R-Language etc.

- The attainment level of PO3 has increased from 2.23 (74.33%) (Batch 2016-18) to 2.31 (77%) (Batch 2017-19) (3.59% increase) and 2.31 (77%) (Batch 2017-19) to 2.95 (98.33%) (Batch 2018-20) (27.70% increase). ***This indicates that our students have shown improvement in the development of value-based leadership skills.***

With an objective to continue with this upward trend of PO3, we are having Corporate Leadership Awards every year such as “Indira Brand Slam” “World HRD/ Asia Pacific HRM Congress, “Marketing Excellence Awards” etc. where Industry stalwarts share their growth stories with students and thus enriching them with real life experience of corporate world.

- The attainment level of PO4 has increased from 2.38 (79.33%) (Batch 2016-18) to 2.49 (83%) (Batch 2017-19) (4.62% increase) and 2.49 (83%) (Batch 2017-19) to 2.83(94.33%) (Batch 2018-20) (13.65% increase). ***This indicates that our students have shown improvement in the ability to understand, analyze and communicate global, economic, legal and ethical aspects of business.***

With an objective to continue with this upward trend of PO4, ISBS PGDM holds conferences and seminars every year, individually and in association with other

campuses in the Indira Group of Institutions, in which students get exposure to professional speakers in such platforms adds to the knowledge of students.

- The attainment level of PO5 has increased from 2.23 (74.33%) (Batch 2016-18) to 2.26 (75.33%) (Batch 2017-19) (16.58% increase) and 2.26 (86.66%) (Batch 2017-19) to 2.90 (96.67%) (Batch 2018-20) (11.53% increase). *This indicates that our students have shown improvement in the ability to lead themselves and others in the achievement of organizational goals, contributing effectively to a team environment.*

With an objective to continue with this upward trend of PO5, students undergoes an extensive CDP (**Career Development Program**) every year. Students are also assigned live filed projects to develop ability effectively work and contribute in a team environment.

**Following observations were registered about the overall PO attainment from the trend analysis of PO over the last three batches of 2016-18, 2017-19 and 2018-20:**

- Level of PO attainment shows an upward trend over the subsequent batches.
- Individual PO attainment for each subsequent batch also indicates an upward trend.
- The overall PO attainment across all POs and across each subsequent batch is indicative of positive steps taken which are contributing in increasing the attainment level of PO over the years for each batch.

**Actions taken to bridge the gaps identified through PO exercise.**

Having assessed the PO attainment level of students of a particular batch, ISBS PGDM conducts analysis of the performance of students in subsequent batches with respect to honing the requisite skills of the students and plans input for implementation.

One of the Mission statements at ISBS PGDM is “To promote learning environment for students from diverse cultures and engage them in globally relevant knowledge dimensions for future application in industry, business and life.” To engage students in globally relevant knowledge dimension and application orientation it is imperative to take the students beyond the fixed curriculum offered by the university. Therefore, focus of teaching learning efforts at ISBS have stressed on holistic development of the students, exposing students to multi-disciplinary aspects in learning.

Gaps in Program Outcome (PO) are reviewed by the IQAC in ISBS PGDM and subsequently the Board of Studies (BOS) plays a critical role in recommending additional inputs to bridge the same with curriculum intervention, pedagogical initiatives, and support system improvements. Presence of industry and academic experts in the BOS and Advisory Board suggest current industry requirements and assist in aligning the internal curriculum.

Curriculum is deliberated upon and ratified, as per recommendations/suggestions received from BOS and industry experts to suit the current industry requirements. Inputs are solicited from experts on not just on course structure but also on the content of curriculum. Curriculum thus evolves every year to keep abreast with changing trends and requirements of industry.

ISBS PGDM appreciates the need of employability as an essential outcome from a management program and therefore supplement academics with co-curricular input relevant to providing teaching learning in that direction.

To fulfil the gaps in the PO and enhance the employability input requirement in the curriculum, a comprehensive skill-based program called the Career and Leadership Development Program (CLDP) has been designed by internal academic team at ISBS PGDM along with input from the industry professionals. CLDP is delivered parallel with academic curriculum.

**Some such required skills and corresponding initiatives are mentioned as under:**

- OZONE** – ISBS PGDM provides the students with a skill development activity called "OZONE". In this initiative corporate professionals train the students to impart skills relevant to face recruitment processes and serve as a bridge building activity to cater to the expectations of the industry from the management graduates. The industry experts train the students on their interview skills, group discussions and summer internship project presentation. In this program the students are given an insight on how they can portray the applicability of their project work in organization that will join. This program is conducted in the first three semesters for the students.
- XED Intellect:** ISBS PGDM provides the students with analytical training called XED Intellect. This input is provided to students to build an analytical and logical aptitude in their repertoire of skills, to enhance decision making as a management professional. This program is conducted in the first two semesters for the students.
- Proton** – Aptitude refers to the competency of students to acquire knowledge. With the help of aptitude tests ISBS PGDM assists students to predict and understand their learnability and work towards enhancing gaps in their learning. It also assists students to assess their potential and suitability for certain careers.

**12. Personality development Program** - Indira School of Business Studies PGDM focuses on imparting knowledge on various technical domains on one hand and also lays high emphasis on improving the personality of students to enhance their complete repertoire, desirous of a management professional. Following initiatives are implemented for students personality grooming:

**Language Leadership Lab** - Communication skills are essential for enhancement of student's personality on one hand and another to augment their interpersonal skills for people management. ISBS PGDM provides English language training along with finer aspects of communication skills and utilizes its provision of Language Leadership Lab (LAB) This prepares students for effective skills such as Reading, Speaking, Listening and Writing in English Language. These sessions are extensive, result oriented and are conducted by experienced trainers.

To accomplish the objective, ISBS PGDM has well equipped audio- visual "English LAB" with latest technology to enhance interactive learning. The LAB has software that helps students learn and grade themselves on various parameters. The LAB is developed on the methodology of Listening, Speaking, Writing, Reading skills.

It has following interactive modules:

- Audio recording for assessing one's speech
- Vocabulary Building modules
- Self-Paced Reading Exercises
- Interactive Quizzes.
- Listening Exercises

**Soft Skill Development** - Besides communication skills, ISBS PGDM aims to nurture and empower its future managers with soft skills to meet the ever-changing needs of modern globalized business. Soft Skill Development Programs are process driven with content standardization, for enhancing overall personality of students. Appropriate trainer selection brings forth desired outcome from the training imparted. Soft Skill Development includes input on:

- Goal Setting and Career Planning
- Positive Thanking and Motivation.
- Time Management, People Skills, Business Etiquettes
- Personal Grooming and Hygiene and many more

### **Implementation of Career and Leadership Development Program (CLDP)**

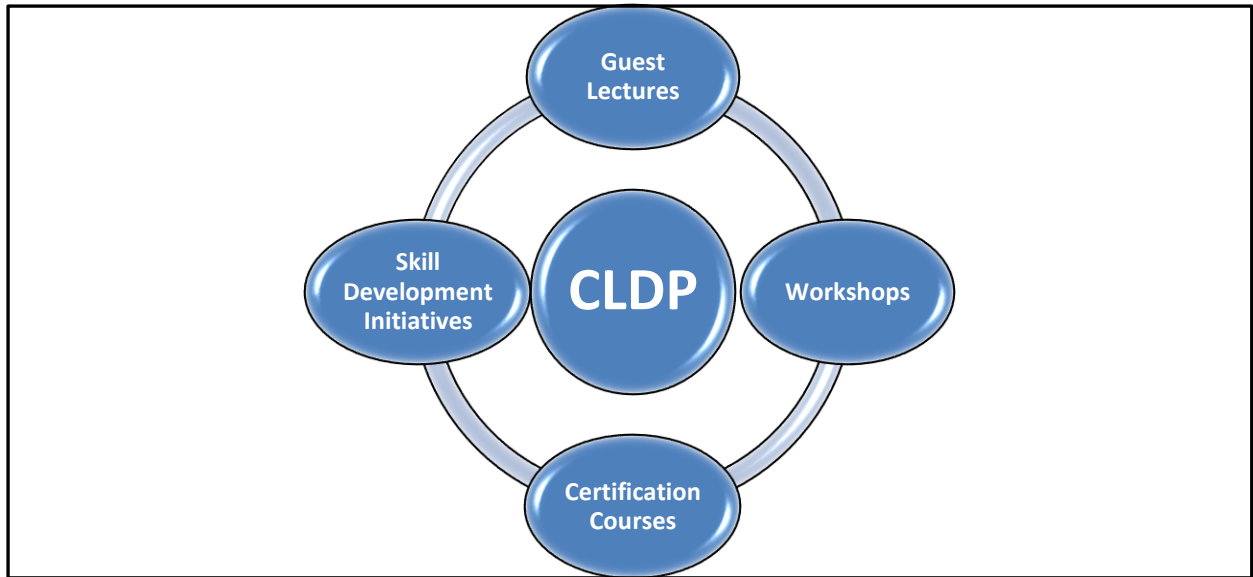

CLDP is a comprehensive program and thus the inputs are systematically spread across all the four semesters of the PGDM-Marketing Program.

**Semester I** – Focus is on fundamental competencies of the students viz communication skills, General awareness, basic inputs on GD and PI and aptitude skills.

**Semester II** – Focus shifts on imparting domain related skills through customized CLDP inputs. Prime focus of this semester is to build domain expertise that is achieved through organizing specialized workshops, giving detailed knowledge of different sectors and placement related inputs especially GD/PI training.

**Semester III and IV** –The focus areas are primarily around placement specific inputs. Extensive training is provided on group discussions, personal interviews and company related inputs.

To summarize CLDP inputs can broadly be categorised into following activities:

The employability skills of students and the intensity of skills required may vary based on economic trend with respect to business conditions in the environment. ISBS keeps note of this and modifies the implementation of skills with respect to requirement by industry. At the same time the inflow of students in each batch also varies based on competency and capacity levels of students. Keeping these precepts in mind the above-mentioned initiatives as part of CLDP plan are tweaked to suit the requirement of students and at the same time ensures requirement of skills as per the demand of business environment is provided to the students.

**ISBS has analysed its progression with attainment of PO over the years and the observations have shown a positive trend, as mentioned below:**

Individual PO attainment for each subsequent batch also indicates an upward trend.

The above graph depicts that all POs have shown continuous improvement year on year. The overall PO attainment across each subsequent batch is indicative of positive steps taken by

ISBS PGDM which are contributing in increasing the attainment level of PO over the years for each batch.

## 10.2. Academic Audit and actions taken thereof during the period of Assessment (10)

Institutes' Marks - 10

Academic audit is done by Internal Quality Assurance Cell (IQAC) to ensure quality standards in academics carried out by the BOS/academic committee. Academic committee along with Director reviews the academic progress of the program in the light of detailed result analysis shared by Board of Examination (BOE) and identifies the gaps therein. These gaps in the courses are then reviewed in the academic committee meeting and shared with BOS for suggesting actions to be taken to bridge the same.

Academic progress which is reflected through internal and external assessments is taken as a base to identify various academic gaps. The need for extra inputs and pedagogical changes are identified based on CO attainment of each course.

**CO-attainment Observations:** Attainment level for each course is calculated on the basis of internal and external assessment as per the below mentioned standards:

Basis for Course Attainment Level
Threshold marks = 60% marks
Percentage (%) attainment of learning outcomes of course = Percentage (%) of students getting set threshold marks (i.e., 60%)

The above-mentioned standard is followed for both the internal and external assessment and then weighted average attainment of the course is calculated keeping internal/continuous assessment and end semester examination weightage as 40% and 60% respectively.

**Observations:** The following observations were made while calculating CO attainment across batches:

### Batch 2016-18

- 17 subjects out of total 37 subjects have attained less than 61% of learning outcomes.
- 5 subjects out of total 37 subjects have attained learning outcomes in the range of 61-70%.
- 15 subjects out of total 37 subjects have attained leaning outcomes in the range of 71-100%.

### Batch 2017-19

- 15 subjects out of total 37 subjects have attained less than 61% of learning outcomes.
- 6 subjects out of total 37 subjects have attained learning outcomes in the range of 61-70%.
- 16 subjects out of total 37 subjects have attained leaning outcomes in the range of 71-100%.

### **Batch 2018-20**

- 6 subjects out of total 38 subjects have attained less than 61% of learning outcomes.
- 3 subjects out of total 38 subjects have attained learning outcomes in the range of 61-70%.
- 29 subjects out of total 38 subjects have attained leaning outcomes in the range of 71-100%.

**Actions taken:** CO-attainment levels or result analysis indicates above average targeted results, as numbers of subjects with learning outcome higher than 70% has been incremental over the three batches analysed.

Scope for further improvement exists particularly with subjects which have learning outcome range from 60% to 70% and less than 60%.

Having centred on improvement plan for learning outcome post the academic audit, initiatives are planned by the academic committee. Such initiatives are planned to take into account

- Diversity in students to cope with management education
- Differences in learning cycle for students
- Weak students with special needs.

Faculty employ diverse teaching pedagogy to ensure teaching and learning is more effective. Frequent reviews and feedback from students ensure modification in teaching methodology. Results are reviewed after each assessment and performance is discussed with students. Such initiatives have aided the students to perform better towards the completion of program progressively as compared to their performance in the initial period of the program.

Mentioned below are some initiatives to enhance learning outcome:

- Faculty ensure utilization of at least three different teaching pedagogy/methodologies in teaching plan of each subject.
- Tutorials are conducted to help students in small batches to improve on the specific subjects.
- Guest sessions in almost every subject to help students gain practical perspective of the subject.
- Status of syllabus completion is taken intermittently by the Deputy Director and HOD at the start of the program, mid semester and an end semester review to ensure timely completion of the required content.
- Inclusiveness of Massive Open Online Courses (MOOCs) to make students learn in their personal space continuously.
- Various class and library assignments in subjects to provide effective grasp and practice for the students.

Such initiatives by ISBS PGDM have sustained an upward trend in the results in each progressive year for the students. Such upward trend in results over the years is demonstrated in the table below:

**Table 10.2: Analysis of CO Attainment Range (%)**

CO Attainment Range (%)	16-18 Batch	17-19 Batch	18-20 Batch
<61	17	15	6
61-70	5	6	3
71-80	4	4	15
81-90	6	6	7
91-100	5	6	7

The table above demonstrates the CO-attainment of various courses taught in three subsequent student batches. CO-attainment range in the table means the %age result of various courses through internal/continuous and semester end assessment methods. As is evident the result has shown improvement over the subsequent batches.

The graphical representation below demonstrates the improvement of CO attainment of successive batches considered:

The above table shows the consolidated picture of attainment levels of courses through batches.

It can be observed that number of subjects having <61% attainment level has decreased from 17 out of 37 subjects for the batch 2016-18 to 15 out of 37 subjects for the batch 2017-19 and 6 out of 38 subjects for the batch 2018-20

The number of subjects with CO attainment in the range 91 to 100 has also increased from 5 out of 37 subjects for the batch 2016-18 to 6 out of 37 subjects for the batch 2017-19 and 7 out of 38 subjects for the batch 2018-20.

**This shows that there is an improvement in the result year on year.**

### 10.3. Improvement in Placement, Higher Studies and Entrepreneurship (10)

Institutes' Marks - 10

- Improvement in Placement, Higher Studies and Entrepreneurship:** Employability is a high priority for students pursuing management studies. ISBS acknowledges this aspect and efforts for student development are focused keeping the employability precept in mind. Specifically designed Career and Leadership Development Program (CLDP) at ISBS is instrumental to equip students with the requisite skill sets to ensure their employability quotient. CLDP along with academic curriculum play a major role in the above average placement record of the students. As is indicated by the table below, there has been an observable improvement in placement record of students over the succeeding batches.

**Table 10.3.1-Placement Ratio**

Particulars	CAYm1 (2019-20)	CAYm2 (2018-19)	CAYm3 (2017-18)
	Batch 18-20	Batch 17-19	Batch 16-18
No. of students placed in companies	48	53	45
No. of students pursuing Ph.D. / Higher Studies (y)	2	1	0
No. of students turned entrepreneur (z)	0	1	0
$x + y + z =$	50	55	45
N= total no. of students admitted	60	60	60
Placement Index: $(x + y + z)/N$	<b>83.33%</b>	<b>90%</b>	<b>75%</b>

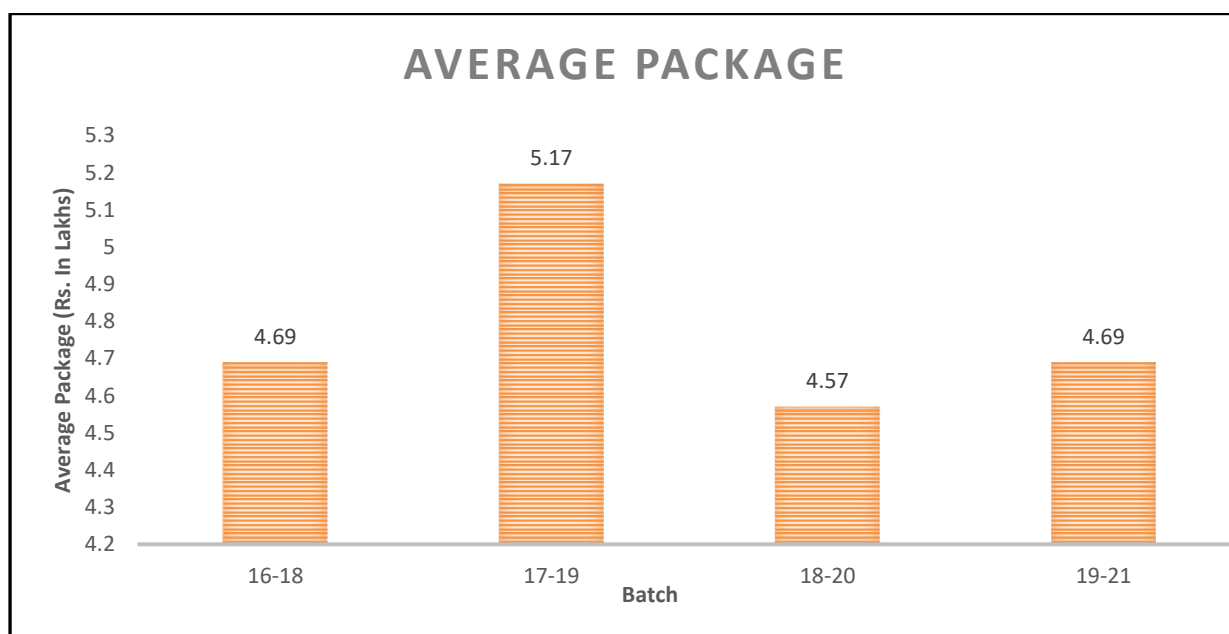

The above table shows the number of students placed in various companies along with the higher studies and entrepreneurship data. Placement index has improved over the years showing a good impact of the actions taken to improve various skills of the students through curricular, co-curricular and extra-curricular activities.

- **Improvement in Pay Packages of Placements:** Along with the number of students placed, the pay packages have also increased over the years. The pay packages analysis across batches is shown in the table below.

**Table 10.3.2-Placemnt Pay Packages**

Placement Package Summary (Rs. In Lakhs)				
Package	16-18	17-19	18-20	19-21
Highest Package	8.76	7.8	9.6	7.94
Lowest Package	3	1.5	2.8	2.16
Average Package	<b>4.69</b>	<b>5.17</b>	<b>4.57</b>	<b>4.69</b>

The above-mentioned table depicts that the pay packages across batches have increased. Highest and lowest packages of three batches are shown along with the average package. Average package is calculated by dividing the submission of pay packages offered by total no. of students.

The above graph shows the average package over batches has increased.

#### 10.4. Improvement in the quality of students admitted to the program (10)

Institutes' Marks - 10

In view of the mission statement to promote learning environment for students from diverse cultures and engage them in globally relevant knowledge dimensions for future application in Industry, Business and Life. ISBS has students from various geographical part of the country with different set of values, skill sets and competency level. We provide rigorous inputs to our students to make them employable and lead in their organizational and personal life. Result of the efforts can be seen in the placements over the years.
